HOW FOREIGN-BORN CITIZENS ARE TREATED IN RHODE ISLAND.

Recently there was a controversy between two gentlemen of this town, on the subject of protection to foreign-born citizens. One contended that the Democratic party, while in power, did not protect naturalized citizens who revisited their native land, while the other cited the case of Martin Koszta as proof of the contrary.

Last year the United States Senate appointed a committee to inquire and report to that body, concerning the denial or abridgement of the right of suffrage to citizens of the United States. This committee was composed of Democrats and Republicans, and empowered to take testimony under oath, and send for persons and papers.

A foreign-born soldier, who served as major in the Union army, testified that he was denied the right of suffrage because he did not own real estate. A native-born citizen, white or black, can register and vote at any election, whether he owns real estate or not; but the foreign-born citizen, even though he fought in the Union army, is disfranchised unless he owns real property.

The committee embrace, in its report to the Senate, the sworn testimony of a number of citizens to this effect.

Colonel James Moran, of Providence, who served three years as a commissioned officer in the war, and was honorably discharged, swore that he was disfranchised because he is a naturalized citizen and does not own real estate.

Hon. Thomas Davis, also a resident of Providence, testified that he was naturalized forty-five years ago. He had been a manufacturing jeweler, owned real estate; was elected to the Legislature several times and to Congress once, in 1853. He failed, lost his property, and to-day is denied the right of suffrage in the State where he has resided over fifty years, and which he once represented in Congress, because he is a foreign born citizen, and does not own real estate.

These are only a few of the many cases reported by the Wallace Committee to the Senate, where old residents of Rhode Island are not permitted to vote because they are not native born citizens.

The total number of square miles in Rhode Island is 1,054,—much less than some townships in this county. The number of inhabitants to the square mile, according to the local census taken in 1875 is 244, yet unless its foreign born citizens own \$134 worth of its limited real estate, he is treated like a Chinaman, so far as having a voice in the selection of officers and law makers is concerned. The 20,000 voters of Rhode Island are allowed two representatives in Congress, while in the other States the average number of voters in each Congressional District is at least 15,000, and in Connecticut in 1878 it was over 26,000.

At North Amherst, Massachusetts, during a terrible thunder storm, two brothers, named Dellefield, were struck by lightning and instantly killed, falling side by side.

Now, is it not strange, to say the least,

that those who have so much to say in condemnation of any abridgement of the suffrage in the Southern States by educational or property qualifications have no fault to find with Republican Rhode Island, where one armed and one legged Union soldiers and citizens of the United States are denied the right of suffrage, because they were not born in the United States?

THE DIFFERENCE.

The Czar of all the Russias recently journeyed from St. Petersburg to Lividia. The railroad over which he traveled was guarded night and day by 3,000 peasants and 40,000 soldiers. R. B. Hayes, President of the United States, though a majority of the people question his title to the office, travels over thousands of miles of railroad, and there is not a soldier nor a peasant required to watch the road or to guard his person.

TELEGRAPHIC ITEMS.

At Roseville, California, William Jones, better known as "Sleepy," lately employed as a runner for the Roseville Hotel, was found yesterday morning in a straw stack about half a mile from town where he had been tan-nerizing for nine days, and during three of which he claims he did not even taste a drop of water.

The Baroness Burdett-Coutts, who has set her heart on marrying Mr. Ashmead Bartlett, is ill in consequence of her friends' remonstrances. The alien clause in the Duchess of St. Albans will can not, it is said, apply in the case of Mr. Bartlett, who, his friends urge, is in effect an Englishman.

A special from Jacksonville, Florida, says that twelve wrecks by the same cyclone that strack the Vera Cruz have been reported, two steamers and ten sailing vessels. Twelve of the crew of a Norwegian bark got ashore yesterday near St. John's bar. The coast for 100 miles is strewn with goods of all descriptions from wrecks.

The Aurora and Bodie stage was stopped Sunday evening, about 9 o'clock, near Sweetwater, Nevada. The passengers were not disturbed, but Wells-Fargo's treasure box was opened and the contents were taken. The robbers are the same as those who stopped the stage on previous occasions.

General Walker's investigation of the manner of taking the census of South Carolina has convinced him that wholesale frauds have been perpetrated. The evidence is sufficiently conclusive to warrant prosecutions under the law.

A fire broke out in Davisville, Cal., yesterday morning, while a strong wind was blowing, and destroyed three buildings. It required the utmost exertions of the citizens to save the town from destruction.

The Republican County Convention met at Reno at 10 o'clock A. M. to-day. The usual committees were appointed, and the convention took an adjournment to give them time to report.

At North Amherst, Massachusetts, during a terrible thunder storm, two brothers, named Dellefield, were struck by lightning and instantly killed, falling side by side.

"Do you fight mit Sigel?" asks the Schenectady (New York) Star. "If so, all right, for Sigel fights this year, as he did in the war, with Hancock."
