United States district court reconvened this afternoon at 2 o'clock but there being no cases for trial or other business before it at this time adjournment was taken until Monday. Judgment was rendered yesterday by Judge John R. McFie in the district court of Santa Fe county against all "persons, lands, real estate and property described in the delinquent tax list in the county of Santa Fe for the years up to and including 1898. The judgment covers fifty-two typewritten pages containing descriptions of the property delinquent and the amount of taxes due thereon. An order of sale has been signed by the court.

DISTRIBUTE FUNDS FROM LAND SALE

Money Paid By Pennsylvania Development Company Divided Among Different Institutions.

Acting upon instructions of Ormsby McHarg, special assistant to the attorney general of the United States Territorial and Commissioner Robert P. Ervien has distributed among three territorial institutions the sum of \$11,133.74 which represents the final payment of the Pennsylvania Development company on the tracts of timber land purchased by it from the Territory, and which transaction because of irregularities in the delivery of the deeds was directly responsible for the removal of ex-Governor Hagerman.

Former Territorial Land Commissioner A. A. Keen to whom the money was paid declined to have it divided among the several territorial institutions and therefore kept the fund intact. When Mr. Ervien assumed the duties of land commissioner in the spring of the present year he followed the example of Mr. Keen and did not distribute the fund until notified to do so by Mr. McHarg.

The New Mexico Deaf and Dumb Institute of this city is the principal beneficiary, having had placed to its credit \$5,728.08 in its permanent improvement fund, and \$116.84 in its income fund. Other territorial institutions to which the remainder is distributed are: New Mexico School of Mines at Socorro, which received \$2,760 in its permanent improvement fund, and \$56.06 in its income fund, and the New Mexico Reform School at El Rito which secured \$2,400 for its permanent improvement fund and \$48.76 for its income fund.

The following is a copy of the letter addressed to Mr. Ervien by Special Assistant Attorney General McHarg ordering the former to distribute the money which was done accordingly:

"Mr. R. P. Ervien, commissioner of public lands, Santa Fe, New Mexico. "Sir—My attention has been called to the fact that the Pennsylvania Development company made a payment of some \$10,000 to your predecessor in office, same being the last payment upon lands which said company attempted to purchase from the Territory of New Mexico; I understand that this money has not been distributed to the territorial institutions entitled to receive the same, and I have to advise you that unless steps are taken to place this fund at the disposal of the institutions entitled there-

into under the act of June 21, 1898, as special assistant to the attorney general of the United States, under my instructions from the attorney general will be directed to pursue such course as I deem necessary under the provisions of that act, to see that this fund is properly distributed.

"You have full power under the law to make the distribution and I trust that there will be no delay in attending to the matter. I will be obliged to you if you will kindly inform me when you have taken this action.

"Respectfully,
"ORMSBY M'HARG,
"Special Assistant to the Attorney General.
"Santa Fe, N. M., Oct. 7, 1907."

CLOSE FINISH IN GREAT BALLOON RACE.

(Continued From Page One.)

St. Louis is 700 miles on an air line. Abercorn Made Good Flight. St. Louis, Oct. 23.—A message received by the Aero Club states that the German balloon Abercorn landed at Manassas, Prince Williams county, Virginia, at 7:10 o'clock today. The distance covered was 680 miles in an air line from St. Louis. The Abercorn was the smallest balloon in the race and has the distinction of having crossed the Alps. It was piloted then as now by Paul Meckel.

How Cup Will Be Awarded. St. Louis, Oct. 23.—The James Gordon Bennett cup will be awarded to the balloon that has covered the longest distance from St. Louis in a straight line, regardless of how long the balloon may have been in the air or how many miles it actually traveled. Records for flight distance and for duration were broken by nearly every balloon in the race. The German balloon Pommern, which landed at Asbury Park, covered an air line distance from St. Louis of 880 miles and at noon appeared to be in the lead, Oscar Erbelock, the pilot of this balloon did not descend until he actually confronted the ocean and might easily have exceeded the world's record for a long flight of 1,200 miles, made by Count De La Vaulx, when he sailed from Paris to Kioff, Russia, if this condition had not been encountered.

At one o'clock this afternoon with only one balloon, the French Lisle de Franc to be heard from, the German balloon Pommern, which landed at Asbury Park, this morning, covering 880 miles, had a lead of 90 miles over its nearest competitor, the German Dusseldorf, which landed at Dover, Delaware.

French Balloon May Yet Win. Philadelphia, Pa., Oct. 23.—The French balloon Lisle de France, which passed over Mount Holly, twenty miles northeast of here at noon today, has been reported near Hightown, New Jersey, moving in the direction of Long Branch and not far from Asbury Park, where the German balloon Pommern landed.

CORTELYOU TO THE RESCUE.

(Continued From Page One)

tate a temporary suspension or receivership of the Westinghouse Electric Company, the Westinghouse Machine Company and the Nernst Lamp Company. Other manufacturing companies are in an absolutely solvent condition and the failure of the Security Investment Company will in no way affect the Union Switch and Signal Company and the Westinghouse Air Brake Company. I would like it explicitly understood that it was at the request of the Pittsburg Clearing House that we have suspended trading temporarily."

Cause of Failure.

A petition for a receivership for the concerns named, it is said, will be made sometime today. Bankers interested, express no doubt of pulling the companies through successfully. The embarrassment is attributed to the inability to secure funds on account of the stringency in the money market. The amount involved will run into the millions.

Westinghouse Electric sold down to sixty at the New York stock exchange today, a decline of 19 5-8 points from last night.

Dr. Liebig, the famous German Chemist, says that beer is "liquid bread." By this he means that beer is a food—full of life-giving, health-sustaining qualities. The value of beer as a food is becoming well known, and it is now used by many who have hitherto looked upon it as a beverage only.

Pabst Blue Ribbon
The Beer of Quality

is the most nourishing of all beers—because it contains every particle of the healthful, wholesome nutriment of the malt and all the tonic properties of the hops from which it is made. The Pabst Eight-Day Malting Process follows nature by slowly transforming the substance of the barley into pure, nutritious food. The quality of the materials used and the Pabst method of brewing make Pabst Blue Ribbon not only a pure beer, but a healthful, tissue-building, muscle-building, life-giving, "liquid bread." Drink Pabst Blue Ribbon, and you put health and strength into your system.

When ordering beer, ask for Pabst Blue Ribbon.
Made by Pabst at Milwaukee
And bottled only at the Brewery.
