They were accompanied by their daughter, Miss Jean Harding.

DENIES STRIKING PAINTERS HAVE WON

Decorators Standing Firm, Asserts President.

G. W. Richardson, president of the Society of Interior Decorators, flatly denied yesterday reports that the striking painters, decorators and paperhangers have been successful in forcing their demands for a \$10 day and five day week upon the cabinet makers, master painters and interior decorators employing them.

"We present an absolutely solid front to the strikers," Mr. Richardson said, "and do not intend to accede to the demands which precipitated the strike. I am glad to say that our position is cordially supported by the Building Trades Employers Association and many owners of buildings where we have been forced to stop work."

Employing painters and decorators have learned from "reliable sources" that painters of a better grade and more conservative union men have become dissatisfied with the conduct of radical fellow members and propose to form a new union, which they hope will receive recognition from the building trades. The present union does not enjoy this support. Representative employers believed there would be no difficulty in reaching a working agreement with such a new organization, for they assert that there is no quarrel with organized labor.

Union painters have received a wage increase of 50 per cent. during the past year, Mr. Richardson pointed out, and they have not worked on Saturday. They have been told that if they work Saturday forenoon under the present wage schedule they will receive the additional income which they now demand. This they refuse to do.

TABLES CROWDED AT MONTE CARLO
London Cigar Dealer Breaks the Bank Three Times in an Hour.

Special Correspondence to THE SUN and NEW YORK HERALD.
LONDON, Aug. 22.—Walter Martin, a Piccadilly cigar dealer, has the distinction of having broken the bank at Monte Carlo three times in an hour recently and to have returned to his home in London with money in his pocket. To many persons who have heard wonderful accounts of winnings—and losses—at Monte Carlo, "to break the bank" looks big. However, Mr. Martin's winnings in that one hour of play netted him just 15,000 francs, to-day worth about \$955 in American gold.

Mr. Martin admitted that he was "in luck." He said that he played with a "defensive system" of his own.

Two "sittings" stood out in his memory. One of them was when he broke the bank as related above. The other was when he lost 500,000 francs. He played roulette.

"I was able to pay the living expenses of myself and a party of friends off the tables, and I am an old player. I do not remember the tables so crowded. It is difficult to get a seat. British and French are at Monte Carlo in about equal numbers, and one thing that struck me was the number of women players. I should say that there are three of them to every man."

"I saw several well known people who were having bad luck and losing a lot, and one young Frenchman had done amazingly well and in three months had won £250,000. And, like a wise man, he had packed up and gone away with it."

"The tables, however, are prospering greatly, owing to the number of inexperienced and reckless players."

GREENWICH FOLLIES GOES UPTOWN.

Bohemians, Inc., producers of the "Greenwich Village Follies," have announced that the show is to be presented at the Greenwich Village Follies, 1920, at the Shubert Theatre beginning Monday night, September 20. The success of the production at the Greenwich Village Theatre led to the arrangements to move into a larger theatre.
