

Magnificent Exhibit of New Mexico Resources at Chicago

Six big baggage cars, after a tour of nearly the whole territory of New Mexico, are now on their way to Chicago bearing a splendid and comprehensive exhibit of New Mexico's resources to be displayed at the United States Land and Irrigation exposition which opens in the Coliseum at Chicago on November 29 and lasts until December 4. This is the finest exhibit of New Mexico's products and possibilities ever sent out of the southwest and there is not a phase of the development of the territory that will not be graphically displayed at the great fair, which will be attended by hundreds of thousands of people from all over this country.

R. E. Wilson of Santa Fe Industrial Department, Who Was Active in Securing Exhibit for Chicago Fair.

H. B. Henning, secretary of the New Mexico bureau of immigration, who secured the exhibits from every part of New Mexico as the result of some pretty strenuous work during the past few weeks, left last night on the limited, accompanied by Mrs. Henning, for Chicago, where he will have charge of the displays during the exposition, assisted by the numerous other delegates from various counties. A. R. Stroup of this city, who was active in assisting the immigration bureau secretary in the work here, leaves this week for Chicago. R. E. Wilson, industrial agent for the Santa Fe, has also worked hard for the securing of a representative exhibit and will be in evidence at the New Mexico headquarters in Chicago. The various commercial organizations and cities throughout New Mexico will be well represented by delegates and altogether New Mexico is to make a noise at this exposition that will be pretty generally heard from one end of the country to the other.

The New Mexico exhibit has a favorable position in the big Coliseum and will occupy 489 square feet of floor space. The bureau of immigration is forwarding thousands of copies of dozens of publications on the different counties on irrigated and dry farming, grazing and mining, reclamation work and in fact everything imaginable in the way of information of New Mexico and its resources. This literature will be distributed at the fair and in addition a lecturer will deliver frequent lectures daily with the aid of a stereopticon. Rio Grande celery fresh every day will be passed out to the visitors, and the biggest red apple from San Juan county and the Pecos valley will be handed out in thousands to those who come along.

Secretary Henning of the immigration bureau also goes to Chicago as a delegate to the Farm Land congress which meets November 16 to 20. In the displays are pictures of every part of New Mexico, including views of all the big irrigation projects and

the land and crops thereunder. Among the curiosities in the New Mexico exhibit is a glass case containing stalks of corn grown by Price Walters of Aztec, San Juan county, this season, from seed taken from the ruins of the ancient Aztec village near Aztec, the seed corn having been buried in the ruins for four hundred years at least. Wild potatoes from the Estanillo valley will be an interesting exhibit. There are grains and fruits and grasses, vegetables and melons and cereals, and everything else from all quarters of the territory to amaze the visitors at the Chicago event. It will accomplish a tremendous amount of advertising for New Mexico and her opportunities, advertising whose effects will extend into all parts of the east and middle west, since come the recruits to New Mexico's home-seeking and farming population, advertising whose effects will be noticeable for many months to come.

Clavis, it is believed, is breaking a few records for municipal improvement in the southwest. It has issued \$125,000 worth of bonds for civic improvements, water supply, sewerage and electric lights. The mains and lateral of the sanitary sewer system are now being laid. A \$9,000 electric power house will be equipped with the best machinery that money can buy. The electric lights are to be burning by December 1, at the latest. Five new 1,000-foot wells will mean increased water supply for the city.

FOR IMPROVEMENTS
Santa Fe Improvements.
Over a million dollars in railroad improvements has been spent by the Santa Fe railroad company at Clavis. The beautiful new Harvey house and depot are now in use, the hotel, "La Gran Quivira," being one of the handsomest and most commodious on

HIGH EXPENDITURES
Clavis, N. M., Nov. 13.—The county seat of a county only one year old and a town itself really only three years of age, Clavis, Curry county, has been astounding New Mexico and the southwest in the last few months, during which it has been expanding with remarkable rapidity into one of the most modern, prosperous growing little cities of the whole wide west. No other town in the southwest, not even excepting the wonderful Oklahoma towns, have surpassed Clavis in rapidity and solidity of growth.

The population is now 5,000, practically every man, woman and child of that 5,000 having come to Clavis in the past three years. Nothing like it has ever been seen in New Mexico. Clavis, now has seven blocks, solid, of brick buildings, all the most modern in architecture and construction. It has miles of cement walks. Two handsome three-story brick business blocks were recently finished on Grand avenue for office and mercantile purposes. Clavis has a \$20,000 hotel, fire-proof and steam-heated throughout, a credit to a city thrice the size. There are three prosperous banks, whose resources and deposits have increased as rapidly as other phases of business. Another bank is being organized. All retail lines of business are well represented, including large lines of hardware, furniture, clothing, dry goods and drugs. Big wholesale businesses are to be established in the near future.

