GREAT NORTHERN PIERS AT SEATTLE BURNING

(By United Press)
SEATTLE, Oct. 16.—The Great Northern Oil piers are burning fiercely this morning, despite all efforts of marine and land fire apparatus and a downpour of rain. The fire started at 11 last night. The minimum loss is estimated at \$2,000,000. The cause has not been determined. Two Japanese liners were trapped by burning oil on the waters of the bay and forced to remain within 100 feet of the blaze, but it is believed they are safe. The flames leaped hundreds of feet in the air.

IS WELL QUALIFIED TO FILL THE OFFICE

Mrs. Madge Rayercraft, the subject of this sketch, scarcely needs an introduction to the people of Carson, being a native of Ormsby county and having spent most of her life in our midst. She is a graduate of the Carson high school, and a former teacher in the public schools of Nevada, specializing in art, education and other branches.

Having a taste for journalism, she has contributed many articles to the newspapers of Nevada, California and Salt Lake. Mrs. Rayercraft is not only an artist of some note in oil, but with the pen, and is considered one of the finest scribes on the coast, if not elsewhere. The present summer she has qualified for a first grade certificate in for a first grade certificate in the public schools of Nevada.

Mrs. Rayercraft is well fitted by education and ability to fill the position to which she aspires. As an Ormsby county woman she is desirous of being the first woman to fill an Ormsby county office.

GOVERNOR WILL TALK

At the meeting of the Democratic club tonight Governor Boyle will make an address.

John F. Kunz, chairman of the Democratic State Central committee, will be present and also make a talk.

Let everybody come and hear some good argument.

German Bunk Has Interfered With Sale of Bonds; Will You Stand for It?

Nevada is behind—40 per cent—in its subscription to Liberty bonds and but three days remain in which to make good. And it must be done, or the state will be charged with its first failure in any call that has ever been made upon it.

No doubt peace talk and German propaganda have been responsible for the inaction so far, but neither one should be given any consideration, for the way things look today, peace is as far off as it was a number of months ago. And besides, we are not ready for peace and should not be until the boys over there give the signal. When they have accomplished what they have started to do to the Hun will be time to talk peace, and until that time arrives we must put up the money to keep them going. All talk that they, the soldiers, should buy bonds for their own maintenance should be given no consideration whatever. It is impertinent to even suggest such a thing.

Regarding peace propaganda, the following telegram was received yesterday by Dr. Lee of the County Council of Defense from Hal Lemmon and it tells without frills or romance where that "stuff" comes from. People should read Mr. Lemmon's wire and then re-read it; then go down in their pockets and buy another bond. His telegram is as follows:

"Dr. S. L. Lee, Carson, Nev.:
"There must be no weakening of the war spirit in Nevada. It would be intolerable if the peace questions should in any way become effective German propaganda. They are intended by Germany for just that. You will remember that during the convention held here last month I was able to tell you authoritatively in advance that this peace drive was coming. The change in chancellors was predicted and every step thus far taken; also that in the last extremity to deceive us the kaiser

would abdicate. This information was transmitted to me by the government and therefore it is inconceivable that the government will be deceived in any degree whatever. Therefore, our part is to see that it avails Germany nothing. Have no fears for the future. The United States will stand firm with England and France, who will never for one instant cease killing Germans until they are whipped to a standstill."
"H. A. LEMMON."

DEMOCRATIC CLUB ORGANIZES TONIGHT

At Democratic headquarters tonight in the Ciroc building a Democratic club will be organized, and it is desired that a large and representative crowd be present.

It is hardly necessary to state that the purpose of the organization is to further the cause of the Democratic party in the present campaign and help elect a full ticket.

Ormsby county has gone over the top in the purchase of Liberty bonds, thereby indicating its patriotism and proving its support of the administration at Washington in its efforts to win the war. Let it now form a big strong club which can be depended on to help the fight of Senator Henderson and Charley Evans, the Democratic candidate for congress.

We know where both stand on war policies and President Wilson needs them.

WILL HELP AN ORPHANS

For some time past the Appeal has been urging Carson people to do their "bit" toward the support of the fatherless children of France.

