SPECIAL NOTICE. C. W. CRANE, Book-keeper in the Record office, is alone authorized to collect bills due us in Pioche.

THE NEXT QUESTION. There is no longer any doubt that the question of woman suffrage is to be the next disturber of our political peace.

The Republican party is mindful of its obligations to the loyal women of America for their noble devotion to the cause of freedom, and their admission to a wider field of usefulness is received with satisfaction, and the honest demands of any class of citizens for additional rights should be treated with respectful consideration.

This is a partial pledge of the successful party to the support of the proposition of female suffrage; and the proceedings of the National Woman Suffrage Association just held in St. Louis, Mo., proves that the advocates of the new idea are preparing to hold the Republican party to its promise.

Whereas, the National Republican platform of 1872 affirms that the admission of woman to wider spheres of usefulness is viewed with satisfaction, and the honest demand of women for additional rights shall receive respectful consideration, and whereas the Republicans have a large majority in both Houses of Congress; therefore

Resolved that we call upon Congress to enact a law establishing impartial suffrage for all citizens, irrespective of sex, in the District of Columbia and the Territories, also to declare women eligible to all offices under the Government, with equal pay for equal work also to submit a Sixteenth Constitutional Amendment prohibiting political distinctions on account of sex.

Here is a recitation of the Philadelphia pledge, a reminder to the Republicans that they are in a majority in Congress, and a formal call upon them to fulfill their promise. The last resolution "rejoices at the recognition of the right of woman in the National Republican Platform, and at the explicit indorsement of woman suffrage by the Republican Convention of Massachusetts;" and it further "congratulates the Republican party upon having enlisted the heart and intellect and conscience of woman in its support," and "calls upon the party in its hour of victory to consolidate its supremacy by establishing impartial suffrage for all citizens irrespective of sex."

THE ONLY NICKEL MINE.—Few people are aware, says the American Manufacturer, that the nickel, from which our smaller coins are made, comes from a single mine, which is the only one in the country that is now being worked. This mine is situated in Lancaster county, Pa. It has been worked for seventeen years, and developed to a depth of 200 feet. The length of this lode is between two and three thousand feet, and it produces from 400 to 600 tons per month, employing in the working of the mine a force of 175 men. In the arts, nickel is fast growing into favor as a substitute for silver in plating steel, iron and other metals. Its commercial demand is rapidly increasing, and as it is much cheaper than silver, it will undoubtedly be adopted in the manufacture of many articles, as a substitute for that more precious metal. One mine, the Mine-la-Motte tract, Missouri, was worked from 1850 to 1855. The ore was the sulphuret, associated with lead and copper. About \$100,000 was realized from the croppings of the vein. Croppings of nickel ore are found also in Madison, Iron and Wayne counties, Missouri. The refined metal is worth \$3 per pound.

legal fact; and a similar unprepared condition of the country for the present measure may have no weight in preventing or retarding it. The admission of women to the ballot could have no other than a bad effect upon the politics of the country. Instead of woman purifying politics, politics would corrupt woman. The great design of the Creator was, that woman should be to man his consoler in affliction and sorrow, to share with him the blessings of his prosperity, to be the guardian angel of his children, and lead them in the paths of virtue. Give woman the ballot, and she becomes man's rival, instead of his best friend and adviser.

PIOCHE AND ITS FUTURE.

Pioche is the centre of a vast mining country, comprising not only the mines of Ely District, but those of Patterson and Bristol District in Nye county, and of Star District in Utah Territory. From an almost unknown mining camp two or three years ago, it has grown to be now the second town in the State, and from the outlook now presented it is not entirely vain to hope that it will in two or three years more become a formidable rival of Virginia City. The destructive fires which have lain waste the town and left nothing visible but the charred and blackened ruins of toil and labor, seemed only to stimulate to renewed action the dauntless spirits of a people who know no such word as fail. Not only were the buildings destroyed re-built, but the limits of the town extended beyond the expectations of the most sanguine. Where rude wooden houses once occupied prominent places along our principal thoroughfares, we now find splendid fire-proof buildings that present a majestic view. Mine after mine has been located, and capital has sought investment here, bringing abundant labor in its train. Labor here receives a rich reward, and every man who is able and willing to work—whether engaged in any of the learned professions, in mechanical pursuits or daily labor—can here find remuneration for his work.

There were 77 deaths in this city during the week. Vallejo, Cal., Dec. 7.—The Vallejo City Hall has been accepted by the Building Committee of the Board of Trustees from Fry, the contractor. The last installment thereon was paid. The value of wheat shipped this year from South Vallejo to European ports is \$1,450,790. San Rafael, Cal., Dec. 7.—The C. P. R. R. Co. had several surveyors at work last week surveying between San Pedro and Point San Quentin. The supposed intention will be to build a branch road along the edge of the Bay, if they are not given the right of way nearer San Rafael. Portland, Oregon, Dec. 7.—Cars commenced running on First street, from the Clarendon to Carothers's, this morning. The steamer John L. Stephens sails for San Francisco on Monday evening. Ben Holliday has sold out his interest in the Bulletin newspaper. Los Angeles, Dec. 7.—The steamer Arizona has not arrived at San Pedro. She is 27 hours overdue at Santa Barbara. No tidings of her since she left San Francisco. A feeling of anxiety prevails. The weather at San Pedro last night, and along the coast to San Diego was squally. The wind storm on the plains is the most violent known for years.

