

SANTA FE NEW MEXICAN

VOL. 46.

SANTA FE, NEW MEXICO, SATURDAY JULY 17, 1909.

NO. 132

BOARD OF TRADE ELECTS OFFICERS

Well Attended Meeting of Local Business Men

BRODHEAD TO BE PRESIDENT

Tree Planting, Good Roads, and Chautauqua Some of Topics Discussed.

A. H. Brodhead, President; John P. Wagner, Vice President; J. A. Rolls, Secretary; W. F. Owen, Corresponding Secretary; Carl A. Bishop, Treasurer; L. B. Prince, Paul A. F. Walter, R. J. Palen, B. M. Read, Jose D. Sena, A. H. Brodhead and John P. Wagner, trustees.

These are the officers to whom the destinies of the Santa Fe Board of Trade were entrusted by a well attended meeting last evening in the offices of the Santa Fe Water and Light Company.

L. B. Prince presided and in calling the meeting to order reviewed briefly some of the work accomplished by the Board of Trade, the oldest commercial organization in the Southwest. The New Mexican hopes to print the address in full at a future date.

J. E. Clark, Rupert F. Asplund, W. D. Hayes, V. L. Bean, Raymond Haack and Jacobo Chaves were elected to membership.

The committee on tree planting reported that the penitentiary authorities have offered to plant and maintain trees from the penitentiary to Montezuma avenue, there to connect with the Boulevard already planted by the Board of Trade from the depots to the Plaza. It was also explained that the penitentiary authorities would construct a sidewalk the entire distance, asking merely that the property owners pay for the brick. The committee was instructed and authorized to purchase the trees next spring and to have them boxed and praise for the public spiritedness of the present penitentiary management was expressed.

The committee on publication called attention to the new Santa Fe county pamphlet prepared by it and now in press and paid for in part by the Bureau of Immigration and in part by the New Mexican Printing Company, so that it will be no expense to the Board of Trade.

Professor J. A. Wood, for the joint committee on Chautauqua made an extensive report which is reproduced on another page. As soon as the report is also made to the Commercial Club, the Board of Trade will ask the Commercial Club to join in a call for a public meeting at which the Chautauqua matter is to be fully discussed.

A resolution of thanks to the Santa Fe Railway Company was adopted, expressing appreciation of the fact that a new depot is being erected at Santa Fe while another one has been constructed at Lamy, and asking for the speedy rebuilding of the Harvey house at Lamy.

The matter of good roads received considerable attention, W. F. Owen, and Mayor Jose D. Sena, asking that the Board of Trade join in a movement that will result with eliminating the practice of distributing the road fund among precinct supervisors instead of applying it to one good roads project and pushing it to completion. Attention was called to the good work that Governor Curry and Mayor Sena are doing for roads in Santa Fe county and the fact that the board of county commissioners has given \$1,000 toward completing the Scenic Highway to the Pecos. The matter was referred to a special committee to be appointed by the new president of the board.

Mayor Jose D. Sena urged the Board of Trade to attend the meeting on Monday evening in the Commercial Club rooms of the members of the City Council and citizens to discuss the matter of building a sewer system for the city.

Other topics were discussed at length and it was eleven o'clock when final adjournment was taken. The meeting was one of the most enthusiastic and best attended held for a long time and betokens that the community is awakening to its own advantages and prosperous future.

This morning President A. H. Brodhead announced that he had appointed L. B. Prince and Jose D. Sena as delegates to the Trans-Mississippi Congress at Denver, Colorado, and Dr. John B. Wagner, as delegate to the Irrigation Congress at Spokane.

PRESIDENT TAFT'S ULTIMATUM

Revision of Tariff Must Be Downward He Insists

NO TRUST GOODS FOR ARMY

Secretary Dickinson Issues Stringent Orders to Commissary.

Washington, D. C., July 17.—The statement of the President yesterday that he considered that the Republican platform and the people as a whole demanded "revision downward" was made clear, that he intended the statement virtually as an ultimatum. Some regard it as a barely concealed threat to veto if the bill reached him in a form as to be unfaithful to the promises of the party. Others regard the statement as a club to reduce the opposition to downward revision and to shorten the long fight. It is believed that the President's statement will have a profound effect on both the conference committee and the House of Congress.

No Trust Goods for Soldiers.