Last evening the local order of Eagles voted to adopt two French orphans.

It is hoped that other lodges and societies will do the same. These children have lost their fathers in the war for democracy and they must have help from America to enable them to grow up strong, intelligent citizens of France.

KNEW U. S. WAS IN WAR WHEN THEY SAW SUGAR

WITH THE BRITISH ARMY.

Oct. 16.—French civilians behind the German lines first learned of America's entrance into the war when they saw sugar. Hundreds of the civilians, who have been liberated in the last few days, said they knew when they saw sugar that America was in the war, because only Americans had sugar.

The Germans kept them in ignorance of what America was doing.

FRENCH ARE NEARING BELGIUM

(By United Press)
PARIS, Oct. 16.—The French are driving forward and against vital parts of the German left flank, north of Laon and in the Champagne region. The enemy is being pushed into the difficult Ardennes country. The French are progressing toward Montcornet, Ver-

vine, the latter being twenty-three miles north of Laon, fifteen miles from the Belgian border and ten miles from the fortress Hirson on the edge of the wooded Ardennes region. This drive is believed to be an effort of General Foch to cut off the German retreat from Belgium and throw them into the Ardennes where the roads are few.

(By United Press)
WASHINGTON, Oct. 16.—The largest deficiency bill—more than \$6,000,000,000—was submitted in the house today. More than \$100,000,000 goes to the navy and more than \$6,000,000,000 to the army.

Liberty Loan Officials Optimistic

(By United Press)
WASHINGTON, Oct. 16.—Liberty Loan officials are optimistic today.

LET REPUBLICANS DO LIKEWISE

When Senator Henderson and C. R. Evans, Democratic candidate for congress, were in Carson yesterday, Harry Coogan, secretary of the Democratic County Central committee, produced a petition and asked the gentlemen to add to Ormsby county's Liberty bond quota. They promptly complied and put their names down for a substantial sum.

Now, this fact is not stated to make political capital. Merely a suggestion that the Republican candidates for senator and congressman do likewise. Nor are any other candidates, Democratic or Republican, barred. The petitions are open to all.

DOUGHBOYS CALL 'EM "PANTS RABBITS"

CHICAGO, Oct. 16.—The word "cooties" did very well until the doughboys got to Europe. As they have changed many other things, including some of the kaiser's ideas of world domination, however, the doughboys now have altered the appellation commonly given the small animals which frequently become the soldier's companion in the trenches.

According to letters received from Chicago soldiers, "seam squirrels" and "pant's rabbits" have supplanted "cooties" in the vernacular of the battle front.

Steamer Hit by Collier

(By United Press)
AN ATLANTIC PORT, Oct. 16.—The British steamer Port Phillip, now in the transport service, was sunk today off this port, when hit by a collier. Twenty members of the crew were rescued and none were lost.

Oldest Hotel in Oakland Burned

(By United Press)
OAKLAND, Oct. 16.—The Hotel Metropole, in the center of the shopping district, is burning. The fire started at 11 this morning and soon assumed large proportions. It is the oldest hotel in Oakland. The report that two children were trapped in the top story has not been confirmed. The hotel was completely destroyed. Three hundred people were forced into the street.

ORMSBY COUNTY HAS GONE OVER THE TOP

While it is to be regretted that Nevada as a whole is still shy 40 per cent of its quota in the purchase of Liberty Bonds, it is gratifying to note that Ormsby county, the seat of government for the state, has oversubscribed its quota—\$150,000—by approximately \$10,000 and there are good prospects that the over-plus will reach \$20,000.

The county committees are still working and there are a number of small purchasers yet to be brought into the fold and there are also one or two large institutions to be "touched."

This morning Dr. Lee, chairman of the County Council of Defense, announced that \$160,000 could be safely relied upon.

Following his announcement that the county's quota had been subscribed the State Council of Defense was notified, and this morning the following splendid telegram was received from Hal Lemmon:

"Ormsby county is the first county in the state to have its quota in bank. Others have reported over, but the banks' statements do not show the fact. Heartiest congratulations to you and all members of your committee and the people of Ormsby county. We have always been able to count on you."

Dr. Lee, as chairman of the Ormsby
