

**FORTY YEARS AGO TODAY**

(Continued from Page One)  
 A Millerite declared the world was about to come to an end.  
 An eastern paper began a crusade to unite the Atlantic and Pacific oceans with a tunnel through the Rocky Mountains.  
 The Appeal commended the method of Nathaniel P. Willis who frequently spent an hour on the construction of a single sentence, because of the growing tendency of rapid and sensational writing.  
 Things were beginning to stir in France, presaging the Commune and the war with Germany.  
 Telegraph lines were down east of Salt Lake.

Marshal Chedie reported 322 children in Ormsby county.  
 The "mail agent" on the C. P. mail car was roasted because he threw letters into the wrong sack by the bundle almost constantly. Nowadays he is roasted and fired if he gets a single letter in the wrong sack.

 New York had no less than 22 incorporated cities.

A man was robbed in Gold Hill of \$1200. He sold bacon and ham and hailed from the "Sacramento river."  
 Opening of the Suez canal was announced for September.

 George Prentice published a panegyric on a stimulant that did not intoxicate.

Five carloads, 62 tons, of butter, arrived from the east at Sacramento.  
 Brigham Young told Judge Trumbull that he would probably hear of a lot of federal officers being run out of Utah. Trumbull told him to watch out for President Grant if it happened.

Professor Hermann was expected in Carson City with his slight of hand performance. The Appeal refers to him as "Deacon Sheldon" known to many pioneers of California. Herman died after he became the greatest slight of hand man that ever lived.

A hoie was punched through the tunnel at American flat on the V. & T.  
 Wages of miners at the Eberhardt mine, Hamilton, were cut from \$3 to \$4.

The Appeal howled loud and long about the proposition for the Federal government to pay up on confederate bonds.  
 Frank Blair lauded confederate soldiers and was made to apologize by northern men.  
 Judges Johnson and Whitman presided at a session of the supreme court.

**MINING INSPECTOR BUSY**

State Mining Inspector Stuart is busy arranging a report on the mining industry of the state, its history, production and present status, for presentation at the Mining Congress at Goldfield.

He has asked for data from all sources to support the claim that of the entire value of the precious metals in the world so far recovered, Nevada has produced over one-fourth. Appeal files, copies of reports and libraries are open to him. The work of compilation is enormous but Stuart is working away at it with the aid of his stenographer, and will have it ready for the mining congress when it meets at Goldfield.

**BANISHED**

pimples, blotches, sores, humors, and eruptions, by Dr. Pierce's Golden Medical Discovery. For a poor complexion, and for the poor blood that causes it, this is the best of all known remedies. In every disease or disorder of the skin or scalp, in every trouble that comes from impure blood, the "Discovery" is the only medicine sold that does what it promises. Scrofula in all its various forms, Eczema, Tetter, Salt-rheum, Erysipelas, Boils, Carbuncles, Enlarged Glands, Tumors and Swellings, and every kindred ailment, are perfectly and permanently cured by it. The formula is printed on every wrapper of "Golden Medical Discovery," attested as to correctness under oath, and you can't afford to accept any substitute of unknown composition or this non-secret remedy's matter what selfish interests may prompt the dealer to urge such upon you. In fact it is an insult to your intelligence for him to do so. You know what you want, it's his place to supply the want.
