

Carson City Daily Appeal

TO MAKE KNOWN THE RESOURCES OF NEVADA

Vol. LIV. 25 Cents Per Week

CARSON CITY, NEVADA, TUESDAY, JUNE 5, 1917

Five cents per copy No. 129

The Liberty Loan is Tax Exempt

The Liberty Bond is free of all taxes, Federal and State (except estate and inheritance taxes.)

What does this mean for the senate adds heavily to the existing income tax. For example, the recipient of a total income of \$100,000 must make a cash payment of about \$15,870. If his entire principle is invested in the Liberty Loan at 3 1/2 per cent free of tax, he will receive as large an income as though his entire principal is invested in taxable securities to yield 4.16 per cent. To the extent

that his income above \$80,000 is subject to the proposed maximum rate of 25 1/2 per cent, he will receive as large an income by investing in the Liberty Loan as though the equivalent amount of principal were invested in taxable securities to yield 4.70 per cent.

What does this freedom from taxes mean to the man who wants to buy a \$100 bond?

The proposed income tax will apply to all single men whose incomes are over \$1,000 and to all married men with incomes over

\$2,000. When you realize that every street car conductor and every laborer who has steady employment is getting \$1,000 a year, you can see how far this tax will reach.

If everything that he gets over his salary is invested in Liberty Bonds, he will practically have no statement to make to the government, and no payment to make.

EVERYWHERE QUIET MARKS REGISTRATION

But Few Arrests Are Made and Those Occur Mainly Among I. W. W.'s---Chinese In Oakland, Fearing Tong Outbreak, Are Registered at Their Homes---Total Number to Be Registered In Nation Estimated at 10,264,869

(By United Press)
WASHINGTON, June 5.—The first Registration Day arrest was made at Providence, R. I., when a man charged with interfering with registration was taken in. The magistrate set the maximum bail. Federal authorities at Chicago arrested two whites for interfering with registration and removed ten negroes from a train, charged with coming north to avoid registration. Gov-

ernor Sleeper of Michigan ordered troops to Negaunee, a mining town near Marquette, where I. W. W. anti-drafters mobilized and riots are feared. Thurmond, one of the oldest members of the Oklahoma legislature, was arrested for making anti-conscription orations at Oklahoma City. Two anti-registrationists were arrested in Milwaukee. The morning registration passed quietly in New York. The provost marshal gen-

eral reported only two investigations at his office this morning. Both were inconsequential, indicating that registration machinery is working smoothly. Revised census bureau estimates show that 10,264,869 are expected to register, including 363,000 in California.

Disorder at Oakland

SAN FRANCISCO, June 5.—Anti-registrationists destroyed one registration tent and damaged others early this

morning in Oakland. The Chinese here, fearing a Tong outbreak, refused to leave their homes to register, so deputies were sent through Chinatown to enroll them. State Director of Registration Merritt from Sacramento reported a heavy morning registration throughout the state. Rufus Barringer, an I. W. W., was arrested at Sacramento for spreading anti-conscription circulars.

Steamer Mongolia Attacked by Diver

(By United Press)
LONDON, June 5.—The steamer Mongolia arrived today and reported an encounter with a diver. It is believed the submarine was sunk. On Friday the vessel met a "nest" of submarines. Both guns were fired and it is believed one of the divers was hit. The divers

launched three torpedoes at the vessel, but missed. A British destroyer came up while a bugler stood on the bridge of the destroyer playing the "Star Spangled Banner," while 200 Red Cross nurses and doctors cheered from the Mongolia. The destroyers chased, but failed to catch the divers.

Deny Resignation of Li Yuan Chang

TOKIO, June 5.—Late reports deny the resignation of President Li Yuan Hung of China. Hsu Shi Cang, head of the revolutionists' provisional government, has monarchistic leanings and General Chang, who placed Hsu at the

head of the government, favors monarchy, leading to the belief that an effort will follow to revive the old Chang dynasty. Eighty members of parliament have resigned and several members of Li's administration have fled.

