**No Disappointments**

Millions of housewives use Calumet Baking Powder because of its dependability—because when they place their baking in the oven, they know it will "turn out" all right. They are confident of results because they know that no matter what they bake—pies, cakes, biscuits, muffins—the results will be the same—light, perfectly raised, wholesome foods.

**CALUMET BAKING POWDER**

never disappoints. Don't prepare bakings with expensive ingredients and then have them spoiled because of an inferior leavener.

Have the same assurance that the majority of other housewives have.

A pound can of Calumet contains full 16 ounces. Some baking powders come in 12 ounce instead of 16 ounce cans. Be sure you get a pound when you want it.

**SO THE PEOPLE MAY KNOW**

Virginia, Minnesota, has made its third reduction in light rates since buying the lighting plant.

No municipality should make the mistake of trying to establish a competing plant. Where a private utility occupies the field it is by all means advisable to purchase it at its fair appraised value as the first step toward municipal ownership.

A franchise for a public utility is a prize, a big asset of any city. Don't fritter it away.
