It Pays to Read Advertisements

You've often heard the saying, "It pays to advertise." That is true. And it also pays to read advertisements --- pays you. If you read advertisements consistently for any length of time you will agree that this statement is also true.

IT PAYS YOU IN MONEY SAVED. There are many real bargains offered from time to time in the advertisements that appear in the Appeal. Watch for them.

IT PAYS YOU IN SATISFACTION. When a merchant asks you to come to his store he obligates himself to sell you quality goods "as advertised." And you have a right to expect satisfaction from what you buy and you get it.

It pays you in the time saved. When you know exactly what you want to buy and where to go to buy it, you don't have to "look around" and waste time finding it.

Do you want to save money and time? Wouldn't you like to be sure of getting satisfactory service and quality goods every time you go to a store? Then read the advertisements and patronize the stores which can serve you best.

What Do You Know About This?

PRICES IN RENO HIGH THEY SAY

[Copied from Reno Gazette of Wednesday, February 12, 1919]
CARSON CITY, Feb. 12.—What some members of the joint committee on ways and means and claims of both houses assert is a surprising condition relative to the comparative cost of food products in Reno and Carson was presented by the committee's investigation of the cause of the deficiencies existing in various state departments, to take care of which a bill carrying an appropriation of over \$50,000 is pending in the assembly.

When Warden Henrich appeared before the joint committee to explain the deficiency existing in the prison fund he produced data showing that cost of material used in conducting the affairs of the prison had advanced 40 per cent during the two-year period for which the appropriations made by the legislature of 1917 were made. The warden purchased his supplies from Carson City merchants.

Dr. J. J. Sullivan, superintendent of the State Hospital for Mental Diseases, was before the committee Monday and proved to the satisfaction of the members of the committee that prices on supplies for his institution had increased 100 per cent during the last two years. Dr. Sullivan explained to the committee that he purchased his supplies in Reno.

"I cannot see any reason for the difference in prices in Reno and Carson on the same commodities," said one member of the committee yesterday. "If anything prices in Reno should be a shade lower than in Carson. In all probability the prices charged the individual consumers in Reno would be somewhat higher than those charged Dr. Sullivan because he buys in bulk, while the individual consumer buys at retail prices."
