

THE DAILY APPEAL.

Meeting of the Union State Central Committee.

At a meeting of the State Central Committee of the Union Party of Nevada, held pursuant to call, February 10, 1868, it was ordered as follows: That a State Convention for the purpose of selecting delegates to represent the State in the convention of the National Union Republican Party, called to meet in Chicago on the 20th of May, 1868, be called to meet in Carson City on the 8th day of April next.

DECLINES BEING RESPONSIBLE.—By a notice which appears in another column, it will be seen that Frank Malone refuses to be responsible for any debt of his wife's contracting.

"THE SWEETWATER MIMES."—Such is the name of a lively little tri-weekly newspaper just started into life at Fort Bridger, Dakota Territory. No. 1 of volume 1 has reached us. We take pleasure in complying with a request to exchange.

A SUPPLY OF SUPERIOR CIGARS has just been received by Friend & Maute—the best sorts of Havanas, genuine, aromatic and highly flavored. They have also got a fresh invoice of smoking tobacco of favorite brands and chewing ditto of excellent quality.

SAN FRANCISCO DISPATCH.

From the Virginia Enterprise of yesterday.] SAN FRANCISCO, February 24.—The opposition steamer Moses Taylor will sail to-morrow. A dispatch was received from Washington to-day announcing that the Marseilles wine cases, appealed from this city to the Secretary of the Treasury, had been decided in favor of the importers.

VALUABLE CALIFORNIA WOODS.—The Sacramento Bee has the following article upon the subject of native woods of California:

California, it is now definitely ascertained, contains a large quantity of valuable furniture woods. Her pine cannot be excelled for building purposes or for foundation cabinet work. Her sugar pine is among the clearest and best lumber known, and her live oak and manzanita cannot be excelled as firewood.

BISHOP QUINTARD of Tennessee says of church fairs, that it is "treason against God and His Christ to give countenance to such evil measures."—Exchange A Tennessee bishop ought to know what he is talking about when treason is his subject.

THE McARDLE CASE.—Chief Justice Chase having announced that the Supreme Court would consider the above named case, it gains considerable importance from the fact that it is said to involve the constitutionality of the Reconstruction Act. McArdle is or was the editor of the Vicksburg Times, and is under arrest for the publication of seditious articles. The following are samples:

THE SCOUNDRELSHIP OF SATRAP.—We said, a few days since, that to be a military satrap in the poor downtrodden South was ex necessitate rei, to be a scoundrel. As there is a good God in Heaven we believe it; and we believe also that there is not a single shade of difference between Seofield, Sickles, Sheridan, Pope and Ord, and that they each and all are infamous, cowardly and abandoned villains, who, instead of wearing shoulder straps, and ruling millions of people, should have their heads shaved, their ears cropped, their foreheads branded, and their precious persons lodged in a penitentiary.

STAY AWAY FROM THE POLLS.—We again urge every decent white man, every honorable gentleman of the Caucasian race, to avoid Gen. Ord's election as he would avoid pestilence and a prison. As this advice does not apply and is not intended for the white snakes of the Loyal League, we shall expect the last named despicable vermin out in all their strength. We should like to see the scoundrels out in procession in daylight. We would engage Herrick to take their photographs. They would make an addition to the rogue's gallery; and if our friend Clark would only have them transferred to the Police Gazette, the transaction would insure his fortune.

THE IMMORTAL FIGHT.—We are gratified to be able to announce to the readers of the Times that at the Court House yesterday, the only place open for the whole people, there were cast the votes of eight white men only! We tried to get the names of the interesting sneaks who voted but failed, though the Times office was and is ready to pay a dollar for the name of each voter. We shall publish the names of these voters if we can obtain them, and some day we shall; but if we do not we shall with pride chronicle the fact that in the heroic city of Vicksburg, the gallant Saragossa of the South, there were only eight cowards, dogs and scoundrels, of the Mygatt and McGee stripe.

BIG PAY.—It is said that Anson Burlingame, American Minister to China, who resigned a little while since to accept of a Chinese embassy to the civilized and Christian powers, is to have \$50,000 per annum as salary, with a large suite, and all expenses paid—and he can go whither he will!