EIGHT HUNDRED CONVICTS IN JOLIET PRISON START REVOLT

Make Break for Freedom Shortly After Breakfast—Militia, Police and Fire Department Called In Before Riot Is Quelled

(By United Press)

JOLIET, Ill., June 5.—Eight hundred convicts in the state penitentiary attempted a break for freedom following breakfast this morning. Three companies of Illinois militia, the entire Joliet police force and the fire department fought the convicts throughout the morning and the battle still continues. About 10 this morning a fire, believed to have been started by the convicts, broke out in five buildings and was

still burning at noon. Three convicts and two guards so far are wounded seriously and twenty convicts slightly. The convicts in attacking the firemen used clubs, pieces of iron or anything available and forced the firemen to turn their hose from the fires to the attackers. Yesterday the warden announced that hereafter none but relatives could visit the prisoners and the announcement was hissed. It is believed it caused the general outbreak. Late afternoon reports said the fighting was subsiding.

Germans Worsted In Naval Battle

(By United Press)

LONDON, June 5.—The admiralty has announced that a light British cruiser and a destroyer flotilla sunk the German destroyer S-20 and damaged another in an engagement with six enemy destroyers. At long range the British fleet bombarded Ostend with "good

results." Shore batteries returned the fire, but there were no casualties and no damage.

Battle Occurred This Morning

(By United Press)
LONDON, June 5.—The battle was fought early this morning, Commander Tyrwhitt commanding the British.

Day's Subscriptions for Bonds Reaches \$100,000

The only business done at the Carson City bank today was the taking of subscriptions for the Liberty Loan and the amount taken surpassed all expectations and the end has not been yet reached for many are to be heard from who have expressed their purpose to respond to Uncle Sam's call for cash.

At 3 o'clock this afternoon it was announced from the bank that seventy-two applications for bonds had been recorded and they totalled \$93,000, but enough orders were in sight to bring the amount up to \$100,000, Cashier Clapp declared.

The biggest proportion of this sum comes from the state departments, but the residents of the town were not slow in securing their quota and as yet a thorough canvass has not been made. With that completed there is but little doubt that Carson's subscriptions will approximate \$150,000.

Laid At Rest

The funeral of the late Gilman N. Folsom, Nevada pioneer, took place this afternoon from Masonic hall and was largely attended by relatives and friends. After impressive ceremonies the remains were escorted to Masonic cemetery, where interment took place. The pallbearers were: P. B. Ellis, A. Cohn, Dan Kitzmeyer, A. M. Macdonald, J. R. Woodbury and Charles Ruisson.

Mrs. Henrietta Riker was an arrival on the morning train, returning to Reno this evening.

"The Kiss," a Thrilling Comedy at Grand Tonight

Tonight at the Grand Daniel Frohman presents "Owen Moore and Marguerite Courtot in the pleasing comedy drama, "The Kiss," a remarkable combination of comedy, drama thrills, kisses and aeroplanes. As the title indicates, the exchanging of affectionate caresses between the parties of the first, or stellar, parts forms a very important incident in the story. The first kiss, which is the forerunner of many others, is stolen at a masked ball and Moore, who has stolen it, is so captivated by the sweetness thereof that he sets out to find the kissee, who escaped after the brief instant of bliss. And here is where the fun commences.

The Sperry gyroscope-equipped aeroplane, of the type that is being used by the French and British at the front, is used in this production.

The United States aviation station was used as the scene of the aeroplane flights.

The preliminary, "Rough and Ready Reggie," the comedy of all joys—no glooms, featuring Victor Moore, from Broadway.

Will Devote Time to Mining

"Billy" Sinclair has sold his lease on the Hoye place at Wellington to the Sayers brothers of Smith, who will take possession the first of the month. Mr. Sinclair will continue his mining operations in the Pinhook mining district, and Mrs. Sinclair and her two boys will take up their residence in Reno.—Yerington Times.

Appeal dispatches are the latest.

Registration Day In Carson City Quiet---At 3 o'Clock 97 Names In

From outward appearances there was little to distinguish Registration Day from any other day in Carson, except that business in the capitol was wholly suspended. Other lines of business, however, excluding the bank, which was open only to receive subscriptions to the Liberty Loan, went along as usual, though there seemed to be but little trading. The saloons were all closed.

The registration booths opened early in the day, with all the officers on hand. Registration began at once and there was little fuss and absolutely no disorder in carrying on the work. So far as known Carson will produce no shirkers or quitters, all seemed willing to comply with the government's requirements and those claiming to be exempt were few and far between.

At noon over seventy-five had registered, about three-fifths of the whole number that Ormsby county is expected to furnish. Of this number twenty, who registered in the First ward, came from the Indian school.

At 2:30 o'clock there had been 97 registrations recorded, in the three wards of the city, as follows:

First Ward
