BURNED FAMILY OF FIVE TO DEATH, IS CHARGED

St. Louis, Oct. 24.—Thomas Metzler, 45, was taken to Chester, Ill., today to answer a charge of murdering a family of five. Metzler was taken to Chester by Sheriff Weaver of Randolph county, Ill., who said Metzler had been indicted on the charge of murdering the family on May 6, 1916.

Indesing Convention Members.

St. Louis, Mo., Oct. 24.—The work of card indexing the expected attendance at the educational convention Thanksgiving week has begun and shortly the assigning of rooms will be taken up. Of course those who send in their names first will be given the best accommodations, although there will be rooms for every one who comes, even unannounced. However, it will facilitate the work very much if those who expect to attend the convention, send in their names to the chamber of commerce or to Secretary J. H. Wagner, who will turn them over to the entertainment committee.

MILK

We can supply a limited number of additional customers with our guaranteed whole milk. Guaranteed that all the cream is in the milk that the cow put there. A month's trial will convince you. Call Stroup Farm, 24257.

Making a Meal on Bread

alone would not be unpleasant if it were our bread. The loaves that come daily from our ovens, are crisp and appetizing have a flavor that appeals to the palate. People don't eat our bread from a sense of duty. They eat it because they like it. So will you when you come to try it. Will it be today?

TWO REPUBLICAN COUNTY TICKETS IN SAN MIGUEL

Believed That Factions Cannot Get Together and That Different Sets of Candidates Will Be Named.

(SPECIAL DISPATCH TO MORNING JOURNAL) Las Vegas, Oct. 24.—A new paragraph was written in the rules for the conduct of republican caucuses tonight in precinct 29, East Las Vegas. F. O. Blood moved the usual appointment by the chair of a nominating committee of three to select names of sixteen delegates to the county convention. N. O. Herman opposed the motion and suggested that the delegates be selected in open caucus from the floor. He offered this as an amendment to the usual motion. Judge D. J. Leahy, raising a point of order against it and Chairman Tipton ruled the amendment out of order and the caucus proceeded in the good old fashioned republican way. There were nearly two hundred men present at the caucus. An independent republican convention will be held Thursday by the Margarito Romero faction, and the standard faction will hold their convention on Friday. It is believed now that there will be two republican county tickets in San Miguel.

CHARRED HUMAN BONES AFFIRM CONFESSION

(SPECIAL DISPATCH TO MORNING JOURNAL) Los Angeles, Oct. 24.—Charred human bones, supposed to be those from the missing head and torso of Mrs. Irene Barrett and her son Raymond, age eight, of whose murder Henry H. Barrett, an aged and wealthy banker, was alleged to have confessed, was found today on Barrett's ranch near Santa Monica. The burned and broken bones, according to the police, added to those previously found in ashes of a large brush and timber fire where Barrett was alleged to have confessed he burned the bodies of his wife and stepson last Wednesday, completed the skeletons of an adult and a youth. Barrett's assertion that he acted in self-defense, confirmed by Deputy District Attorney Clark said, with apparently good evidence that all clothing of Mrs. Barrett and the boy had been found in the ranch house.

Two More Norwegians Go Down

London, Oct. 24.—Two Norwegian steamers, Segunda and Gronbaug have been sunk, says a Reuter dispatch from Christiania. The Gronbaug's crew was rescued. The Norwegian steamer Edvin, the dispatch adds has been seized and taken to Koda, Germany. Lloyd's shipping agency reports that the Norwegian bark Gunn has been burned by the Germans and the crew landed.

FRENCH FORCES AT VERDUN DRIVE OVER LINES OF CROWN PRINCE

(Continued From Page One) artillery fire on the Rumanian trenches on Soudant mountain, 5,000 feet high, which an hour later reached its maximum fury. The fire was then directed mainly against the trenches, some 500 feet below the summit. For several hours the Rumanian lines were stuck to their trenches. Word coming from the artillery spotters that the Rumanians thus far had not been impressed, the artillery increased its fire. The Rumanian infantry still held on for a time but finally broke across the slope like a swarm of ants. The German and Rumanian infantry came in view. German artillery followed up the fleeing Rumanians with shrapnel and the manner in which the fire pursued the Rumanians appeared almost amazing. On their leading from Soudant mountain the Rumanians finally reached their second position. A hill named. A few minutes before 2 p. m. it was decided to resume operations. German artillery, ably supported by some Hungarian batteries, repeated the work of the morning and the infantry then advanced in a comparatively short time the objective was gained. The ground being extremely difficult, the Rumanians endeavored to forward infantry reinforcements through the town of Predeal, with the result that heavy German and Rumanian artillery fire for fifteen minutes blew up half of the town. The Rumanian forces were obliged to seek shelter in the forest above the town, passing through German infantry fire at long range.