There are four branch offices of the largest lumber companies, all carrying immense stocks, and there is in addition another private lumber yard. Clavis has two weekly and two daily newspapers, an infallible sign of a live and growing town. Clavis has just dedicated a splendid modern country club, with golf links, tennis courts and all accessories of an up-to-date country club. There are moving picture theaters and modern play-houses, skating rink and other provision for the amusement of the public. Livery and transfer establishments do a thriving business. All the professions are well represented. There are numerous hotels and restaurants, pool halls, barber shops and every kind of an establishment found in any modern city.

POSTUM
It is made of clean, hard wheat, skillfully roasted, and when properly brewed is a delicious, wholesome food drink, that rebuilds nerves injured by coffee.

the system. The Santa Fe shops, roundhouse, icing and coaling plants and other structures are all splendid examples of the very latest methods in railroad terminal construction. The new brick freight offices at the foot of Main street are now nearing completion. There are forty miles of railroad sidings and tremendous repair facilities, with the prospect of the doubling of the size of the shops in the near future. Clavis is a division point on the cut-off, the terminus of the Santa Fe Pecos valley system and soon to be a division point on a railroad direct from the Gulf to Colorado—Galveston to Denver—with the great coal fields of northern New Mexico readily accessible and fuel consequently cheap.

Prices of real estate have gone up, \$14,000 being recently paid for a quarter section of land near Clavis. Clavis and Curry county rather got in the limelight at the recent exposition in Albuquerque, when Curry county dry farming products took the premium as the best dry farming exhibit ever seen in New Mexico, and fourth prize in competition with irrigated lands. Clavis is the county seat and commercial center of the county, and moreover the shipping point of a great dry farming country reaching far above the county. Homestead lands adjoining the city are being rapidly all taken up but there is always a chance to buy relinquishments and desired farms. Clavis offers magnificent opportunities to business men and investors.

OFFICERS GET THE WRONG MAN AT LAS VEGAS

WARRANT OUT FOR THE RIGHT JOHN EVANS
Interesting Development in Alleged Land Fraud Case in District Court; No News of Insurance Man.

[Special Dispatch to the Morning Journal] Las Vegas, N. M., Nov. 13.—An unlooked for feature developed in the United States district court here this morning in connection with the prosecution of John Evans, jointly with Deputy Sheriff George Snell, for perjury in connection with land entries. A man by the name of John Evans, residing twelve miles out of Raton on a ranch when at home, but who has been employed as bridge inspector on the Raton & Eastern railroad, was arrested on the above indictment several weeks ago. Notwithstanding his protested innocence at the time he was required to give bond in the sum of \$500 for his appearance at this term of court at Las Vegas. This he did and easily proved in court this morning that he was not the man wanted. He was immediately discharged, and his sureties released from further liabilities.

A warrant was then sworn out for the apprehension of the John Evans wanted, who is supposed to reside in the vicinity of Clayton, Union county. After this case had been disposed the court took adjournment to this evening when the report of the grand jury was expected to be presented and that body discharged for the term.

Frank M. Stanley, immigration inspector, is here on business before the United States district court in connection with the prosecution of two Chinese recently arrested at Dawson for illegal residence in the United States, and who are now in jail here awaiting trial. Stanley left this afternoon for Dawson to subpoena witnesses and the case will be called next week.

O. C. Gibbs, special agent of the general land office, with headquarters at Santa Fe, was taken from the train here last evening very sick and he was removed to the Las Vegas hospital. His condition is quite serious.

No news has been heard of the missing agent, H. C. Kelley of the Bankers' Reserve Life company of Omaha, which company recently had its license to do business in the territory revoked by Territorial Insurance Commissioner Jacobo Chavez for violation of the territorial insurance laws. The large and magnificent offices maintained in this city by this company are closed and all former employees have left the city.