Washington, D. C., July 17.—The American regular soldier is neither to be fed, clothed or armed by the trusts in the future if Secretary of War Dickinson can prevent. He directed Brigadier General Sharpe of the commissary department to enter into no contract with any corporation party to a trust or combination in restraint of trade or any agent of such concern.

Outlook is Dark.

Washington, D. C., July 17.—"Do you happen to know," asked one of the Senate tariff conferees on the way to the meeting today, "whether the President's attitude regarding the tariff is correctly reported in the papers this morning?" The question was addressed to a newspaper man who assured the Senator that there is no doubt that the President is correctly represented. The Senator was evidently much depressed and uncertain as to the outlook. "Then," he said, "the outlook is discouraging indeed. While it is not stated in so many words, the President will demand free raw material, such is the tendency and if such should be the demand, it looks impossible to get a bill with free raw material through the Senate. For instance I do not believe the Senate can be induced to pass a bill putting hides on the free list."

Reduction on Dress Goods.

Washington, D. C., July 17.—The tariff conferees this morning considered the cotton schedule. Payne stated he thought that the specific duties placed by the Senate higher than the House advalorem which they replaced and asked time to investigate. The fight in conference is not now between the Senate and the House, but between the President and both houses. The question is how much the conferees can concede to the President and still secure the acceptance of the conference report. The conferees agreed to a reduction of five percent on the Dingley rates on women's and children's dress goods, cotton warp.

Reduction on Woolens.

Washington, D. C., July 17.—The conference finally disposing of the wool schedule by reducing five per cent on women's and children's dress goods, reducing 25 per cent duty on yarns, valued at 30 cents a pound or less, and a reduction on tops in accordance with the reduced duty on yarns.

SUICIDE RATHER THAN ASYLUM

Chicago Woman Kills Her Children and Then Herself Rather Than Go to Institution.

Chicago, Ill., July 17.—Murder and suicide rather than confinement in an institution for the feeble minded is the choice of Mrs. Anne Schenk, whose body was found in a gas filled room, with two little sons, aged 7 and 11, today. Her husband contemplated putting her in an asylum and supposed the wife learned of his plan.

GLENN AEROPLANE BREAKS RECORDS

Covers Twenty-Five Miles in Less Than Hour in Contest for Scientific American Cup.

Mineola, N. Y., July 17.—Glenn H. Curtis, in his aeroplane, broke the year's record this morning by a flight of 24.7 miles over Hempstead plains course in 53 minutes, 46 seconds, for the Scientific American cup.

EYES OF CAPITAL TURNED WESTWARD

New Mexico In Lime Light More Than Ever

BANKER FLICK RETURNS

Filled With Enthusiasm Regarding the Future Prospects of Santa Fe.

After an absence from the city of six weeks, during which time he settled all business and personal affairs in Chicago, President G. Franklin Flick of the U. S. Bank and Trust Company has returned to Santa Fe where he will now make his permanent home. While in Chicago he was greatly surprised at the amount of activity in preparation for the National Irrigation Congress which is to take place in that city in the fall. Said he:

"The coming National Irrigation Congress is going to be an affair of unusual magnitude and the people of Chicago are working hard and incessantly to make the affair a grand success. It is to be under the auspices of the Chicago Association of Commerce. This body consists of over three thousand members and every line of business is well represented. As a result of the preparations going on, the southwest is attracting unusual attention and unquestionably the Congress will aid the southwest to a wonderful extent. Of late capital has been directing its attention to this section of the country. More interest is aroused now than I have ever witnessed before. It is estimated by the railroads that every two weeks sees ten thousand people leave Chicago for the great southwest, going as settlers or seeking good investment and a chance to use capital to advantage. That this westward tendency will even grow greater I am certain. Irrigation projects appear to be the main attracting feature and as such opportunities greatly abound in this Territory it can readily be seen what a future lies before us here. I have met also with frequent inquiries about mining conditions in this section but as I have stated, irrigation matters afford better inducement.

It has been a source of great gratification to me to note the steady improvement in Santa Fe. Here I intend to make my future home and my faith is limitless in the abundance of opportunity that it at our very door. I believe of course in a conservative growth and am greatly opposed to an inflated and exaggerated boom that is always bound to react to the detriment of the city. That sufficient capital can be secured to develop all the various projects in this vicinity, I am thoroughly convinced. All that is needed is sufficient outside advertising."