REPORTS CURRENT THAT U-53 HAS BEEN SUNK

(SPECIAL DISPATCH TO MORNING JOURNAL) Boston, Oct. 24.—Capt. W. G. Tudor of the British steamship Houchens, which arrived today from Louisa, Scotia, said that before he left Nova Scotia persistent rumors were current that the German U-boat 53 had been sunk off Sydney, N. S., by the Canadian patrol boat Stables. He said he heard the rumor several times, but was unable to verify it. "Before I left Louisa I was told by a shipping man that I need not worry about the German submarine," said Captain Tudor. "This man said the U-boat would not bother any more British vessels because she had been sunk by the Stables." Captain Tudor said no mention was made of the submarine.

Whitlow Station Overhauled

Whitlow, Ariz., Oct. 24.—The waiting room and ticket office department of the Santa Fe station at Whitlow this week being overhauled, and a larger and more serviceable waiting room for the ladies is being built. This new room will be partitioned off from the ticket and baggage offices by a window of ground glass twenty-five feet high and fifteen feet long. Later in the month there will be built private offices for Agent Fouts and Yardmaster Tully. The entire depot will also be given a new coat of paint and clean up will be the slogan around the office from now on.

FULL EXPOSURE OF WHAT RECORDS OF O'LEARY AND FRIENDS SHOW

(Continued on Page Two.)

Following general statements contained in the report of the committee on permanent organization: "Should the general result of the election be more favorable, this committee believes that there will be an inclination on the part of some to abandon all effort to make the victory the first of a continual series. On the other hand, if the election should be a general disappointment, this committee fears there will be a general tendency on the part of our common people to allow themselves to be overcome by discouragement and it will be this time that this organization can prove its wonderful value by arousing the discouraged masses and teaching them that with a first defeat we have just begun to fight."

Hughes Complied With Demands.

The democratic national committee, in a letter of Will H. Hays, dated October 23, 1916, for the first time made upon the candidate, and Mr. Hughes' full compliance with such demands in the estimation of the propagandists, as well as of the conference with Mr. Hughes' campaign managers. The letter states in part: "It is possible for me to notify you that our delegation was accorded the same consideration as has been given to Mr. George Perkins and his followers and Mr. Hughes gladly listened to requests that he state just how he stood upon American issues."

Willing to State Position.

"In answering those questions, Mr. Hughes declared that he was perfectly willing to state his position on any specific instance that might be brought up. "He declared that he had no reason to conceal anything, with the exception of mail seizure, etc., and then to show the people just exactly how he felt, he made his speech in Philadelphia and touched on these questions. "This speech by Mr. Hughes was perfectly satisfactory to all our leaders in the north, west and south. His speech should satisfy everyone that in this election we will secure the services of a real American president. And from this time on it is to be understood that organization leaders will instruct all of our section leaders and others to do all that is possible to bring about the election of Mr. Hughes."

Concerning the secret negotiations between the representatives of the "American Independence conference" and Mr. Hughes' campaign managers, the MacDonald letters say:

"What follows is a report of the results accomplished by the delegation that left Philadelphia to confer with certain republican leaders. It now appears that in addition to the consultations held in Chicago by Daniel F. Cohalan, as spokesman for the O'Leary organization, Chairman Willcox of the republican national committee, Mr. Hughes conferred in New York with MacDonald and Frank Seiberlich, of Boston, another member of the special committee, headed by O'Leary, which presented the demands of the organization to Mr. Hughes."

Willcox Conferred With MacDonald.

