SOUTHERN CALIFORNIA IS VISITED BY HEAVY QUAKE

So Far as Known There Were Four Fatalities — Fifty Buildings Are Destroyed In Hemet and San Jacinto

[By United Press] LOS ANGELES, April 22.—Four are known to be dead in yesterday's earthquake, which ruined Hemet and San Jacinto. Of the dead one was killed at Santa Monica, one at Los Angeles from heart failure and two unidentified whose bodies were removed from a magnesite mine near Hemet. Home

guards are policing Hemet and San Jacinto, both of which are without light, gas or water. San Jacinto people declare that when the quake began a flame shot from Mount San Jacinto, an extinct volcano. Had the temblor occurred on a week day the tumbling roofs of business buildings would have killed scores. The San Jacinto and Hemet buildings destroyed total fifty.

Senate Discusses the Mooney Case

Members Have Not High Opinion of Dynamite Conspirator

[By United Press] WASHINGTON, April 22.—Senator Poindexter of Washington, citing the Thomas Mooney case of San Francisco, illustrated it as an "arrogant and tyrannical movement to blackmail the government" and precipitated a lively discussion of the Mooney case in the senate, in which Borah, Thomas and Johnson of California participated. Poindexter

attempted to force Johnson to express an opinion but Johnson maintained he had none. He declared he believed Mooney "capable of committing such a crime as was charged, but the fact remained that Oxman's word convicted him and Oxman was later repudiated." Poindexter, answering Borah's question, declared the evidence was sufficient to convict without Ox-

Trustees Plan for Big Celebration Next Friday—Will Be General Holiday

The Board of City Trustees met informally Saturday evening and following the Appeal's suggestion, took up the matter of a monster celebration for Carson City and the surrounding territory for Friday, April 26th, Liberty Day.

The board will meet this evening and formulate plans for and appoint committees to make of the day and evening one never to be forgotten in the history of the town.

It is quite probable that the celebration will take shape in a day of sports, a parade, public speaking and a fitting send-off to Art Rayercraft, Harvey Payne and John Carey, who entrain in the evening for the training camp.

The Carson band, the band and battalion from the Indian school and several outside attractions of note will be in evidence all day.

It may be that a tremendous outdoor ball on Carson's paved thoroughfare may wind up the day's festivities.

Of course every office and place of business will be expected to remain

closed during the entire day and booths for the selling of Liberty bonds will be established along the sidewalks.

The trustees intend to make it the biggest, most enthusiastic day of loyalty and open heartedness Carson has ever known.

MUST REPORT HERE

Clarence Sadler will be called by the Ormsby county local board to entrain for Fort McDowell, Cal., on May 10th. Sadler has been trying for a commission as an aviator at the Signal Corps Aviation school, Gerstner Field, Lake Charles, Louisiana, but failed to qualify.

President's Liberty Day Proclamation

An enemy who has grossly abused the power of organized government and who seeks to dominate the world by the might of the sword, challenges the rights of America and the liberty and life of all the free nations of the earth.

Our brave sons are facing the fire of battle in defense of the honor and rights of America and the liberty of nations. To sustain them and to assist our gallant associates in the war, a generous and patriotic people have been called upon to subscribe to the third Liberty Loan.

Now, therefore, I, Woodrow Wilson, president of the United States of America, do appoint Friday, the 26th day of April, 1918, as Liberty Day. On the afternoon of that day I request the people of the United States to assemble in their respective communities and liberally pledge anew their financial support to sustain the Nation's cause. Patriotic demonstrations should be held in every city, town and hamlet throughout the land under the general direction of the secretary of the treasury and the immediate direction of the Liberty Loan committee organized by the Federal Reserve banks. Let the Nation's response to the third Liberty Loan express in unmistakable terms the determination

of America to fight for peace, the permanent peace of justice.

For the purpose of participating in Liberty Day celebrations, all employees of the Federal government throughout the country whose services can be spared may be excused at 12 o'clock noon, Friday, the 26th day of April.

In witness whereof, I have hereunto set my hand and caused the seal of the United States to be affixed.

Done in the District of Columbia, this 18th day of April, in the year of our Lord, 1918, and of the independence of the United States of America the 142d.

FAVORABLY REPORTED

The governor's office was in receipt of the pleasing intelligence today that the house committees on mines and mining and banks and banking had favorably reported the Pittman silver bill.
