

UNITED STATES WARNS MEXICO ABOUT ARRESTS

Regards the Action Of Huerta One Of "Gravest Importance"

Earnings of Nevada Railroads

Final net earnings of the principal Nevada railroads, as reported to the Interstate Commerce commission, for the fiscal year ending June 30 last, and for the corresponding year ending June 30, 1912, were as below:

	1913.	1912.
Southern Pacific	\$44,091,523	\$40,093,246
Las Vegas & Tonopah	*10,513	*9,189
Nevada-California-Oregon	101,145	107,143
Nevada Northern	739,705	739,835
S. P., S. L. & L. A.	2,969,871	1,533,982
Tonopah & Goldfield	297,566	269,789
Tonopah & Tidewater	121,066	75,436
Bullfrog-Goldfield	*1,121	*7,163

*Deficit.

DIPLOMATIC AGENTS ORDERED TO MAKE A STRONG PROTEST AGAINST THE IMPRISONMENT

By Associated Press.
WASHINGTON, Oct. 13.—After a conference with Secretary Bryan, President Wilson announced today from the White House that telegrams had been dispatched to John Lind, at Vera Cruz, and Charge O'Shaughnessy, at Mexico City, instructing them to make representations to the Huerta government that the United States will look with displeasure upon any injury to the Mexican deputies who were arrested. The expediency has been left to Lind's discretion whether to return to Mexico City to impress these views upon the authorities. O'Shaughnessy was directed to address the minister of foreign relations and make plain that the United States attaches the "gravest importance" to the arrest of the deputies, and is keenly interested in what will be their fate. President Wilson told callers today he did not see how a constitutional election could be had in Mexico. He also made it plain that there was no present intention on the part of this government to depart from the original position that the Mexicans settle their own affairs. LAREDO, Oct. 13.—Fighting between federals and constitutionalists, which began south of here, continued today, according to reports received at Nuevo Laredo, where sixty-five wounded have arrived.

BOMB THROWING SHAKES BLOCK IN ITALIAN DISTRICT

GROCERY WRECKED AFTER OWNER RECEIVED BLACK HAND LETTER.
(By Associated Press.)
NEW YORK, Oct. 13.—Despite the recent arrest of Italians suspected of being responsible for most of the bomb outrages committed here, the east side is excited today over one of the most terrific explosions that has occurred in years. An entire block was shaken, every pane of glass shattered and the grocery of Candelo Gatto wrecked. None was injured, although 250 were driven from their homes. Gatto received several Black Hand letters recently.

WINGFIELD MINE GIVES BUSINESS TO WESTERN PACIFIC

ACTIVITY AT PALISADE SHOWN TO BE WITH DEFINITE END IN VIEW.
The activity of the Western Pacific railroad in the vicinity of Palisade, Nev., where a bridge is being built across the Humboldt river and track extensions prepared for, bids fair to be in anticipation of some large transportation business in line with the policy of the officials to provide the line with feeders. The George Wingfield interests are building at Buckhorn a large milling plant, and there is considerable business as a result of this, while that entire section should be aroused to unusual activity as a result of the Wingfield operations. The Eureka Sentinel thought at first that the Western Pacific was depending upon the resumption of production at the Ruby Hill section, since the differences existing between the producers and the railroad line from Eureka to Palisade were adjusted, but in its last issue the Sentinel had the following to say, in part: "From an interview with J. E. Sexton, manager of the Eureka-Nevada railway, who was in Eureka several days last week, it is learned that the prime inducement that has caused the Western Pacific to build to a connection with his road at this time is the securing of a heavy timber and lumber tonnage from the Buckhorn Mines company. The Western Pacific has a direct haul from the lumber camps in Plumas county, California, to Palisade, with a \$2 less freight rate than the Southern Pacific, and as the mining company at Buckhorn will use a large amount of timber, the Western Pacific decided to build a connection into the Palisade yards so that transfer to the Eureka-Nevada could be made and it could secure this business. Mr. Sexton said that so far as he knew, neither the railway nor mining company had so far made any move toward showing how the proposed rates on ore from Ruby Hill to Palisade, recently given out in an opinion by the Nevada railroad commission, had been received by them. He did not seem inclined to discuss what action or conclusion the two companies would come to regarding their decision in this matter, and the Sentinel failed to obtain any satisfactory information bearing on a settlement of the rate question."

OVER A MILLION IN QUICKSILVER MINED IN 1912

INDUSTRY SHOWS INCREASE, WITH CALIFORNIA AS THE GREATEST PRODUCER.
WASHINGTON, Oct. 13.—Over a million dollars' worth of quicksilver was produced in the United States in 1912, according to figures compiled by H. D. McCaskey of the United States geological survey. On January 10 last Mr. McCaskey's preliminary figures, published by the survey, gave a production of 25,147 flasks of 75 pounds each, valued at \$1,057,180. The final figures are 26,064 flasks, valued at \$1,053,741, showing an error in the early estimate of only 0.3 per cent. These figures indicate an increase over 1911 of 3808 flasks in quantity and \$75,952 in value. Of all the 1912 output California produced 20,524 flasks, the remaining 4540 flasks coming from Nevada and Texas. The total value of the quicksilver production of California in the period of 53 years, from the earliest output to date, is stated at \$95,275,695. The highest annual value of the production was \$4,228,538 in 1875, when the output was 50,250 flasks of 76 1/2 pounds each. There were 17 producing quicksilver mines in California in 1912. The total quantity of ore mined was 138,198 short tons.