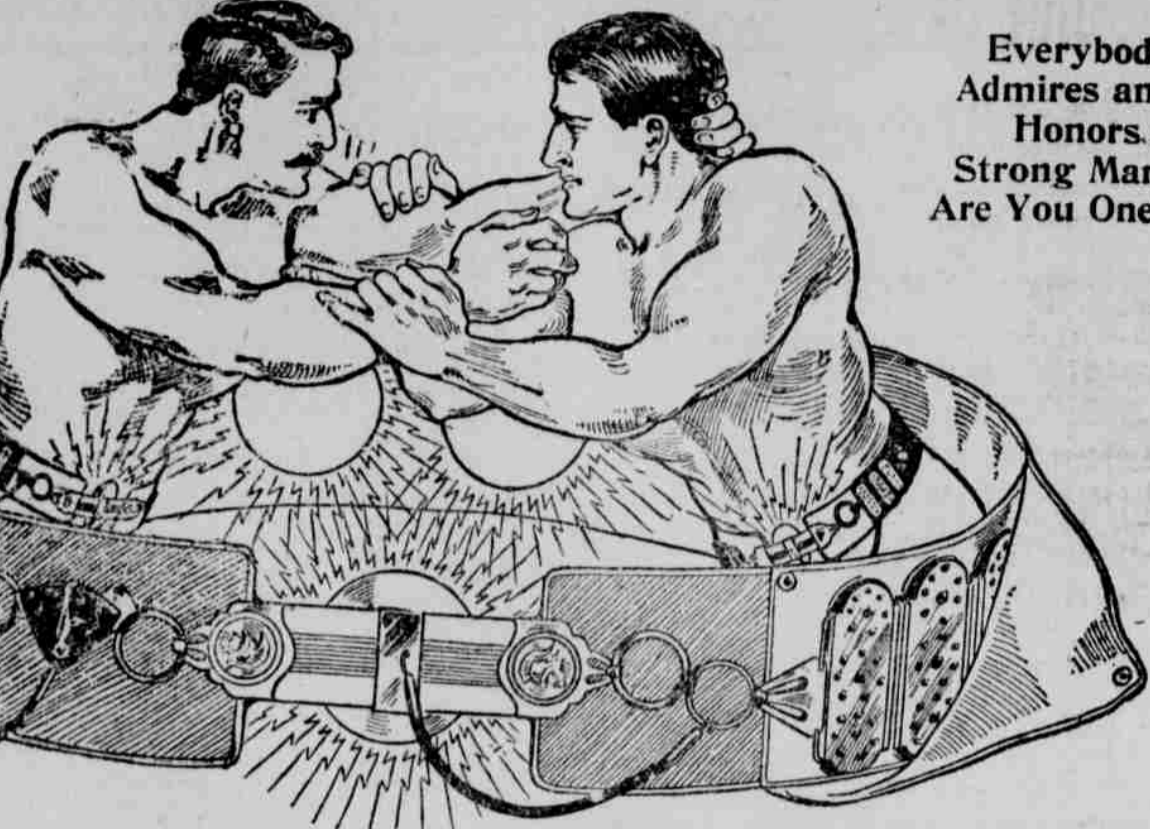

Several days ago Kelley purchased a new automobile while in Albuquerque and it is claimed he drove the machine to Clayton and hypothesized it for its value for means to leave the country.

B. L. Robinson, vice president and auditor of the Bankers' Reserve company, left for Omaha yesterday, failing to learn the whereabouts of his former agent.

Considerable building is going on in Las Vegas this fall. At present there are several substantial store rooms being constructed with flats above, and a number of stores are rebuilding their fronts. Contracts have been let for large additions to the territorial asylum, for the insane and several private residences are to be constructed in the near future.

Offer to Weak Men

Do You Want to Be "A Man Among Men?" Write Today

Everybody Admires and Honors a Strong Man. Are You One?

We Will Pay \$1000 Forfeit

For a case of Nervous Debility, Varicocele, Early Decay, Rheumatism, Lame Back, Lumbago, Sciatica, any case of Kidney Disease that has not gone as far as Bright's Disease, Indigestion, Constipation or any weakness caused from ignoring the laws of nature, which we cannot cure with any less improved Electric Belt, the marvel of electricians, the most wonderful curative device that has ever been introduced.

This Belt is Complete With Free Electric Suspensory For Weak Men
This electric suspensory carries the current direct and cures all weaknesses of men, varicocele, etc. It develops and expands all weak nerves. No case of Brulley Vigor, Varicocele or Debility can resist the powerful Electric Suspensory. It never fails to cure. It is free with Belts for weak men. No man should be weak, no man should suffer the loss of that vital element which renders life worth living. No man should allow himself to become less a man than nature intended him; no man should suffer for the mistakes of his youth when there is at hand a certain cure for his weakness. Most of the pains, most of the weakness of stomach, heart, brain and nerve from which men suffer, are due to an early loss of nature's reserve power through mistakes of youth. You need not suffer from this. You can be restored. The very element which you have lost you can get back, and you may be as happy as any man that lives.

