**SAFETY NITRO.**  
AN ENTIRELY NEW EXPLOSIVE.  
**MUCH STRONGER THAN NITRO-  
Glycerine;** much safer than powder; plastic solid;  
not injured by water; free from leakage; never been  
frozen; giving but little smoke, and that not unhealthy;  
working downward more than any other explosive; break-  
ing more and throwing less; it stands unequalled in the  
world of explosives.  
We make a series of explosives admirably adapted to the  
various kinds of work which powder is required to per-  
form. These are all pure explosives containing no inert  
matter. They are entirely free from chlorate of potash  
and similar dangerous ingredients, and their smoke is not  
injurious. We make three grades (Nos. 1, 2 and 3),  
adapted respectively to hard, medium and light work.  
They are furnished in cartridges of any desired size.  
Special powders will be made to suit special kinds of  
work.  
Pure Nitro will also be furnished (in cartridges) and  
will be found invaluable in very tough rock, where holes  
are costly, and powder should do its maximum amount of  
work. For further information address,
