

"KEY-KARD" A NEW ANTI-THEFT DEVICE

Interesting New System Makes Theft of Cars Extremely Difficult.

The Key-Kard Corporation announces that arrangements for the manufacture of its automobile locking device are about completed and that its first factory will be in Brooklyn. Lately the next will be at Stamford, Conn. Negotiations are now pending.

This new automobile lock is the invention of Joseph Billings of Brooklyn, N. Y. It includes a self-contained ignition switch composed of three separate units, which when assembled, renders the car most difficult to steal, locking the ignition as well as the hood.

The Key-Kard is the key which opens and closes certain electric circuits causing the other units to function. By taking out the Key-Kard identification plate the car is locked and the word "Watchdog" is stamped on the holder and its container. "The Key-Kard," are interlocking and there are no duplicate combinations. Hence, only the owner's plate will blot out the telltale word.

Should the thief attempt to cut the wires or to destroy the device, the main fuse will be blown and the motor cannot be started until the same is reconnected and to make the required connection on the motor necessary to starting necessitates the raising of the hood, which is locked by the Key-Kard lock. There are no tumblers to manipulate, removing the possibility of the lock being picked. The system is tamper, weather, rust proof. The working parts are made impossible and the corresponding configurations of each Key-Kard and its holder has a vast number of combinations. It is claimed that the system makes it extremely difficult to steal the car, protects the car owner against riding of unauthorized parties, materially reduces the insurance rate, and is obliged to remove the Key-Kard in order to stop the motor from running. The car owner whose car is equipped with the Key-Kard device is in a position to furnish the insurance company with indisputable evidence that he has locked his car by presenting the Key-Kard to them.

CARE OF TIRES IF CAR IS PUT AWAY

If you are going to put your car away for the winter, says the United States Tire Company, there are a few important rules to follow if you want to find your tires in good condition when springtime comes again.

In the first place, the tires should be cleaned thoroughly to remove all dirt and grease. If you want to be especially kind to your tires, remove them from the car, deflate them, wrap them up in paper or cloth and store them in a cool, dry place away from the sunlight.

If you do not want to go to the trouble of removing the tires, jack up the car, deflate the tires and wrap them in covers of paper or cloth. Do not let the car stand on the tires all winter or you will need a new set of tires in the spring. It is essential that the tires be inflated in cold weather an inflated tire has a tendency to "set"—a condition under which the rubber is likely to break if bent or twisted out of the position or shape in which it has stood for a length of time.

NEW STEPHENS SHOWROOM

"The Stephens Salient Six," the product of the Moline Plow Company, has opened its new showroom in the American Building, at No. 1326 Broadway. The Stephens Motor Works has just announced its new models together with big reductions in prices, ranging from \$600 on the roadster to \$805 on the closed model.

The Alfred J. Higgins Automobile Company has fitted up its salesrooms with every up to date convenience. The showroom is open every weekday until 11 P. M. The service station is at No. 614 W. 131st Street.

NEED FOR STANDARD SIGNALLING CODE

Very many automobile accidents are caused by traffic signals being misunderstood. The misunderstanding comes about largely because there is no standard code of signals. Most automobilists indicate what they are going to do—that is, when they really do give a signal—according to their own ideas of what a signal should be. There is real need for the Police Department to issue a special ruling on signals for driving, and in the opinion of William C. Poertner, former President of the Automobile Dealers' Association, "this would be a great relief to the general motorist and would in many cases absolve him from blame for accidents."

Mr. Poertner, head of the Poertner Motor Car Company, has offered several suggestions regarding traffic regulation that have been much appreciated by the Police Department. His latest idea is offered because, as he says, the average motor car driver in signaling does so in a manner that the driver behind him has no idea of which way he is going, whether it be to the right or left, or whether he is going to stop entirely.

"If a driver intends to turn left he should indicate by putting out his hand with the index finger, pointing very clearly to the left," says Mr. Poertner. "If he is going to turn right he should put out his hand as that it can be seen from the rear, and should move it forward in a circle. No driver should give a left turn signal when he means to go right, and above all should never signal so that traffic behind him will come along to his left, if he intends to go left himself."

