

ANDREW JOHNSON SERIOUSLY ACCUSED.

If the statement contained in the following extract is true, Johnson's infamy is so completely demonstrable that even those kind-hearted people who refuse to give credence to the doctrine of total depravity cannot fail of recognizing the author of "my policy" as the most absolutely depraved and unprincipled wretch that ever disgraced his country and his kind.

Nothing will be done to Jeff. Davis but to liberate him. I have reason to believe that President Johnson is in his power, and that Davis has in his hands, or in those of his counsel, Charles O'Connor, a letter written by Johnson at an early day, proposing to join the rebellion, provided he should have a seat in the Confederate Cabinet.

If the President is the honest man his supporters claim him to be, he will produce the proofs of the falsity of this strange accusation. If he is innocent the fact is easy to be established. If the charge is truthfully made, he must make Jeff. Davis his friend, even by going beyond the developments of "my policy" as it is now known and condemned by every sincere Unionist.

DONATIONS TO SOUTHERN COLLEGES.—C. H. McCormick, of Chicago, (the resister man,) has given to the Union Theological Seminary at Hampton, Sydney, Prince Edward county, Virginia, thirty thousand dollars, the endowment of a Professorship. Mr. McCormick has also added five thousand dollars to his contribution of ten thousand for the endowment of a Professorship in Washington College, Lexington, Va., of which General Lee is President.

This man McCormick has been, during all our troubles, one of the most offensive Copperheads in the United States. Indeed, he has been an avowed secessionist. The offensiveness of his disloyal assumptions is given an increased bitterness in view of the facts that he is a naturalized citizen; (a Scotchman by birth) that his invention was secured to his profit by the Patent laws of the government which he desired to see destroyed, and that his machines were mainly valuable from the employment given them by the farmers of the loyal North.

A BAD GIRL.—The Sacramento Union of the 1st has the following item:

We mentioned recently that it had been discovered that the attempt to burn down the establishment of Rippon & Hill and the stable of W. E. Wise, at Thirteenth and J streets, was made by a small girl, who was prompted by no other motive than a desire to see a fire. The girl referred to was Emma Shaffer, aged nine years, who resided at the time in the family of Wise. She was very much elated with the fire which had occurred a few days before, at Twelfth and J streets, and was anxious to witness another display of fireworks.

THE NIPPER NIPPED.—The Maine papers tell a comical story about Marshal Kent of Portsmouth, who went to Brunswick in disguise, for the purpose of arresting an eloping couple, and was himself arrested as a suspicious person, and required to give an account of himself.

BELIEF FOR DESTITUTION.—A loan of \$5,000 has been negotiated in Memphis for the benefit of the indigent families at Madison county, Alabama. The bonds issued for the purpose were promptly cashed by J. Wicks, of the Memphis Saving Bank, and W. H. Cheery, of the Merchant's National Bank.

CHINAMEN AND THE FUTURE OF THE PACIFIC STATES

The San Francisco Morning Call, which, rather than to assist, for several years, has assumed for itself the position of special champion of the workingman's rights, and which has been subject to chronic fits of exhortation against "coolie labor," and which has made itself notorious, of late by scrofulous outcroppings of Democratic eruptions in the shape of "my policy," diluted, in its issue of August 1st has the following:

Last week some twenty Chinamen arrived in Pajaro for the harvest fields. Laborers are so scarce in this valley that it was found necessary to send to San Francisco for these pests. Even Digger Indians refuse to work for less than two dollars per day, knowing that the farmers are compelled to employ them.

In the San Francisco Bulletin of the same date, we find the following:

Charles Carvalho, the Chinese interpreter, has just returned from a trip made through the interior of the State, among the Chinese, to ascertain the sentiments of the Chinese merchants and others in regard to the projected steamship line to China. He reports the Chinese unanimous in their endorsement of the project, and has received assurances of their patronage and support. The passenger traffic between here and China amounts to some 5,000 each way annually. Under the present arrangements passengers are compelled to lay in a stock of three months provisions before starting, on account of the uncertainty of the time to be consumed in the passage. By patronizing the steamships they hope to save time, and, being able to calculate with a great degree of certainty on the length of their voyage, they will effect a material saving on their outfit.