EASY TO WEAR! CURES WHILE YOU SLEEP! NEVER FAILS!
Cures Nervous and Vital Weakness, Enlarged and Inflamed Prostate Glands, Lost Memory, Loss of Strength, Weak Back and Kidney Trouble, Rheumatic Pains in Back, Hips, Shoulders and Chest, Lumbago, Sciatica, Torpid Liver, Indigestion and Dyspepsia.

Sciatic Rheumatism and Loss of Sleep
THE DR. M. D. McLAUGHLIN CO. AVALON, Catalina Island.
Gentlemen—in accordance with your request I am sending you my report, and am pleased to be able to send a very good one. The improvement has been remarkably rapid, considering the disadvantages I have been applying the treatment under, being compelled to work hard and limit my time for rest and quiet, which would be of assistance in hastening the cure. My main trouble was loss of sleep and intense suffering from sciatica. Many people assured me that the electric belt would be of little avail, if it were not absolutely a fraud, but I have given it a fair chance to demonstrate through the great benefit it has been to me that it is all you represent it to be. I think every workman should own the belt, it is so useful in recuperating his strength, for I awake in the morning feeling better and stronger, even after a hard day's work. My sleep is peaceful and the pains have disappeared. I do not in the least regret what I paid for the belt, and would not let you pay it back for ten times the sum I paid for it.
Wishing you all kinds of success and trusting that many will be so convinced of the ability of your treatment through the beneficial results brought about in my case that they will try it, I remain,
Yours respectfully,
C. H. AMENDE.

CALL AND TEST IT TODAY! IF YOU CAN'T CALL SEND FOR OUR BOOK—FREE
We know that no man remains a weakling because he wants to; we are sure you want to overcome every indication of early decay that has shown itself in you. We don't think the man lives who would not like to feel as big and strong as a Sandow, and we know if you have a reasonable foundation to build upon we can make you a bigger man than you ever hoped to be. We want you to know that—you cannot believe it—and we want you to have our book, in which we describe how we learned that strength was only electricity, and how we learned to restore it; also we want to tell you the names of some men who will tell you that when they came to us they were physical wrecks and are now among the finest specimens of physical manhood.
We want you to read this book and learn the truth about our arguments. If you are not as vigorous as you would like to be, if you have rheumatic pains, weak kidneys, loss of vitality, prostatic troubles, nervous spells, varicocele, or any other ailment of that kind, it would insure your future happiness if you would look into this method of ours; don't delay; your best days are slipping by. If you want this book, we will send it, closely sealed, free, if you send this coupon. Call for free consultation.

STORM IN SOUTHERN ATTORNEY GETS A TRUE BILL

Long Drouth Broken in Mesilla Valley; Heavy Fall Reported in Arizona.

[By Morning Journal Special Leased Wire] El Paso, Tex., Nov. 13.—A drouth of several months has been broken by snow and rain. The heaviest rain in two years fell in western Texas last night and today and is falling over a wide section, accompanied by a "norther." Snow is falling today between Marfa and Valentine, Tex., and at Las Cruces, N. M. Snow also fell at Tucumcari, N. M., today following a heavy rain last night. A heavy rain fell at Globe, Ariz., but in the mountains the snow fall was heavy. The temperature at Globe has fallen decidedly.

All carpenters and their families are requested to meet with Local 1219 Thursday evening, November 18, and help celebrate our seventh anniversary. By order of the president, J. J. Vohaw, secretary.

Greatest sale of suits and dresses ever held in Albuquerque at this time of the year. The Economist.
In the monthly bulletin issued by the management of the Golconda mine, near Kingman, Arizona, the production for October is given as 800 tons of ore actually shipped to the smelter and about 1,000 tons of milling ore placed on the dumps. With nearly half the cars reported from the smelter by wire, the value of the ore shipped is estimated at \$18,000. The expenses, including all costs of development, amounted to approximately \$10,000, leaving a net profit of about \$8,000, with as much more due from milling ore. To date returns have been received from 135 cars netting \$35,346.46; there are 29 cars of ore and residue in transit estimated at \$28,000, making a total of 215 cars netting \$115,546.15.

New Train Service Between Albuquerque and El Paso
Commencing Sunday Morning, November 14, 1909, the A., T. & S. F. Ry. will inaugurate double daily service for the convenience of its patrons from Albuquerque to El Paso, stopping at all way stations. Leave Albuquerque daily at 8:30 a. m., arriving at El Paso, 6:55 p. m. Northbound train leaves El Paso 8:45 a. m. and arrives at Albuquerque 6:35 p. m. Both trains stop for dinner at convenient hours. For full information of other schedules, rates, etc., address