"The stop" signal is simply to put out one's hand, keeping it horizontally extended."

COLUMBIA TO BUILD THREE STADIUMS

Separate Stands for Football, Baseball and Track on Field at 218th Street.

Complete plans for the new Columbia athletic field on the Dykman tract, a 26-acre plot of ground bounded by Broadway, 218th Street and the Harlem Ship Canal, are made public to-day. Henry Hornbostel, class of '21, is the architect.

The plans call for three separate stadiums. By far the largest and most imposing will be the football amphitheatre, which will have a minimum capacity of 26,000 and will be in the general shape of a flat saucer. To the north of this along the Hudson River will be the baseball diamond, with a single-deck stand seating about 7,000. In the northeast corner of the field there will be a track stadium, seating 13,000 and enclosing a field for track and field, containing a 200-yard straightaway track and a one-lap circular cinder path measuring a quarter mile.

In addition to this trio of fields there will be twenty tennis courts and a club house on the top of the hill overlooking the various fields.

ACCUSED OF STEALING \$175 FUR COAT IN AUTO

Chemist Arrested While Alleged Victim Aes Shopping.

Mrs. Catherine Arnew Auchincloss of No. 123 East 49th Street will appear in Jefferson Market Court to-day against James McSweeney, twenty-nine, a chemist living at the Mills Hotel, who was arrested yesterday on Broadway charged with stealing Mrs. Auchincloss's \$175 coat. While Mr. and Mrs. Auchincloss were shopping in a store at 34th Street and Broadway, Policeman Winthrop of the West 40th Street station arrested McSweeney whom he says he saw take the coat from the Auchincloss automobile. The prisoner says he found the coat. The police declare several pawn-tickets for coats and suits were taken from McSweeney's pocket.

JERSEY CITY TO HOLD AUTO SHOW

Promises to Surpass That of Last Year—First Exhibition to Be Held in East.

Automobile enthusiasts, not only in New Jersey but throughout the Eastern States, are waiting with great interest the second annual exhibition of the Hudson County Automobile Association which will be held in the 4th Regiment Armory, Jersey City, during the week of Nov. 14.

Last year this exhibition brought forth the latest models of the manufacturers, and the result was that not only Jersey took but also a vast assemblage of New York on hand in the week of the latest offerings were. It is promised that this year's efforts will surpass those of 1920, for it is known that manufacturers are planning to make displays of their very latest products. The Jersey show will inaugurate the show season in the East.

Already the Show Committee, of which E. Henery is Chairman, is hard at work on the details of the exposition, and he is assisted by Everett W. Cox and E. Hoffman. On the committee also are the officers of the association as follows: J. E. Hallinger, President; A. B. Southworth, Vice President; H. V. Loomis, Treasurer; A. W. Elder, Secretary; Duncan Stuart, Recording Secretary. Fred Burtel, the well known exposition manager, is in charge of the show.

CLAIMANT TO SHARE IN MILLIONS WEDS

Miss Hannah Smith of Caldwell, N. J., one of the claimants of the estate of the late Charles Fair, a multi-millionaire, was married at Caldwell to-day to Charles William Graham of Verona, N. J. Her marriage recalls the litigation over the Fair estate. Fair and his wife were killed in France in an automobile accident and the point at issue, never decided, is whether the man or the woman was the first to die. If Mrs. Fair died first, the estate belongs to her husband's relatives, whereas if Mr. Fair died first, his wife's relatives, including Mrs. Graham, would benefit. Many of the claims and counter-claims have been settled by compromise, but Mrs. Graham's claim has not been decided. It is said that her interest is about \$500,000.

SEIZE COUPLE HERE IN \$1,100 GEM THEFT

Detective Richard Black of Atlantic City and detectives from the West 65th Street Police Station, early to-day at the Colonial Hotel, 51st Street and Columbus Avenue, arrested a couple describing themselves as George Williams and his wife, Rita, on a charge of being fugitives from justice. The police said a warrant had been issued in Atlantic City charging the couple with the theft of a \$1,100 diamond necklace belonging to a prominent man whose name was not given.

