

LEADY REMINDERS DECISION MAKING FORT SUMMER DRY

Enough Wet Votes Thrown Out in Contest to Change Result of Local Option Election Last August.

SPECIAL DISPATCH TO MORNING JOURNAL. Last Las Vegas, N. M., July 10.—Judge David J. Leahy this afternoon rendered a decision in the case of the state of New Mexico against the board of county commissioners of Guadalupe county, the Fort Sumner local option election contest case, which changes Fort Sumner from a wet to a dry town. Four wet votes and one dry vote were thrown out, and this was sufficient to alter the result of the election as shown on the face of the returns.

Recent Reductions Cause of Big Annual Saving to Tire Users.

H. F. Goodrich Company Claims Credit of Having Saved Purchasers \$25,000,000 a Year.

People who own automobiles certainly have cause to congratulate themselves if they are compelled by the H. F. Goodrich company, showing the money tire purchasers have saved since the promulgation of that company's "Fair-Last" prices on January 21st last, are to be accepted as even approximately correct—and there appears to be no reason to doubt their accuracy.

It is estimated by the Goodrich company, said an official of the H. F. Goodrich company, Akron, Ohio, that the saving to tire users because of the general reduction of prices which followed the publication of the "Fair-Last" will be no less than \$25,000,000 a year. One's first thought is that these figures cannot possibly be correct, but the theory on which they are worked out by the Goodrich people becomes reasonable when it is explained.

This theory is interesting as well as instructive. Investigation has shown that there are in use in the United States 1,623,555 cars which are equipped with pneumatic tires. Each of these cars will require at least one full set of tires every year and that the average saving per tire owing to the general reduction is augmented by the Goodrich company on its "Fair-Last" is \$5.75. It is found that \$45,000,000 is still within the local saving that has been effected for purchasers.

That the average saving of \$5.75 per tire is a conservative estimate is shown by a glance at the table which represents the reduction in the promulgation of the Goodrich "Fair-Last". This table shows the following reductions on Goodrich Safety Tread tires: Size 30x3, saving \$3.20, 30x3 1/2, \$4.80; 32x3 1/2, \$4.10; 32x4, \$7.50; 32x4 1/2, \$7.75; 32x5, \$7.75; 32x5 1/2, \$7.75; 32x6, \$11.25; 32x6 1/2, \$11.50.

On eight other widely advertised makes of tires the reductions are approximately the same as on Goodrich Safety Tread, although some of them apply to smooth tread only, while some manufacturers have not as yet had Goodrich prices on non-skid tread. The reductions all along the line, however, are sufficient to give purchasers an average saving of fully \$5.75 per tire.

It should be obtained it would, no doubt, be found that the average saving was considerably in excess of the amount on which the Goodrich estimate is based, and that the actual saving to tire users will be much more than \$25,000,000 a year.

In view of the steadily increasing prices of almost everything else, the vast reduction in the prices of tires is something for which car owners have cause to be devoutly thankful.

It is interesting to note that this contest, which the H. F. Goodrich company has issued a challenge, which seems likely to put a hiatus upon certain representations, or misrepresentations, that have been going the rounds since the "Fair-Last" reduction were announced. Charges are made by the Goodrich company that the manufacturers who could not or would not meet the Goodrich "Fair-Last" prices at the time of their publication caused it to be stated, lowered in utility and that they were being made with fewer layers of material than they had contained prior to the reduction of prices.

"In reply to this argument, the Goodrich company offers to pay the full price for any Goodrich Safety Tread sold since the publication of the "Fair-Last" on January 21st, 1915, which when set open shows any reduction in quality in number of layers of canvas, in thickness, or quality of rubber, when compared with any other Goodrich Safety Non-Skid made by us and sold at our higher prices current before the Goodrich "Fair-Last" movement."

"Tire users are authorized to extend this offer to any dealer or manufacturer. The positive statement is made by the Goodrich company that the tires it is making and has been making since the announcement of the "Fair-Last" propaganda are better than any fabric tires that it or any other manufacturer ever produced before, which, apparently, is a broad enough declaration to cover the entire subject."

STOCK EXCHANGE SHOWS BETTER TONE AT CLOSE

German Reply Is Believed to Have Inspired Much Activity on Part of American Speculators.

BY MORNING JOURNAL SPECIAL LEADER WIRE. New York, July 10.—To what extent today's substantial recovery of the stock market was due to the last turn in the country's relations with Germany is largely a matter of opinion. It is believed that the German note seemed mainly responsible for something more than a hurried rush to cover by the short interest.