"Mr. Willcox, in a report of the results accomplished by the delegation that left Philadelphia to confer with certain republican leaders. It now appears that in addition to the consultations held in Chicago by Daniel F. Cohalan, as spokesman for the O'Leary organization, Chairman Willcox of the republican national committee, Mr. Hughes conferred in New York with MacDonald and Frank Seiberlich, of Boston, another member of the special committee, headed by O'Leary, which presented the demands of the organization to Mr. Hughes."

Silence of Mr. Hughes.

"Furthermore, when Jeremiah A. O'Leary dared to insult President Wilson and the president in reply brought that insult to public attention, and while all of the subsequent exposure of the vicious propaganda of the disloyalists was filling the public press, Candidate Hughes and Chairman Willcox remained silent on this great issue."

That is what is going to impress every patriotic American regardless of party affiliation, and it constitutes an indictment against Mr. Hughes that will be passed upon by a jury of his fellow Americans on November 7.

So far as the democratic national committee is concerned it gives me pleasure to say that of course we maintain a foreign language bureau as has every national committee, and that we send out literature in many languages to Americans of native and foreign birth. Of course we send literature in the German language, and very considerable proportion of the American public, because such an act of commission would be equivalent to accusing Americans of German birth and descent of being represented by a few disloyal propagandists."

On the contrary, hundreds of thousands of loyal Americans of German birth or descent are warmly supporting President Wilson and denouncing the secret methods of Jeremiah O'Leary and his crew."

Take Straw Vote of Guardians.

Albany, N. Y., Oct. 24.—Henry G. Adams, head of the election bureau of the secretary of state's office, left today for McAllen, Texas, with ballots on which some 10,000 New York national guardians stationed on the Mexican border will indicate their choice for president of the United States, for governor and for other state, county and local officers.

DRY CANDIDATE AGAIN ATTACKS JUSTICE HUGHES

Secretary to Republican Standard Bearer Says No Announcement on Prohibition is Likely.

(SPECIAL DISPATCH TO MORNING JOURNAL) Birmingham, N. Y., Oct. 24.—Receipt of a copy of a letter Charles E. Hughes, secretary recently sent to the Michigan Dry Federation, charging that Mr. Hughes probably would make no declaration of his stand on the liquor question during the campaign, caused J. Frank Hanly, the prohibitionist presidential candidate, here tonight, to launch a fresh attack on the republican nominee. "Hughes said the other day," Hanly declared, "that the country needed, as never before, an Abraham Lincoln, and left the intimation that it might find a Lincoln in himself, forgetful of the fact that Lincoln, in his day, accepted the challenge of a hostile government, called a million men to his side, put muskets in their hands, and bade them shoot it to death. "Where Lincoln stood and fought, Mr. Hughes bows in dumb and silent acquiescence."

Michigan Drys, stating that Michigan was trying to make it appear that Hughes was not in favor of prohibition, and taking his real views on the issue.

"With regard to the reports that are being circulated as to his view on the issue of national prohibition, the reply said, 'It is well to bear in mind that he always speaks for himself. Under these circumstances, these reports are unworthy of credence until publicly corroborated by him. I might as well declare on the subject.' Mr. Hanly remarked tonight that the letter was 'characteristic of Mr. Hughes, as his answer to other similar requests had been. I have nothing to say in public or in private on that issue.'"

THE PRESIDENT STARTS LAST TRIP TO MIDDLE WEST

(SPECIAL DISPATCH TO MORNING JOURNAL) Long Branch, Oct. 24.—President Wilson will leave here at noon tomorrow for Cincinnati, on the last middle west trip of his campaign. He will spend in Cincinnati three times on Thursday and will return here Friday night. Only very brief stops will be made by the president going to and returning from Cincinnati, but he is expected to meet his campaign platform of his private car and shake hands. On the way west, he will arrive at Philadelphia at 3:40 o'clock tomorrow afternoon, and at Baltimore at 6 o'clock Thursday morning. He will arrive at Cincinnati at 11 p. m. Friday night. After his arrival there, the president will go immediately to a hotel and at noon will receive an official welcome from the mayor, to which he will reply, and will attend a public reception at the Chamber of Commerce. At 1 o'clock he will attend a luncheon at the Women's City club, and then will take a motor ride through the city. At 6 o'clock he will take dinner at the business men's club, and at 8:15 will speak at the music hall. He leaves Cincinnati at 11 p. m., arriving at Long Branch at 10:45 o'clock Friday night. Mrs. Wilson, Secretary Taft and Dr. Cary Grayson, the White House physician, will accompany the president. He has prepared none of his speeches in advance. On Saturday, President Wilson will speak here at a celebration of "Woodrow Wilson day," which the democratic national committee has arranged to celebrate throughout the country.

