Why Colds are Dangerous. Because you have contracted ordinary colds and recovered from them without treatment of any kind do not for a moment imagine that colds are not dangerous. Everyone knows that pneumonia and chronic catarrh have their origin in a common cold. Consumption is not caused by a cold but the cold prepares the system for the reception and development of the germs that would not otherwise have found lodgment. Many the same with all infectious diseases. Diphtheria, scarlet fever, measles, etc., are much more dangerous than colds.

THE CAMPAIGN CANADA JOINS IN SEATTLE FAIR

Fights Will Be Made for Several Doubtful States, Beginning This Month. Dominion Promises to Take Active Part With Its Exhibits --Exposition Notes.

New York, Oct. 2.—The first of October always marks the beginning of the hottest period of a presidential campaign, and this year is no exception. Many prominent men in both parties, whose services as speakers have not heretofore been available, reported for duty today. The speakers' bureaus of both parties have completed the itineraries of most of the orators and every spellbinder will be urged to push the campaign with all vigor during October.

The twelve states which are placed by one party or the other in the doubtful column have a total electoral vote of 128. In other states which are considered as reasonably certain to give decisive majorities, the Republicans can depend upon 194 electoral votes and the Democrats 161. If the Republicans can gain 46 electoral votes from the doubtful territory, according to this showing, Mr. Taft will be the next president of the United States.

Seattle, Wash., Oct. 2.—Canada has officially accepted the invitation to participate in the Alaska-Yukon-Pacific exposition which will be held here next year from June 1 to October 15. The exposition officials have just received word from Hon. Sidney Fisher, minister of agriculture at Ottawa, that the Dominion would have an exhibit. The details have yet to be arranged, but Mr. Fisher intimates in his note that the chief attention will be paid to the agricultural, mineral, timber, fishery and horticultural products of the great northern neighbor of the United States.

The Dominion will have a building of its own in which each province, chiefly those of the west and especially the Yukon, British Columbia, Alberta and Saskatchewan will make special displays. A great deal of attention has been attracted to western Canada during the last few years because of the extensive railroad building, the great discovery of minerals and the abundant timber resources. Thousands of Americans have gone into western Canada to settle, but they have occupied only a small portion of the country that is available for homes. Americans who find their opportunities cramped look to Canada to supply the room for their activities.

NOT THE ONLY ONE. There Are Hundreds of Albuquerque People Similarly Situated. Can there be any stronger proof offered than the evidence of Albuquerque residents? After you have read the following, quietly answer the question.

NOTICE TO CONTRACTORS. Sealed proposals will be received at the office of A. J. Fischer, secretary of the Armory Board of Control of Santa Fe, N. M., up to 12 o'clock noon on the 15th day of October, 1908, for the construction of the Territorial Armory Building at Santa Fe. Each bid is to be accompanied by a certified check for the amount of five per cent of the bid as a guarantee that the bidder will enter into a contract if awarded him and furnish a surety bond of fifty per cent of the contract price.

Where Bullets Flew. David Parker, of Fayette, N. Y., a veteran of the civil war, who lost a foot at Gettysburg, says: "The good Electric Bitters have done me more than five hundred dollars to me. I spent much money doctoring for a bad case of stomach trouble, to little purpose. I then tried Electric Bitters, and they cured me. I now take them as a tonic, and they keep me strong and well." 50c at all dealers.
