5 to 35% Advance on This Oil Stock June 28

To Investors. This company now holds over three million acres of lands and leases in the oil and gas belt. These properties have been carefully selected and are well located.

This company may have over two hundred million dollars of oil in lease different properties and is determined to put into operation the balance of force to fill drills and keep them going until the country's production reaches twenty thousand barrels per day.

It controls one great lease of about twelve thousand acres northwest of the rich Houston oil field in a restricted area where anti-trust has been broken.

A reported 100,000 barrel output has just been secured about three miles southeast of a big boom in the southern district. Leases are selling as high as five hundred dollars per acre.

At the hour this notice is written the drills are in the raw rock of production in three different wells of the Uncle Sam Oil Company.

My readers, June 20, four to seven new wells in different districts should be completed. Some of them are certain to be rich producers and will justify an advance on the stock from 5 to 35 per cent.

This company is starting the moderate investor a real opportunity. It is backed by sufficient strength to continue a few drilling companies until the results are secured.

indicate failure. Good prospects do not last long. When a prospect is good, the time to secure the stock is right now.

We plan to invest from 2 to 3 million dollars in new properties and drilling necessary wells. The total authorized issue of stock will make a total of eight hundred million shares.
