

The New Mexican Printing Company has prepared civil and criminal dockets especially for the use of justices of the peace. They are especially ruled, with printed headings, in either Spanish or English, made of good record paper, strongly and durably bound with leather back and covers and canvas, sides, have full index in front and the fees of justices of the peace and constables printed in full on the first page. The pages are 10 1/2 x 6 inches. These books are made up in civil and criminal dockets, separate of 32 pages each, or with both civil and criminal bound in one book, 80 pages civil and 320 pages criminal. To introduce them they are offered at the following low prices:

Civil or criminal.....\$2.75  
 Combined civil and criminal.....\$4.00  
 For 45 cents additional for a single docket, or 55 cents additional for a combination docket, they will be sent by mail or prepaid express. Cash in full must accompany order. State plainly whether English or Spanish printed heading is wanted.

Herewith are some bargains offered by the New Mexican Printing Company: Code of Civil Procedure of the Territory of New Mexico, 1897, sheep bound, \$1; paper bound, 75c; Missouri Pleading forms, \$5; Missouri Code Pleadings, \$6; the two for \$10; Adapted to New Mexico Code, Laws of New Mexico, 1899, 1901, and 1903, English and Spanish pamphlet, \$2.25; full leather, \$3; Chert's Flexible-Cover Pocket Docket, single, \$1.25; two or more looks, \$1 each; New Mexico Supreme Court Reports, Nos. 3 to 10, inclusive \$3.30 each; Compilation Corporation Laws 75c; Compilation Mining Laws, 50c; Money's Digest of New Mexico Reports, full sheep, \$6.50; full list school blanks.

**RHEUMATIC FOLKS.**

Are You Sure Your Kidneys are Well?

Many rheumatic attacks are due to uric acid in the blood. But the duty of the kidneys is to remove all uric acid from the blood. Its presence there shows the kidneys are inactive. Don't dally with "uric acid solvents." You might go on till doomsday with them, but until you cure the kidneys you will never get well. Doan's Kidney Pills not only remove uric acid, but cure the kidneys and then all danger from uric acid is ended. Here is Santa Fe testimony to prove it.

Anselmo Arujo, living at 124 Cerillos street, Santa Fe, N. M., says: "For several years my wife suffered a great deal from back ache, pain in the back of her head and rheumatism. Medicines that she used proved of little or no avail until she commenced with Doan's Kidney Pills which we had the good fortune to learn of and procured a box at The Ireland Pharmacy. The genuineness of this medicine as a cure for the kidneys was amply proven in her case. After using five boxes she was a well woman and has enjoyed good health ever since. I make this statement unsolicited, being prompted to do so that I may show my appreciation of this remedy, Doan's Kidney Pills."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

Don't forget our large and complete bindery and job department. All work handled in the most up-to-date manner. One trial makes you a permanent customer.

**MINES AND MINING.**

**Otero County.**

A correspondent of the Mining World writes as follows under date of July 25, from Orogrande:

"One of the largest concentrating plants is to be constructed by the Tularosa Copper Company operating at Bent, in Tularosa Canon, north of Alamogordo. At the present time the company operates a mill of 30 tons daily capacity. The plans for the larger plant have been drawn and bids will shortly be asked for the construction of the mill. The company's property is located 15 miles from the railroad, and at present 35 men are employed in mine and mill. Mining operations are carried on in a mineralized porphyry dike, the width of which has not yet been ascertained. The mineral occurs in kidneys in the dike, and is disseminated through the mass in stringers, slivers and pin points of sulphide, with occasional specks of native copper. Chalcocite is the predominating mineral, however. This ore is taken from the bottom of a 70-foot shaft in chambers about 60 feet square and a new shaft is being started on the same dike.

"In mining the sulphide, the ore is hand-sorted in the mine, the crude smelting ore being very rich, running 50 per cent in copper. The balance goes to the breaker, thence to two sets of rolls, followed by two No. 5. Wilfley tables, over which 15 tons each are sent daily, making a concentrate that runs very high. Shipments are made to the Copper Queen smelter at Douglas, Arizona. The concentrates carry 9 per cent iron, 7 per cent lime, 20 per cent sulphur and the balance in silica. The company has been shipping for over a year and drifts 300 feet each way from the bottom of the shaft have been sent out into the mineralized mass. George Bent is manager.

"The Southwest Mining Company at Orogrande is to blow in its smelting plant July 1. Fuel is arriving now, purchase of same having been made in the Indian Territory. At the present time the second level of the Lucky mine is being continued through the hill to the flat on the north side where it will emerge at the collar of the new shaft. The ore is to be trammed through the hill to the bins on the south side. At a depth of 220 feet in the new shaft three drifts are driving in an ore body 20 feet in width, iron in character, carrying copper of a smelting grade, and from which shipments are to be made to the reduction plant. In the old workings ore is being mined and more developed. From the bottom of the Lucky shaft diamond drilling operations are carried on to exploit the regions below. As the drifts are extended, water is encountered, which flows at the rate of about 70 gallons a minute. A new compressor is to be installed in the flat and a larger boiler house erected there also.

