INVESTMENT NOW ON GUARANTEED BASIS

Method Devised to Assure Safe and Sure Income to Owners of Apartments.

There are many persons of means who would gladly invest their money in real estate if it were not for the many bothersome details...

We have found in our more than twenty years experience that there are many persons of means who do not know how to economically manage their properties...

The plan works out this way: Mr. Goodwin continued: "When an owner desires to invest in an apartment building, we first advise him to open his books and show us what the management of the building has cost him."

After an owner has signed a contract with us he has nothing more to bother him except to have the customary title and assessments. We take care of all repairs, inside and out, we look after the fuel and light.

Some of our competitors are inclined to be too lenient. To an extent this may be true, but there is a great difference. While there is a certain element of speculation in all ventures...

The success of our system is evinced by the fact that we now have more than fifty buildings operating under it. We are collecting approximately \$1,500,000 in rents monthly...

As an example of how our system works let us cite a few examples. The Newman apartment, at 330 West Ninety-fifth street, was in bad repair...

Evolution of Madison Avenue Striking Feature of Current Realty Situation

WEST END OF THE LARGEST APARTMENT HOUSE IN THE WORLD WHICH DR. CHARLES V. PATERNO IS BUILDING BETWEEN 47th and 48th STREETS.

BIT OF OLD PARIS, MADISON AVENUE AND 55th STREET, BUSINESS HOME OF ANTIQUE SHOP

Millions Being Spent Modernizing Section North of 42nd Street to Accommodate Trade and Apartment Dwellers Seeking Locations There

Although much has already been written about the wonderful evolution of Madison Avenue from a staid old residential thoroughfare to one of the most modern streets in the city...

The operation of buses on the avenue has been a great consideration. In these days it can easily be seen the aim of the city is to have a wide thoroughfare rather than the old-fashioned street.

There is a striking coincidence between modern hotel building and the city's transportation progress. It seems to matter little to some how long it takes to get to a hotel...

The Hotel Alexandria represents the last word in modern apartment buildings. It is a 15-story building with an ornate front of granite and brick.