QUEST OF FOREIGN TRADE IS DIRECT CAUSE OF WAR

Amarillo, Tex., Oct. 24.—"The quest for foreign trade is the direct cause of war, and foreign trade brings riches to the few and want to the man," said Allan T. Benson, socialist candidate for Colorado county, here tonight. He severely criticized President Wilson's ideal of service, which he characterized as militaristic and which he asserted upholds the high cost of living. "So long as a few own this nation's industries, they will have to seek for their own markets for the goods that American workers cannot buy back with their wages. "So long, therefore, we shall be compelled, according to President Wilson, to 'serve the world' by permitting our capitalists to sell goods that we have made and, were we permitted to do so, would gladly consume. "But why not cease this talk of serving the world and begin talking about serving ourselves? "With no necessity for foreign markets, he said, there would be no necessity for great military establishments to protect our capitalists in their trade. Another way to get to Fredonia is to go by rail, passing through the four states of Arizona, California, Nevada and Utah, or Arizona, New Mexico, Colorado and Utah and then finish the journey by an auto ride of several hours over bad roads. There is a possible way across the Grand canyon by boat or cabin which leaves the passenger to travel about eighty-seven miles through an almost unexplored wilderness. To say that Colorado country is larger than the state of Massachusetts does not convey to every one an adequate idea of its size. It is told on the Arizona legislature that when legislators saw the bill of

LONG DISTANCE MARRIAGE JOINS TWO FOND HEARTS

(SPECIAL DISPATCH TO MORNING JOURNAL) Laredo, Tex., Oct. 24.—Over 1,200 miles of telegraph wire, and performed through proxies in the form of two persons, telegraph operators, Private Byron J. Lohart, Company B, Second Missouri infantry, stationed here and Miss Ruby Swartz, in her home town of Butler, Mo., were married tonight, according to the rites of the Episcopal church. Preliminary to the wedding, the officiating clergymen in Laredo and Butler, entered into a telegraphic conversation to ascertain the official standing of each other in the church and their authority to perform the ceremony. Lohart, accompanied by the Rev. C. W. Cook, appeared at the Laredo office of the Western Union Telegraph company at 8 o'clock tonight for the unique ceremony. At the same hour, Miss Swartz, accompanied by Rev. E. M. Talbot and Mrs. Capt. Edward S. Clark, the bridesmaid, arrived at the telegraph office in Butler. The telegraph operators handled messages direct between the two places, embodying the full marriage ceremony of the Episcopal church, wherein both bride and groom signified their acceptance of each other as life partners. After the telegraphic ceremony, Lohart was "waylaid" and pelted with rice by his brother guardsmen here, and later in the evening, was chartered by a brass band from one of the Missouri regiments.

RENSON FLAYS BOTH PARTIES FOR IMPARTIALITY

Socialist Candidate, in Clovis Speech, Attacks Republicans and Democrats With Impartiality.

(SPECIAL DISPATCH TO MORNING JOURNAL) Clovis, N. M., Oct. 24.—Allan T. Benson, socialist, in a speech here tonight, assailed the democratic administration on preparedness and tendency toward militarism before an audience which was much opposed to his theories. He scored heavy appropriations for the army and navy and attacked republican and democratic candidates in the recent election that both are supported by capital. He scored the Wilson administration for alleged jokers. Mr. Benson criticized the national guard draft law, was against military training in schools, rapped on Roosevelt's Arizona speech on the Mexican situation, saying those who believed they could make more money in Mexico than in the United States were not worth spilling blood for. He claimed Wilson has the backing of Morgan, and Hughes the Rockefeller interests. He was as enthusiastically cheered as his campaign manager who spoke last night. There was a good-sized audience. Governor McDonald is to speak here tomorrow night and is expected to present the socialist's argument in its entirety. Benson practically admits that Wilson is a friend of labor and scores Hughes heavily for his backing.