"The Lincoln Concentrator at Brice is shipping three to four cars of secondary copper ore monthly, which gives returns of from \$500 to \$600 per car net at the smelter, shipment being made to El Paso at the present time.

"The Turquoise Copper Company, also at Brice, is shipping steadily. This mine is on the site of the old De Mules turquoise workings. At a depth of 140 feet mining operations are carried on. The ore is highly silicious (about 65 per cent) and about 4 per cent of it is secondary. It is filled with seams of black oxide and shot through with particles of chalcocite. None of it has run less than 11 per cent. The ore is hand-sorted on the surface and screened, the screenings running rather lower than the coarse ore. It is the intention, later on, to equip the plant with machinery.

"J. A. Reed of Brice is operating the Cuprite and is shipping two cars of ore monthly, which gives returns of \$450 to \$550 per car, at the smelter."

At a meeting held this week of the Standard Mining Company, operating the Flying Eagle, a silver lead mine, and other properties at the head of Water Canon, at Orogrande, the following officers were elected for the ensuing year:

President, T. J. Fink, Enid, Oklahoma; vice-president, W. B. Brack, Orogrande, New Mexico; treasurer, L. D. Baker, Lawton, Oklahoma; secretary, T. E. Rubey, Orogrande, New Mexico. The above, with Dr. H. C. Knight, of Antlers, Indian Territory, constitute the directory.

The company has ordered a gasoline engine and hoist, and will proceed to develop the mine along the most approved lines. Up to the present time a windlass has been used, but the depth, which is to be increased, demands power. It is the intention to commence to raise the ore which is blocked out of this property.

Suitable buildings are also to be erected for the benefit of employes of the property, and development work will be crowded as fast as possible at this point.

**LEGAL BLANKS.**

Kept in stock and for sale by the New Mexican Printing Company.  
 Notas—Obligaciones, 25c por 50.

Orino Laxative Fruit Syrup is best for women and children. Its mild action and pleasant taste makes it preferable to violent purgatives, such as pills, tablets, etc. Get the booklet and a sample of Orino at The Ireland Pharmacy.

Let me mail you free, to prove merit, samples of my Dr. Shoop's Restorative, and my Book on either Dyspepsia, the Heart, or the Kidneys. Address me, Dr. Shoop, Racine, Wis. Troubles of the Stomach, Heart or Kidneys, are merely symptoms of a deeper ailment. Don't make the common error of treating symptoms only. Symptom treatment is treating the result of your ailment, and not the cause. Weak Stomach nerves—the inside nerves—means Stomach weakness, always. And the Heart, and Kidneys as well, have their controlling or inside nerves. Weaken these nerves, and you inevitably have weak vital organs. Here is where Dr. Shoop's Restorative has made its fame. No other remedy even claims to treat the "inside nerves." Also for bloating, biliousness, bad breath or complexion, use Dr. Shoop's Restorative. Write for my free Book now. Dr. Shoop's Restoratives sold by the Fischer Drug Company.

**Willard is Growing Fast**

**A Natural Commercial Center**

STUDY THE MAP.  
 The natural point on the new A. T. & S. F. Cut-off for the distribution of freight, having the advantage of the easy grades and short route to the East and West, and direct communication with all points in the Territory.  
 Wholesale houses are coming to Willard as soon as the Cut-off is open. Surrounded by a fine farming country. The purest water in New Mexico. The geographical center of Torrance County and of New Mexico. The water point on the great A. T. & S. F. short line through New Mexico. Willard is a growing town. Willard will make a City. Study the Map. Your opportunity is here.

**OJO CALIENTE HOT SPRINGS.**  
 These Celebrated Hot Springs are located in the midst of the Ancient Cliff Dwellers, twenty-five miles west of Taos, and fifty miles north of Santa Fe, and about twelve miles from Baranca Station, on the Denver & Rio Grande Railway, from which point a daily line of stages runs to the springs. The temperature of these waters is from 90 to 123 degrees. The gases are carbonic. Altitude, 6,000 feet. Climate very dry and delightful the year round. There is now a commodious hotel for the convenience of invalids, and tourists. People suffering with consumption, cancer, and other contagious diseases, are not accepted. These waters contain 1,686.24 grains of alkaline salts to the gallon, being the richest alkaline Hot Springs in the world. The efficacy of these waters has been thoroughly tested by the miraculous cures attested to in the following diseases: Paralysis, Rheumatism, Neuralgia, Malaria, Bright's Disease of the Kidneys, Syphilitic and Mercurial Affections, Erythema, Catarrh, La Grippe, all Femal Complaints, etc. Board, lodging and bathing \$2.50 per day; \$15 per week; \$50 per month. Stage meets Denver trains and waits for Santa Fe train upon request. This resort is attractive at all seasons and is open all winter. Passengers for Ojo Caliente can leave Santa Fe at 9 a. m., and reach Ojo Caliente at 4 p. m. the same day. Fare for round trip from Santa Fe to Ojo Caliente, \$7.40. For further particulars, address
