SMELTER LOCATIONS WANTED BY TWO

Commercial Club in Communication With Concern to Secure Big Industries.

Albuquerque may yet have a big smelter, notwithstanding the fact that the Tri-Bullion Mining company has decided to locate its plant at Canon City, Colo. In fact, while the land is practically in condition for purchase for a site for this company's smelter and other problems had been settled in favor of the company, the leaders in the movement to secure the smelter are not feeling at all badly over the change in location.

GOOD PROSPECT FOR IMMEDIATE SUCCESS

Proposed Plants Will be Large and Well Worth Going After—President Brooks Optimistic Regarding Present Situation.

George L. Brooks, president of the Commercial club, stated today that negotiations which have been under way for some days, will now be pushed to a conclusion and that Albuquerque will have a smelter within a short time.

When we first began negotiating with Mr. Taylor, of the Tri-Bullion company, the proposition was that he would erect a smelter with a capacity of 200 tons a day, but of late he was merely considering a fifty-ton plant, that is to start with.

M'FARLAND IDENTIFIES SUSPECT HELD AT GALLUP

Says One of Pair Arrested There Is Man Who Shot Him at Belen.

Gallup, N. M., August 1.—(Special.)—James McFarland, the special officer of the Santa Fe, who was shot and badly wounded last Friday by two tramps at Belen, and who passed through Albuquerque yesterday en route to Gallup to view two suspects held here, declared this morning that one of the men in the Gallup jail is the man who shot him, but he cannot identify the other and does not believe he was with the man who did the shooting.

IS POSITIVE OF PRISONER'S GUILT

Officer Will Go to Deming Tonight to View Men Held There For Alleged Complicity in Crime Last Friday.

McFarland will go to Deming this evening to look at two men who are under arrest there on suspicion of being implicated in the shooting. His inspection will determine whether these men should be held or not.

The man in jail here whom he does not implicate in the shooting will be released. He was arrested last Saturday at this place in company with the other man but insisted that he had just met the fellow and did not even know his name or where he had come from.

Shot by Tramps. McFarland was shot at Belen shortly after the arrival of No. 9 last Friday morning. He had started to walk along the train on his usual inspection trip, looking for hoboes, who habitually ride beneath and on top of this train, when two men darted off the blind baggage. He called to them to halt and when they refused he fired a shot into the ground in order to frighten them.

The shot, however, had the opposite effect. One of the two stopped and fired at McFarland. After a running fight, McFarland received a bullet in his back near his spine and the other escaped in the confusion following McFarland's fall.

Identifies one Man. McFarland was rushed to the Santa Fe hospital at Las Vegas and owing to his good constitution, he recovered rapidly. Tuesday night he insisted on leaving the hospital in order to identify the men at Gallup if possible.

The accused man gives several names, according to officers who have interviewed him. He will be taken to Albuquerque tonight on train No. 8, providing he will go without a warrant. Should he refuse a warrant will be sworn out for him in Valencia county and he will be taken there for trial as soon as the warrant can reach Gallup.

McFarland stated to friends yesterday that he would have no difficulty in identifying the men who did the shooting as they ran away through the brilliant light cast from the electric headlights of No. 9's locomotive, and were seen by the engineers and several others.

"HOLY WAR" OF ARABS TO EXTERMINATE EUROPEANS

Attack at Casa Blanca in Which Nine Whites Met Death Is Beginning.

Tanger, August 1.—Dr. Merle, who arrived here last night on the German ship, which brought a number of Jews and other refugees from Casa Blanca, is the bearer of a report to the French charge d'affaires here, showing that the slaughter of Europeans in Casa Blanca was the outcome of a Holy war preached by the Arabs for the extermination of all Europeans.

FRENCH WARSHIPS ENROUTE TO SCENE

American Physician Tells of Massacre, Its Cause, and Inability of Sultan or Pashas to Protect Foreigners in Morocco.

On Monday night a number of Arabs entered Casa Blanca and demanded that the harbor improvements cease. The pasha of Casa Blanca pointed out that the work was being done with the sanction of the sultan, whereupon the chief replied that the sultan was no longer their ruler, as he obeyed Christians.

Incited Murderous Riot. He then began to incite the natives to exterminate the Jews and Europeans. One European was stoned and hacked to pieces.

Various residents made a rush for the French and Spanish consulates for protection, and during their flight at least eight were killed.

The French consul demanded that the pasha provide a guard to recover the bodies, but when the rescue party reached the scene it was charged by a number of Arab horsemen and put to flight. In the meantime the Jews and Europeans were taken aboard a German ship.

MRS. PERALTA AWAITING PRELIMINARY HEARING

Woman Will Remain In Socorro Jail Until Justice of Peace Acts.

Socorro, N. M., August 1.—(Special.)—There are no new developments in the case of Mrs. Louis Peralta, held here for the killing of 14-year-old Jesus Padilla, son of her neighbor, which was told in The Citizen last night, except that offers of assistance and proffers to go on her bond as soon as the court fixes the amount, are being made almost hourly.

SHE WILL PROBABLY BE ACQUITTED THEN

Her Story of Killing of Jesus Padilla to Protect Her Daughter. Is Receiving Confirmation From Several Sources Today.

Many of these offers are coming from San Antonio and San Antonio, the latter being a small village, practically part of San Antonio, and where both parties to the killing lived.

Mrs. Peralta has always borne an excellent reputation in this county. Her family being known for its honesty and upright qualities, and there is not the slightest doubt but that she will obtain bond as soon as the court acts in the matter.

Awaits a Preliminary. Her preliminary hearing will be held at San Antonio, before the justice of the peace who presides and it is the general belief of her neighbors and friends that she will be cleared of the charge of murdering the boy, as it is almost certain that she can clearly show the justice that the boy was trespassing on her property, and that she believed he had come to harm her daughter, at whose window she was sitting.

Conceals Nothing. The frail native woman, bent with age, her gray hair neatly arranged and clothing showing evidences of the careful habits of the wearer, sits in her cell at the county jail, occasionally weeping over the tragedy which she feels was necessary to protect her home and the honor of her family.

SAYS SUCH AFFAIRS CAUSE CIVIL WAR

Chippewa Falls, Wis., August 1.—Congressman Jenkins, chairman of the house judiciary committee, last night issued a statement relative to the North Carolina railroad rate imbroglio. He says there never has been any event since the civil war that calls for so severe condemnations as the recent senseless trade on behalf of the states against the nation.

He adds that it is humiliating that the matter has been compromised, and that the nation has to some extent surrendered.

The civil war was the result of such agitation and we may have earlier than we want another civil war," he said. "To avert such a calamity and preserve the nation, we must conform to the law, obey the law and have the law framed according to the framework provided by the constitution."

Judge Jenkins points out that the supreme court of the United States is made the final judge between the states and the nation. He believes that the executive of a state should keep cool, maintaining its dignity, and remember that he has to depend on the judiciary of the country to save the union.
