

FINANCE AND COMMERCE

Wall Street.

New York, July 16.—Dullness and hesitation were dominant in the stock market today. The small attendance of brokers was partly responsible, the hot weather adding to the attractions of out of town sojourns over the week end. The uncertain tone of the market grew out of the labor situation on the Pennsylvania railroad and the indications of disturbance in the cotton market.

The wheat market was not arrested by early reports of further damage to spring wheat and this factor lost part of its influence in the stock market. Cooler weather and rains in parts of the Canadian wheat belt were reported. The extreme in the cotton market was ascribed to the speculative position there rather than to fresh news on the crop. Opinions were mixed over the outcome of the Pennsylvania controversy with its employees but with a hope of a settlement which would avoid a strike. The formal announcement of a reduction in wire prices by the United States steel subsidiary gave weight to rumors of the intended cuts in other steel products.

This had a depressing effect on steel. There was renewed selling of Amalgamated Copper in spite of reports of some large sales of the metal effected in New York yesterday. There were revived rumors also of negotiations looking to curtailment of production by agreement among the principal miners of copper.

The foreign exchange rates rose slightly today and discounts steadied in London. The tone of the time money market in New York has commenced to relax from its recent stiffness under the influence of the obvious ability of New York to secure gold in London. The gold to arrive in London on Monday is expected to be secured in part at least for shipment to New York. The firmer tone of exchange was ascribed to this expectation.

A sharp rise in the total of idle freight car equipment in two weeks placed the net total at 142,865 cars, the highest figure since August of last year.

The bank statement disclosed the actual surplus reserve up to over \$32,000,000, a heavy influx of cash combining with the loan contraction to widen the ratio of reserves to deposits. Such a showing, with foreign exchange at the gold import level, must go far to fortify confidence in the amplitude of New York's bank resources to meet all likely demands from the interior.

Chicago Grain Market.

Chicago, July 16.—For the second time in forty-eight hours the season's high price record for wheat was broken today. It was blistering hot in the northwest and there were reports that damage to the spring crop was such that a large part of Manitoba would not yield enough for seed. Washington state was said to expect less than half a crop. A general stampede to buy whirled in many speculators who earlier in the day had sold believing a decline was imminent. Closing quotations were at a net advance of 3-4 to 1-1 1/2. Corn finished 2-8 1/2 to 1-1 3/4 up, oats 1-4 off to 2-8 1/2 to 1-2 advance, and provisions 2 to 2 1/2 in advance.
Spot wheat reached \$1.08 1-8 which was 3-8c dearer than any previous quotation for the option this year. It closed at \$1.07 7-8 to 1.07 7-8 @ 1.08.
September corn closed firm at 61 1-2c, a net gain of 3-4c. The cash market was firm also. No. 2 yellow closed at 64 1/4 @ 1-2c.

DRUGGISTS GIVE SUPPORT TO NEW ORGANIZATION

B. Ruppe Receiving Favorable Answers From New Mexico Pharmacists to Circular Letters Commending Project.

B. Ruppe, vice-president for New Mexico of the American Pharmaceutical Association, is receiving many favorable answers to the circular letters recently sent out by him to pharmacists throughout New Mexico, urging the organization of the New Mexico Pharmaceutical Association. It is planned to hold a convention and organize during the fall here next October. The letter sent out by Mr. Ruppe is as follows:
"Albuquerque, N. M., July 18, 1910.
"To the Registered Druggists of New Mexico.
"Gentlemen: Stated at last is an assured fact, and with it I believe it is necessary that the druggists organize and the state of New Mexico have its pharmaceutical association. While in the east at various times, coming into contact with the profession, I was made aware of the many benefits accruing through membership in the association, leaving the pleasant annual reunions and the social affairs entirely out of consideration. This matter has been broached to me at various times by practicing pharmacists throughout our state, and I believe now is the right time for us to inaugurate our organization. I therefore, as vice-president for New Mexico of the American Pharmaceutical Association, respectfully request the druggists who can possibly do so to meet during the next territorial fair to be held at Albuquerque, so as to perfect a permanent organization. Our board of pharmacy is willing to assist us in every way possible. If you are in favor of this organization and cannot possibly attend, hand your proxy to some brother druggist, so that your name may appear at the original organization. I will take the liberty of announcing the date a little later. Secretary Fischer has kindly volunteered to send a copy of this letter to every registered pharmacist.
"I hope to hear from you that my action meets with your approval. If you only drop me a postal card to signify the same, I see to remain.
"Fraternally yours,
"B. RUPPE,
"Vice-President for New Mexico of American Pharmaceutical Association."

DOUBLE TRACK WORK RESUMED ON COAST LINES NEAR BARSTOW

The Santa Fe is preparing to resume rail laying on the double track between Todd and Barstow. The graders have the roadway in condition to permit of the laying of ties and rails and Foreman Downey with a gang of 100 men is already on the ground preparing to start the steel laying. Within a few days another gang with a hundred or more men will be thrown on the work and rapid strides will then be made to complete the gap between Todd and Barstow. The rail laying is already complete from Cottonwood to Todd.
Extensive changes have been made in the line and when the work is complete it is said there will not be a curve from Barstow to Cottonwood.
The dangerous curve at the smelter just south of Barstow is to be removed by making a big cut through the point of the hill.
Downey's gang is now getting the ties distributed together with rails and the fish plates.
George West's gang is making good progress at various places between Todd and Barstow, he having several gangs working between the two stations in an endeavor to get the ground in shape for the rail layers.

Big Drop in Fruit.

The fruit shipments now moving east over the Santa Fe are rapidly decreasing in volume. About 15 cars a day represent the shipments of oranges firm net, at a net gain of 25 points.