Mr. Flick has made arrangements to take the house belonging to Judge Laughlin during the latter's absence in Europe. Later on he will secure a home of his own.

AMERICAN ATHLETES DENY CHARGES

Assertion That They Behaved As Gentlemen

MET WITH MUCH PREJUDICE

Harry Payne Whitney Challenged to Make Good His Statements.

New York, July 17.—The charges made by Harry Payne Whitney of the American Polo team at a banquet in London that the conduct of the American Olympic team last year was disgraceful, created a storm of protest here. James E. Sullivan, U. S. commissioner to the games makes a denial. "Whitney is not in position to know the American athletes," said Sullivan. "We met opposition of every sort, fair and unfair, that the English officials could devise and had to fight for our rights which any other country would have insisted on giving the visiting athletes. I was present all the time and failed to see anything in the conduct of our boys warranting the charges of Whitney. If he makes specific charges I will see them answered and prove him wrong."

REFUSE TO RE- CEIVE STRIKERS

Feeling Is Very Bitter in Smoky City

ANOTHER RIOT LAST NIGHT

Leaders Order Workmen to Stick Close to Their Homes.

Pittsburg, Pa., July 17.—Although the strikers feel great animosity at the refusal of President Hoffstott of the Pressed Steel Car Company to receive a delegation of strikers, under any consideration, the strike leaders have issued orders for the strikers to stick close to their homes today. A meeting of strikers is scheduled late this afternoon to ask the mayor and city officials to put an end to the strike or force arbitration. Effort will also be made to finance the strike for an extended period. There was a brief battle last night during an attempt to land a consignment of cots for non-union men within the stockade.

In the riot the women with babies on one arm and a brick or a piece of slag in the other hand, outstripped the men in ferocity. The committee of the Building Trades Council of the Federation of Labor issued a statement saying that conditions at the plant are intolerable and is asking financial aid from the general public for the strikers. Rioting broke out yesterday at the plant of the Standard Steel Car Company at Lyndora, and a fierce battle occurred this morning between American workmen and foreigners. The constabulary were sent for but all are occupied at McKee's Rock.

The office force was attacked on its way to work this morning and driven back to the ferry boat by the strikers. Fourteen strike leaders was arrested. The company is preparing to resume operations with as many men as possible.

IN THE SCHOOL OF PERSUASION

"No Vote, No Husband, is to Be Slogan of Suffragettes of Chicago and Spokane.

Spokane, Wash., July 17.—"No vote, no husband" is the slogan of 250 girls of marriageable age who have just organized the College Equal Suffrage Club of Spokane, under the presidency of Mrs. Z. W. Comerford. Each has taken a solemn vow to convert her suitor to woman's rights before entering upon an engagement.

The plan to enlist Cupid into the ranks as an ally was originated by a half dozen timid members, who, after several conferences, persuaded Mrs. Comerford to launch the movement and recruit the membership to 500 before the beginning of September.

This does not mean that the methods introduced by Mr. Adam when he first met Miss Eve are to be barred here, but that the valiant knight must break customs instead of lances and gain for his lady love the privilege to cast her ballot if he is to have the wealth of satisfaction in his game of wooing.

"While our members are not going to be quite as radical as the Chicago girls," said Mrs. Comerford, "there will be absolutely no encouragement to those who do not believe in the suffragists' cause. We expect to start a school of conversion. The girls will not be pledged to refuse a suitor, who is not a suffragist, but it is expected that every member will promise to use her best endeavors to win the man for us."

"It is pretty well understood among those who are in earnest in this campaign that the man who is open to conviction on the matter of equal suffrage will be the one who is to encounter the least difficulty in winning his suit. That, we believe, is one of the strong points in our campaign."

"Political economy will be another feature. We intend to take up all the problems just as men do, and there will be debates and discussions at our regular meetings. It may be that these will eventually work themselves into public meetings and will be one of the factors in suffragists' work in Spokane and throughout the state of Washington."

"We have practically all the suffragists in Spokane lined up in the work, and it may be we shall extend the campaign throughout other parts of the country, and in this we believe we have the best plan of conversion that has yet been devised."

"In this connection we shall make an attempt to enlist every unmarried