BOND IS TAKEN ON TUNGSTEN MINE AT ELY

BASSET CANYON PROPERTY IS TAKEN OVER FOR THE PURPOSE OF DEVELOPMENT.
A lease and bond on the Simms-Olsen tungsten mines of Basset canyon have been taken by a quartette of Ely men, who will immediately begin new development work that will be continued all winter. The men interested in the deal are: H. O. Hall, Ed. Wilson, Fred Strehlke and W. R. Swicegood. Mr. Strehlke will leave in a few days for the property to take charge of the work to be done and expects to have four miners employed during all the winter months. These tungsten mines were discovered about three years ago and some development work has been done each year since that time. There are twelve claims in the group, on which six strong ledges have been found. The largest ledge has been opened in numerous places on the surface, where it can be traced for the length of three or four claims and the average width of it is stated to be twelve feet. Another ledge found is five feet wide and the next in importance has a width of four feet. The other three ledges are said to have an average width of three feet. They all show good ore in many places near the surface and in some places the ore is very high grade and much of it can be shipped without having to be concentrated. The Basset canyon, where the mines are situated, is in the Kern mountains, in the northwestern part of White Pine county and near the Nevada-Utah line. There is sufficient water available for the operation of a mill with a capacity of treating from 50 to 100 tons of ore a day, and the lessees contemplate the erection of a plant when they get more development work done. It is claimed the surface showings of this property indicate it will be a greater producer of tungsten than the Johannesburg mine in California when it is properly developed.

WORKS FOR SIX WEEKS WITH A BROKEN BACK

ELKO ASSEMBLYMAN LEARNS THAT HE HAS GRAVE INJURIES.
John J. Schoer, the veteran assemblyman of Elko county, who was injured about six weeks ago at Deeth when the roof of a house fell in upon him, sustained a broken back along with the various other bruises received. Schoer was not aware that his back had been broken until a few days ago, when he visited a surgeon at Salt Lake City. During the past month the legislator has been up and about and recently spent several days in Elko. At that time he complained of pains in his back and chest, but attributed them to torn muscles and fractured ribs. The Salt Lake surgeon who examined Schoer discovered that the back had been fractured, after X-ray photographs had been taken. It was stated that Schoer was one person in a thousand to live after meeting with an injury of that nature. In order to improve Schoer will be forced to undergo another ordeal—that of remaining in bed for a period of sixty days. He will be encased in a specially constructed harness which is intended to bring the fractured back together. While in the harness Schoer will be unable to move and will be forced to remain in this condition for two months. He is now at his home in Clover Valley, preparing to enter the harness and undergo the ordeal.—Elko Press.

PROGRAMME FOR OBSERVANCE OF COLUMBUS DAY

CELEBRATION THIS EVENING AT KNIGHTS OF COLUMBUS HALL, ON BROUGHER AVENUE.
The only formal recognition of the discovery of America was at the courthouse, where the new statute-proclaiming this a legal holiday precluded the holding of sessions of court or the transaction of official business. Most of the officials were at their desks, however, catching up with belated business. New York and California both observed the day, so there were no quotations from the New York curb or San Francisco. This evening the formal observance of the holiday will be in the hands of the Knights of Columbus, the organization formed for the purpose of perpetuating the memory of the Genoese explorer. An excellent program, consisting of addresses, vocal and instrumental music, and closing with a dance and refreshments, will be presented. The program will be as follows: Master of ceremonies—F. P. Mannix. Vocal solo—Mrs. E. A. Keilher. Address—Judge M. R. Averill, "Columbus." Piano solo—Miss Murphy. Vocal solo—Mrs. William Grimes. Vocal solo—Mrs. W. Hanly. Address—J. E. McNamara, "Our Order." Quartette—Mrs. M. J. Murphy, Mrs. T. B. Flood, Mr. W. M. Rouch and J. S. McGinn.

CONVINCES THE POLICE THAT HE KILLED THREE

CHICAGO MAN HAS TO ESTABLISH HIS OWN SHARE IN ENORMITIES.
(By Associated Press.)
CHICAGO, Oct. 13.—Harry Spencer, having virtually convinced the police that he is at least a triple murderer, and guilty of innumerable robberies, told today that at the time of the Iroquois theater fire here, when 600 lives were lost, he assisted in carrying the bodies out. He carried out one woman who was so burned as to be unrecognizable. She had much jewelry, but he was prevented from robbing the body then, but induced a woman accomplice to go to the temporary morgue and identify the body as that of her sister. She obtained \$1500 in jewelry and \$1100 in cash.