GLYNN BOY BURIED, THROUG AT FUNERAL

Ex-Gov. Smith and City Officials Attend Nephew's Obsequies. The funeral of William N. Glynn, thirteen, of No. 9 Middagh Street, Brooklyn, son of former Police Lieutenant John Glynn and a nephew of former Gov. Smith, who was accidentally shot by a playmate, James Collins, fourteen, of No. 12 Poplar Street, last Saturday and died Sunday night in Long Island College Hospital, was held to-day. The Rev. William Carroll was officiant of the mass at the Church of the Assumption, with the Rev. Edward Costello as deacon, and the Rev. John Grant as sub-deacon. Ex-Gov. Smith and his family, Fourth Deputy Police Commissioner John Gray and many city and police officials were among the throng at the funeral. The boy was buried in Calvary Cemetery.

WIFE ABANDONED FIVE CHILDREN, HE CHARGES

Mrs. Geraldine Fischer of No. 911 Herkimer Street, Brooklyn, was arraigned in the Gates Avenue Court, Brooklyn, to-day charged with endangering the health of her five children. Magistrate Dale paroled her until Friday for further examination. Her husband alleged Mrs. Fischer left the home on Oct. 14 and abandoned the five children, Clara, twelve, Elsie, ten, Edward, five, Geraldine, four and Elsie, sixteen months. Clara played the "Little Mother." The husband procured a summons for his wife yesterday and found her in Manhattan.

CANDY PENNY A POUND PROFIT SOFT CANDY REPRESENTS A CRYSTALLIZATION OF IDEALS in the creating of Sweets. For several generations we have studied, experimented and improved, and now employ the very best and most advanced ideas of the world's most famous candy masters, and yet the prices of our candies are fully from 40% to 50% lower than those asked by the "exclusive" confectioners.

EXCUSED AS JUROR BY WAR PREJUDICES

Former British Intelligence Man Could Not Give Hindoo Fair Trial. Lee J. Wolfe, a consulting engineer of No. 145 Broadway, living at No. 149 West 78th Street, was called as a prospective juror this morning in the Court of General Sessions. The case was that of Nikka Singh, a Hindoo, indicted for the murder of a countryman, Permattin Sahai, in July, 1920. To Judge Matthew Wolfe said: "Judge, I don't think I would make a fair juror in this case." "Why not?" asked the court. "I was in the British Intelligence Service during the war investigating plots originating in this country against British rule in India, and I have a severe prejudice against these people." He was excused.

AUDITORE ASKS ENRIGHT TO PUBLISH DEBATE

Repeats Charge That Commissioner Is 50-50 With Hughes. James Auditors, who succeeded to his father's title of New York's "Millionaire Longshoreman," has written a letter to Police Commissioner Richard E. Enright, who gave out a public statement from the witness stand before the Meyer Committee Monday referring to a certain witness implicating Mr. Auditors unflinchingly by the context, as being a "ruffian" and having been "coached" to testify that he knew from former Inspector Edward P. Hughes that Mr. Enright was a 50-50 partner in the

Father John's Medicine Best for Colds Bronchitis, Asthma and all throat troubles. Builds new Strength. NO DANGEROUS DRUGS. GUARANTEED

WEAK BLOOD IS A REAL BARRIER Growing Children Often Need Gude's Pepto-Mangan. Some children grow too quickly—they sap their strength. They lapse into careless, desultory habits, or develop a shrinking attitude. Their faces look pinched. The blood becomes overtaxed by too rapid growth and poisons from the system take the place of strengthening red corpuscles in the blood. Red corpuscles are those little red particles that swim in blood and give it its color. Gradually that child loses interest in his play. Poor blood needs the building that the iron in Gude's Pepto-Mangan gives to weakened blood. Gude's Pepto-Mangan enriches the blood by increasing the number of red corpuscles, and restores the blood by driving out the poisons. When the revived blood gets to work, the appetite becomes what a growing child's should be. Your energetic has Gude's Pepto-Mangan in liquid or tablet form. The name "Gude's Pepto-Mangan" is on every package.—Advt. Insist on the Best ROYAL GUARANTEED ROACH POWDER 10 CENTS 25 CENTS SUNDAY WORLD WANTS WORK WONDERS