In the initial dealings of the week to close were registered by the higher grade shares. The advance was promptly offset by the further sales for European account which resulted in material reactions. No sooner had this movement from its course than fresh buying brought about another and more vigorous rebound. The entire list shared in greater or lesser degree in the strong close.

American Coal Products added another 11 points to its phenomenal advance of the week, selling at 159, a gain of 29 points for the week. Unfilled contracts of the United States Steel corporation issued after the market close and showing an increase of 112,000 tons over the preceding month, more than confirmed the most favorable forecast.

Actual loss of cash by local banks for the week amounted to less than \$1,000,000, which was far below general estimates. There were more future sales of bonds at slight concessions. Total sales, net value, aggregated \$2,310,000,000.

United States 2's advanced 3/4 cent on call, during the week. Closing prices: Alaska Gold, 35 1/2; American Copper, 71 1/2; American Beet Sugar, 46 1/2; American Cotton, 45 1/2; Amer. CHICAGO BOARD OF TRADE. Chicago, July 10.—Prospects for a heavily increased movement of the new crop brought about sharp declines today in the value of wheat. The market for soft winter wheat, which was last night, corn suffered a loss of 1/4 cent, and oats of 1/4 cent to 3/4 cent. In provisions the outcome varied from 2 1/2 to 3 1/2 to a rise of 50 cents. Reports that a threatening war being waged in northern Illinois and that cutting was general as far north as Bloomington made the bulls in the wheat market decidedly uneasy, and led to selling on a liberal scale. The selling break in prices beyond the execution of the stop loss order. Local quotations of the day were reached after word came that cash wheat in St. Louis had suffered a break of 3/4 cent. A bushel, an account of unloading receipts and hoarding of unloading receipts expected next week.

Previous to the downward swing of the wheat market a material advance had been scored here as a result of unwelcome news in the west and middle sections because of higher yields. The forecast, however, was for clearing weather, especially in Kansas and Nebraska. Gossip that world supplies for the week would be the smallest in seven years was soon lost sight of, and no attention at all seemed to be given to rumors of foreign buying. Whatever export sales took place were said to have been chiefly due to the augmented break in prices.

Corn fell in sympathy with wheat, oats advanced lower, influenced mainly by other cereals. Liquidating sales, weakening conditions late in the week, factors bought ribs. Closing prices: Wheat—July, 41.95; Sept., 41.92 1/2; Corn—July, 76.80; Sept., 75.50; Pork—July, 47.75; Sept., 47.50; Lard—July, 38.32; Sept., 38.50; Ribs—July, 39.92; Sept., 39.65.

KANSAS CITY BOARD OF TRADE. Kansas City, July 10.—Wheat—No. 2 hard, 1.32 1/4; No. 2 red, 1.29.

THE PROBLEM SOLVED Lager Beer Can Now Be Made at Home at One Cent a Glass

Cincinnati, O., July 11.—A well known brewer of this city has recently made a remarkable discovery with which anyone can now make their own beer at home. He has discovered a concentrated beer made from barley malt and Bohemian hops so that simply by the addition of water a fine lager beer can be made in a few minutes. Thousands of lovers of good beer who have been deprived of that daily glass of beer are now making it at home and enjoying a glass of refreshing, healthful beer whenever they want it. This concentrated beer is put up in small packages and can be shipped anywhere by parcel post. The farmer, the laborer, as well as men in offices, stores and at home to whom a daily glass of beer is almost a necessity, are finding it very convenient, besides economical to now make their own beer. It is said that this beer is far superior to brewery beer and much cheaper as its cost is less than one cent a glass while it has all the stimulating and nourishing properties of the finest beers. The astonishing news of this wonderful discovery has spread from the inventor to Cincinnati, Ohio, the inventor of this remarkable discovery, says he will send to anyone sending their name and address his free booklet, "Secrets of Making Beer at Home," which should induce home brewers to buy a daily glass of beer which can be easily and cheaply made at home?

Las Cruces Wins Decision. Santa Fe, July 10.—According to reports from Washington, D. Traveling Man's Experience. "In the summer of 1888 I had a very severe attack of cholera morbus. Two physicians worked over me from four a. m. to 6 p. m. without giving me any relief and then told me they did not expect me to live; that I had best telegraph for my family. Instead of doing so, I gave the hotel porter fifty cents and told him to buy me a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy, and take no substitutes. I took a double dose according to the directions and went to sleep after the second dose. At five o'clock the next morning I was called by my order and took a train for my next stopping point, a well man but feeling rather shaky from the severity of the attack," writes H. W.