CURRENCY BILL MUST COME UP BEFORE RECESS

SENATORS SAY IT WOULD BE POLITICAL BLUNDER TO SHIRK LIABILITY.
(By Associated Press.)
WASHINGTON, Oct. 13.—A conference today between the president and senators disclosed there was a sentiment against a recess of congress while the currency bill is pending. "I think a recess would be a political blunder equal to a crime," said Senator Stone of Missouri. After the conference Senators Simmons, Shepard and James expressed emphatic opinions against adjournment.

NEWLANDS COMING TO THIS SECTION

SECRETARY WIRES NEWS AND ANNOUNCES ITINERARY OF HOME-COMING.
A dispatch received yesterday from M. F. Hudson, secretary to Senator F. G. Newlands, at Washington, announces the Nevada senator is on his way west, says the Reno Journal. "After attending to some business in California," says the message, "Senator Newlands will return to Reno and then to southern Nevada, where he expects to spend several days. He will return to Washington in time to aid in the passage of the new banking bill."

HOBSON SAYS UNDERWOOD WORKS FOR THE INTERESTS

(By Associated Press.)
WASHINGTON, Oct. 13.—Representative Hobson attacked in a speech in the house Underwood's senatorial campaign, asserting that he was a "tool of the interests," who obtained Hobson's support in the presidential campaign on false representations. Underwood denied the charges. Advertise in the Bonanza.

CARMANIA ARRIVES IN PORT

RESCUE COULD NOT HAVE BEEN EFFECTED ONLY FOR STORM CEASING.
(By Associated Press.)
FISHGUARD, England, Oct. 13.—The Carmania, the first vessel at the scene of the disaster to the Voltorno, arrived here this afternoon. Captain Barr met the newspaper correspondents with a positive refusal to say a word until the Carmania reached Liverpool and he delivered his report to the Cunard company. He referred them to the ship's bulletin for an account of the tragedy. Most of this is history. The fire appeared in the original cargo hold, the bulletin says. Six small boats were launched from the Voltorno. Two, with 25 persons each, got away, and the others were smashed and the occupants perished. The Carmania's passengers shouted cheering messages to those huddled on the Voltorno in the hope of saving any who had abandoned hope, when the sea suddenly moderated, enabling boats of the fleet of rescuers to take off the survivors.

ELKS SEMI-MONTHLY DANCE THURSDAY

FOUR-PIECE ORCHESTRA WILL BE AN IMPROVEMENT ON THE PAST.
Members of the Elks and their friends should not forget the semi-monthly dance that occurs next Thursday evening at the club rooms. Chairman Davis of the dance committee has made special arrangements by introducing several improvements and reinforced music. The latter will be exceptionally fine, as four pieces have been engaged. A slight delay in the issuance of invitations may have led some of the members to believe the dance had been postponed, but they should bear the date in mind that it will be Thursday, October 16.

JEALOUS YOUTH MURDERS FORMER SWEETHEART

SALT LAKE, Oct. 13.—Because he had seen Miss Florence Pardalo, a former sweetheart, in company with another man, Henry Shields, 19, of Jordan, Utah, shot her through the head, killing her instantly. Shields then killed himself.

SENDS POISON TO SELF AND HUSBAND EATS

STOCKTON WOMAN SAYS SHE INTENDED TO TAKE HER OWN LIFE.
(By Associated Press.)
STOCKTON, Oct. 13.—Mary Hamilton, in jail at Lockeford, confessed she placed poison in candy mailed to herself, which she let her husband eat. A physician saved the husband's life. She said she had decided to commit suicide because her name was mentioned in connection with Willis Coulter.

INDEFINITELY PUT OFF SUFFRAGE AMENDMENT

(By Associated Press.)
WASHINGTON, Oct. 13.—Senator Ashurst unsuccessfully attempted again today to get the senate to agree on a time for definite action on the proposed constitutional amendment for woman suffrage. Senator Hoke Smith of Georgia blocked the proposed amendment to debate the amendment, which was changed from January 8 to January 29, with a vote on the latter day, on the ground that it might delay the currency bill.

TEMPERATURE REPORT.

Highest temperature yesterday, 70 degrees; a year ago, 62. Lowest temperature last night, 50 degrees; a year ago, 44.

FOREST FIRES.

SACRAMENTO, Oct. 11.—There have been 130 forest fires in California since the middle of April.

Dividend From the Silver Peak

The Pittsburg Silver Peak Mining company has declared a dividend of two cents a share, payable on the first of November. Books close on the 21st of October. This is the third dividend paid this year by the Silver Peak company, which is controlled by Senator Flynn of Pittsburg, equal to a distribution of \$167,400. The Pittsburg Silver Peak is the famous corporation situated twenty-five miles from Tonopah, that went through litigation for forty years and celebrated its release from the supreme court of Nevada by dividing the funds that had accumulated since the construction of the splendid 100-stamp mill operating at Blair. Its capitalization of the 90 tried for is 2,790,000 shares. Dividend is \$55.80 further than to
