Pioche School Notes
This week ends our eighth month of school and each room is busy with examinations. Many pupils have been unfortunate in having to go out on account of sickness, but most of them are in attendance again and we hope to have every child present every day next month.

The lecture given by Rev. Palmer several weeks ago, as a school benefit, was a success in more ways than one. The lecture was one of high merit and was voted a success by every one who had the pleasure of listening to it. From the proceeds we have placed upon the school grounds a large swing and a seat. We hoped to encourage outdoor exercise and we feel it has no so to the extent that we need but three of each where we have only one of each.

"Fuller Lumber Talks"

LET'S MAKE 1912

A BOOSTER YEAR

for our town, and let it mark the new era of a home building campaign that will outdo anything that ever happened here before. Let's work together—you who are homeless—and see if we can't dig out a way for you to start building ground right away. Come in and we will talk over the plans and show you some lumber that will clear away a whole lot of this talk about prices being too high to build new. Fact is—never again will lumber of the quality we handle be so cheap. Every year our virgin forests are growing smaller and the demands are growing larger. We say in all sincerity, "Lucky will be the man who builds in 1912." If interested, come and see us.