QUEST OF FOREIGN TRADE IS DIRECT CAUSE OF WAR

Amarillo, Tex., Oct. 24.—"The quest for foreign trade is the direct cause of war, and foreign trade brings riches to the few and want to the man," said Allan T. Benson, socialist candidate for Colorado county, here tonight. He severely criticized President Wilson's ideal of service, which he characterized as militaristic and which he asserted upholds the high cost of living. "So long as a few own this nation's industries, they will have to seek for their own markets for the goods that American workers cannot buy back with their wages. "So long, therefore, we shall be compelled, according to President Wilson, to 'serve the world' by permitting our capitalists to sell goods that we have made and, were we permitted to do so, would gladly consume. "But why not cease this talk of serving the world and begin talking about serving ourselves? "With no necessity for foreign markets, he said, there would be no necessity for great military establishments to protect our capitalists in their trade. NEW HAMMOND INVENTION TO BE TESTED BY U. S.

Aeroplane Apparatus to Direct Torpedo Against Enemy Vessels So as to Make Invasion Impossible.

(SPECIAL DISPATCH TO MORNING JOURNAL) Gloucester, Mass., Oct. 24.—Experiments with wireless guidance of torpedoes from an aeroplane, an invention of John Hays Hammond, Jr., which may revolutionize American coast defense, will, it became known today, be made here next month. Keenly interested in the previous tests of Mr. Hammond's apparatus for steering and operating from the shore by radio waves his visit, the "Natick," the war department has lost no time in taking up the inventor's latest project and has detailed Lieut. Shapley W. Fitzgerald, U. S. A., an experienced military aviator, to pilot the aircraft in the experiments. A specially designed seaplane of the Burgess self-balancing type is now under construction by the Burgess company at Marblehead for the trials here. It will be a large weight carrying machine, capable of making a useful load of more than half a ton. On it will be mounted the apparatus for controlling the torpedoes in the water below and for directing it against hostile warcraft. Should the tests prove conclusive, and the war department provide coastal points with a sufficiently large number of suitably equipped aeroplanes, a landing by any invader on United States shores would be virtually impossible. For the torpedo will operate from a height which will render it immune from gunfire, and providing the apparatus fulfills its promise, can guide its torpedo with unerring accuracy. The invention also makes possible the use of torpedoes in water too shallow to be utilized by submarines operating under the surface, and its place in national defense against invasion by sea is virtually limitless.

Make Reduction in Taxes.

Las Vegas, Oct. 24.—The county commissioners have made a reduction in the tax levy for county purposes of .15 mills. The state had made a cut of .20 mills, making a total saving to citizens of San Miguel county in taxes this year of .35 mills. The total levy for state, county and East Las Vegas is 15.25 mills, which is .35 mills less than last year. In the town of Las Vegas the total tax burden is .85 mills less than in past years. For the past seven years the county commissioners have been able to make a reduction in the levy each succeeding year. In spite of this fact, San Miguel county has built a large number of bridges and made extensive road improvements.

HUGHES-ETTESIN DENVER RECEIVE REAL YELLFEST

Noisy Exchange of Cheering Between Supporters of President and His Opponent Greet Republican Women.

(SPECIAL DISPATCH TO MORNING JOURNAL) Denver, Colo., Oct. 24.—A "silent demonstration" arranged by democratic women for greeting the Hughes women's special campaign party upon their arrival here today from the Pacific coast was turned into a noisy exchange of cheering between supporters of Charles E. Hughes and President Wilson. Several hundred persons had gathered at the station to welcome and witness the arrival of the thirty women campaigners. As the Hughes women entered waiting automobiles a delegation of democratic women wearing large Wilson banners began cheering. The Hughes women, wearing large Hughes banners, returned the cheers. Hundreds of spectators took up the cheering and for several minutes an old fashioned "yell fest" was staged. A large detail of police did not interfere with the apparently friendly exchange of greetings. The women campaigners at their hotel early tonight listened to a brief speech by Theodore Roosevelt and later marched in the "red fire parade" and attended tonight's meeting. They expect to spend tomorrow at Colorado Springs and leave later for meetings in Nebraska and Kansas.