EASTERN. Washington, Dec. 6.—Attorney General Williams has written a letter to Gov. Scott, stating as his judgment that it is impracticable and improper to grant indiscriminate pardon to the convicted Klu Klux of York and Chester counties, or to any persons described only by locality; that the application of pardon ought to be made in individual cases, and stating grounds therefor. Packard, President of the Louisiana Republican State Convention telegraphs to Chandler, Secretary of the National Committee, that the Republican Electoral College received certificates of election from the Canvassing Board yesterday, and cast the vote of Louisiana for Grant and Wilson. Barney Woods, convicted of the murder of Samuel N. Chessman, on the 12th of last August, was hanged in the District jail yard to-day. New York, Dec. 6.—Judge Brady will probably preside at the trial of Stokes next Monday. Tweed's case has been continued, counsel for the defense arguing that the Assistant District Attorney had shown prejudice, in that he had published letters reflecting on Tweed, and was consequently unfit to appear before the Grand Jury as advisory counsel to urge the finding of indictments. Washington, Dec. 6.—U. S. Marshal Packard, of New Orleans, telegraphed to the Attorney General to-day his action in taking possession of the State House, under order of Judge Durell; also, that the Court rendered a judgment in the case upon which the order was based, granting an injunction. New Orleans, Dec. 6.—Warren Stone, the famous surgeon, died this evening. Sixty-five of the Returning Board (decided to be the legal one by the U. S. District Court) demanded from War-mouth all documents relative to the election of November 4th in his possession. The Governor has not yet responded. Louisville, Dec. 7.—No. 6,450 drew the capital prize in the Library Lottery for \$75,000. The first 31 numbers drew prizes ranging from \$75 to \$750. New York, Dec. 7.—A Paris special says the Government will adopt one of

Telegraphic Dispatches.

SPECIAL TO THE POCHE DAILY RECORD

PACIFIC COAST.

Salt Lake, Dec. 6.—G. Griffiths committed suicide in the 14th ward on Thursday. He was a Welshman, aged 48 years. He had been married three times in Wales. He was married to his present wife several years before coming to America, and became a Mormon while in Wales. He was very abusive to all of his wives, and often threatened his last wife. She reached Utah a year before he died, and furnished a house and sent the means to bring him here. Soon after his arrival the troubles became greater, and the wife determined not to live with him any longer, and sought a divorce. She sought and obtained work as a servant, but was still pursued by Griffiths, who threatened to kill her as well as himself if she would not live with him. Yesterday morning Griffiths went to where she was staying, and after making some disturbance and being induced to leave, returned to the house, when he seized his wife and endeavored to shoot her. She got away and ran. He chased her down the street, and after firing ineffectually a shot or two, finally struck her, and she fell. He also chased two ladies, both of whom escaped. Returning to his wounded wife, he put the pistol to his ear, and after snapping it three times, fired, and he fell dead. San Francisco, Dec. 7.—The war about the Shipping Commission goes on. A meeting of American ship masters was held to-day, at which resolutions were adopted sustaining the course of Commissioner Stevenson, praising the acts of the British shipmasters, and pledging the members present not to pay either the bounty of \$40 on seamen or the allowance of \$50 wages, made to cover that item. There were 77 deaths in this city during the week. Vallejo, Cal., Dec. 7.—The Vallejo City Hall has been accepted by the Building Committee of the Board of Trustees from Fry, the contractor. The last installment thereon was paid. The value of wheat shipped this year from South Vallejo to European ports is \$1,450,790. San Rafael, Cal., Dec. 7.—The C. P. R. R. Louisville, Dec. 7.—No. 6,450 drew the capital prize in the Library Lottery for \$75,000. The first 31 numbers drew prizes ranging from \$75 to \$750. New York, Dec. 7.—A Paris special says the Government will adopt one of

three courses in reference to the report of the Committee of Thirty. First—The resignation of the Cabinet, and the formation of another from the left entire, thus detaching votes from the right, and organizing a new majority favorable to the Government; Second—The formal declaration of the impossibility of continuing the Government under existing circumstances, and an appeal for the dissolution of the Assembly; Third—A complete reform of the Government, and acceptance of a Cabinet exclusively from the right. The latter course is most unlikely, but is more probable than the resignation of Thiers. The New York World says several prominent business men have just sent, by the steamer Tyler, the money for the purchase of Samana, San Domingo. They have become satisfied that the purchase which Congress rejected would be a profitable one, and have renewed the bargain with Baez on their own account. Sinclair Toney addressed a letter of thanks to President Grant for the great respect shown by him to Greeley. The Aerial paint works, in Brooklyn, were damaged by fire last evening; loss \$28,000. Stanley's lectures here have been abandoned.

FOREIGN. London, Dec. 6.—There was a better supply of gas last night than at any time since the culmination of the stokers' strike. The gas companies are filling the places of the strikers. Halifax, December 7.—The steamship Queen, from Liverpool for New York, put in here short of coal, and with sickness on board. She anchored in quarantine.
