WILSON DESCRIBED AS MODERN CAESAR

WASHINGTON, Oct. 30.—The distribution among German troops by their officers of a tract attacking President Wilson on the ground that it was his will to kill, which was responsible for the continuation of the war, has hitherto been reported. The text of the leaflet has just been received. It says in part:

"It is now accordingly absolutely evident that the determination to kill emanated from the White House at Washington and is concentrated in the person of President Wilson. "It goes without saying that the doctor of philosophy, president, Democrat and humanitarian, Woodrow Wilson, will be able to invent the best of reasons to justify a continuation of the war. "What difference then is there between Wilson, who came out of a Philadelphia university (sic) and any sort of a criminal like Caesar? The first defends the continuation of the American senate. The second justifies each of his crimes before the Roman senate. The president and Caesar have recourse to the same rhetorical devices to defend the degeneracy of their states. "What balm can the niceties of the president's oratory bring to the sacrifices of war? If we speak of President Wilson only, it is not to pardon other imperial schemes. But in the presence of the cruel truth that for nearly five years human blood has flowed without cessation, it is natural that we point out to human justice the man who may be reproached by humanity with the prolonging of this horrible butchery."

L. V. AND T. WILL NOT BE "SCRAPPED"

The following important news, relative to the "scrapping" of the Las Vegas and Tonopah railroad, which was headed off by the alert action of the Nevada Railroad commission, was today furnished the Appeal by Commissioner J. F. Shaughnessy:

"Telegraphic advice from the railroad administration at Washington received by Commissioner J. F. Shaughnessy last night shows that the Railroad commission's request that the Las Vegas and Tonopah railroad be taken over for federal control and continued operation has been granted and therefore the road will not be torn up and scrapped at the present high prices for material as proposed by the company when the state commission denied its application to discontinue further public service, beginning November 1st.

"This is highly important for the people and for the continued development and betterment of the state."

Mr. Shaughnessy also wired John Barton Payne, general counsel, United States railroad administration, at Washington, as follows:

"I have your wire date stating that the railroad administration will not permit the Las Vegas and Tonopah railroad to discontinue service to the people of Nevada on November 1st and that you will insist that it be continued in operation for the future. In order to bring about this result please communicate with Mr. J. Ross Clark, president of the road, at Los Angeles, Cal.

"On behalf of the Railroad commission and the people of Nevada may I not express deep appreciation for the progressive action which the railroad administration is taking for the retention of this important state transportation highway and for the continued development and betterment of the state and nation."

Governor Boyle and Senator Henderson, who have been touring the eastern part of the state, were expected to arrive in Reno this morning from Elko.

They will remain in the riverside city overnight and tomorrow will probably come to Carson, preparatory to a visit to the Comstock and thence through Carson valley sections.

Everywhere they have been they have received an enthusiastic reception, and both feel confident of victory.

Funeral Tomorrow

The funeral of the late Nicola Panelli, who died Monday at his home on the Mexican dam, will take place from the Catholic church in this city tomorrow at 12:30, after which the remains will be taken to Dayton for interment.

Mr. and Mrs. R. T. Gutstadt of California have arrived in this city and will visit the latter's sisters, Mrs. W. H. Cavell and Mrs. J. A. Muller.

Boys, Do the Kindly Thing

In view of the number of sick in this city the boys and girls are asked to refrain from their usual Halloween pranks.

This is something the young people will gladly forego this year for fear of causing even a moment's annoyance to some sick person.

There will be many Halloweens in the future when the town is not under a burden of sorrow and sickness.