Now it would seem that "these pests" as the Call styles the Chinese laborers are not only destined to increase in numbers, but are, in reality becoming almost indispensable "necessary evil" in these Pacific States.

The Albany and Terrible leave here to-morrow morning for the spot where the cable of last year was lost. The Great Eastern and Newday will follow in about one week.

The Atlantic and Mississippi Steamship Company recently brought from St. Louis to New Orleans 1,400 sacks of corn intended for the destitute poor of Alabama, without charge. Not to be outdone in liberality, the New Orleans draymen hauled from the levee and delivered the corn free of cost at the depot.

Clouds—I wonder where those clouds are going? sighed Flore, pensively, as she pointed with her delicate finger to the heavy masses that floated in the sky. "I think they are going to thunder!" said her brother.

PLATFORM OF THE UNION PARTY IN CALIFORNIA

The following is a series of resolutions adopted at a meeting of the State Central Committee of California held in San Francisco on Wednesday last:

First—Approving of the constitutional amendment.

Second—That until such amendment is adopted, State policy in rebellion, should not be admitted to representation in Congress.

Third—That the Union party of California are opposed to any legislation or to any policy in Congress, or by the President, which shall fall short of the settlement of the question of human slavery, in fact as well as name, throughout our whole country, and that any reconstruction, reorganization or rehabilitation which does not assure the whole people, black as well as white, life, liberty and the pursuit of happiness, will be mischievous in its results, and a full admission that the republic has not the genius to save what it had the power to win.

Fourth—In effect condemning the Philadelphia Convention, and affirming that the Union party is capable of finishing the work it has begun and carried thus far.

Fifth—Approving the action of Congress and the California delegation in Congress on the reconstruction question.

The Union State Central Committee of Nevada meets at Virginia on the 15th of this month, and we recommend that a similar set of resolutions with the above be adopted by the Committee on that occasion. Making Unionism a little "binding" about now, will have a salutary effect.

BY STATE TELEGRAPH

FROM THE GOLD HILL NEWS OF LAST EVENING.

HEARTY'S CONTENT, July 31.—The President's message to the Queen, containing seventy-seven words, passed through the cable in eleven minutes, and was delivered to the Queen almost immediately.

The Great Eastern is now firing a salute in honor thereof.

A celebration in honor of the success of the cable is being held at Valencia, Ireland, this afternoon.

The Albany and Terrible leave here to-morrow morning for the spot where the cable of last year was lost. The Great Eastern and Newday will follow in about one week.

NEW YORK, August 2.—The Post's money article says a very lively movement prevailed in the stock exchange to-day. Government stocks are steady but inactive. Cotton dull and prices easier. Flour is dull at 100 2/3c lower. Corn one cent lower. After the board the old 5 20's were 1 better, supposed to be owing to the news by the cable; but no public news has transpired to-day.

Twelve messages were entered to-day for Europe. Receipts \$1,313 cash, in gold.

THE ST. JOSEPH AND DENVER RAILROAD.—The work upon this road will commence this morning, as the hands crossed the river yesterday for that purpose. It is the intention of Maj. Chew and the Directors to press the work forward, and our friends in Troy may soon congratulate themselves upon having rail communication with the Missouri river and the East—a consummation most heartily desired.—St. Joseph Union July 16th.

The Atlantic and Mississippi Steamship Company recently brought from St. Louis to New Orleans 1,400 sacks of corn intended for the destitute poor of Alabama, without charge. Not to be outdone in liberality, the New Orleans draymen hauled from the levee and delivered the corn free of cost at the depot.

Clouds—I wonder where those clouds are going? sighed Flore, pensively, as she pointed with her delicate finger to the heavy masses that floated in the sky. "I think they are going to thunder!" said her brother.
