A YANKEE GARRET.

Of course, there was a garret in this large house; not a mere incident to it, but to my boyish notion its chief and crowning glory. Untold treasures were gathered there; heirlooms from the past, and disabled implements or disused inventions of the present. There was the old fashioned spinning-wheel, which could still whirl merrily around; there were the stately "fire-dogs" of a former generation. Great chests and boxes lined the sides of the room, and happy were the hours devoted to ransacking them. The garret was a boom inestimable for the children's rainy days. But there was a garret above the garret, a sort of third heaven, to which admission was rare. It was reached by a steep ladder, and had a floor of loose boards, and its own little window near to the apex of the roof. There were stored the most secret possessions of the house; walnuts and butternuts, bunches of seed sweet-corn, thyme and savory, and all "simples that have virtue" in domestic medicine. The cellar formed a fit foundation for so manifold activities. In it were the finer vegetables for the table. At the foot of the front stairway were rows of swinging shelves for the red and golden apples. Here was to be seen the base of the great stone chimney, which was strong enough to anchor a leaning tower. These immense chimneys took up no small part of the interior of the old-time houses. —[Martin Kellogg, in the September Californian.]

Napoleon B. Arthur deserted his wife and family at Marysville, Ohio, twenty years ago, to elope with a neighbor's daughter. His wife remained on the farm, and reared their children, while he wandered about the country. A poor, broken down old tramp presented himself recently at the homestead. This was the wreck of the husband and father. He begged for food and lodging, expressing the utmost contrition for his bad behavior. The wife acted with promptness. She set the dog on him, and he barely escaped with his life.

Five boys, digging for a woodchuck, at Pleasant Hill N. Y., found some coins which they took to be gold. Greatly excited, they continued a search until about a thousand pieces were gathered. The treasure turned out to be of small value, however, consisting of English coins of low denominations. A peddler was murdered there seventy years ago, and the plunder buried.