CANDIDATE STRENUOUS IN CAMPAIGN EFFORTS

(SPECIAL CORRESPONDENCE TO MORNING JOURNAL) Flagstaff, Ariz., Oct. 24.—C. C. Jones, candidate for county attorney of Coconino county, is very anxious to get elected, if his efforts in electioneering are any indication. He has just returned from a 245-mile automobile trip to see the voters of Fredonia, a settlement of 300 people, situated a few miles from the Utah line on the north side of the Grand canyon and almost inaccessible from any direction. The route by automobile runs north from Flagstaff across the Navajo reservation, and thence across the Colorado river westward. Another way to get to Fredonia is to go by rail, passing through the four states of Arizona, California, Nevada and Utah, or Arizona, New Mexico, Colorado and Utah and then finish the journey by an auto ride of several hours over bad roads. There is a possible way across the Grand canyon by boat or cabin which leaves the passenger to travel about eighty-seven miles through an almost unexplored wilderness. To say that Colorado country is larger than the state of Massachusetts does not convey to every one an adequate idea of its size. It is told on the Arizona legislature that when legislators saw the bill of

Release American Fish Boats.

London, Oct. 24.—The American schooners Richard W. Clark and Maryland have been released. They will be permitted to proceed to their destinations with their catches. The Maryland of Philadelphia, as taken into Leerwick, having been sent there from the fishing grounds off Iceland. The Richard W. Clark of New Bedford, Mass., was sent to Grimby with the Iceland fish grounds. The detention of the Clark and several other American fish vessels is in connection with the efforts of the entente allies to prevent fish from reaching the central powers.

WOMEN SHOULD GET THIS HABIT AS WELL AS MEN

Happy, bright, alert—vigorous—vivid—a good clear skin—a natural, rosy complexion and freedom from illness are assured only clean, healthy blood. If only every woman and likewise every man could realize the wonders of the morning inside bath, what a gratifying change would take place. Instead of the thousands of sick, anaemic-looking men, women and girls with pasty or muddy complexions; instead of the multitudes of "nervy wrecks," "rundowns," "brain fags" and pessimists we should see a virile, optimistic throng of ruddy-cheeked people everywhere. An inside bath is had by drinking each morning before breakfast, a glass of real hot water with a teaspoonful of limestone phosphate to wash from the stomach, liver, kidneys and ten yards of bowels the previous day's indigestible waste, such fermentations and poisons, thus cleansing, sweetening and freshening the entire alimentary canal before putting more food into the stomach. Those subject to sick headache, lousiness, nasty breath, rheumatism, colic and particularly those who have a pallid, sallow complexion and who are constipated very often, are urged to obtain a quarter pound of limestone phosphate at the drug store, which will cost but a trifle but is sufficient to demonstrate the quick and remarkable change in both health and appearance awaiting those who practice internal sanitation. We may remember that inside cleansing is more important than outside, because the skin does not absorb impurities to contaminate the blood, while the pores in the thirty feet of bowels do.

Happy, bright, alert—vigorous—vivid—a good clear skin—a natural, rosy complexion and freedom from illness are assured only clean, healthy blood. If only every woman and likewise every man could realize the wonders of the morning inside bath, what a gratifying change would take place. Instead of the thousands of sick, anaemic-looking men, women and girls with pasty or muddy complexions; instead of the multitudes of "nervy wrecks," "rundowns," "brain fags" and pessimists we should see a virile, optimistic throng of ruddy-cheeked people everywhere. An inside bath is had by drinking each morning before breakfast, a glass of real hot water with a teaspoonful of limestone phosphate to wash from the stomach, liver, kidneys and ten yards of bowels the previous day's indigestible waste, such fermentations and poisons, thus cleansing, sweetening and freshening the entire alimentary canal before putting more food into the stomach. Those subject to sick headache, lousiness, nasty breath, rheumatism, colic and particularly those who have a pallid, sallow complexion and who are constipated very often, are urged to obtain a quarter pound of limestone phosphate at the drug store, which will cost but a trifle but is sufficient to demonstrate the quick and remarkable change in both health and appearance awaiting those who practice internal sanitation. We may remember that inside cleansing is more important than outside, because the skin does not absorb impurities to contaminate the blood, while the pores in the thirty feet of bowels do.

WOMEN SHOULD GET THIS HABIT AS WELL AS MEN
