

PREVENT SPREAD OF ALL DISEASE

Cleaning and Disinfection of All Railroad Stock Cars Is of Utmost Importance.

OTHER VEHICLES INCLUDED

All Carriers Which Have Contained Animals Affected With Communicable Diseases Must Be Cleaned and Disinfected.

(Prepared by the United States Department of Agriculture.)

The cleaning and disinfection of railroad stock cars is an important means of preventing the spread of infectious diseases of live stock.

All live stock received at public stockyards or at official slaughtering establishments are inspected at the time they are received by employees of the bureau of animal industry.

Cars Must Be Cleaned.

Various states also have regulations requiring that cars must be cleaned and disinfected before being used in the transportation of certain classes of live stock.

An idea of the magnitude of this work may be gathered from the fact that during the fiscal year ended June 30, 1919, bureau employees personally supervised the disinfection of 44,843 cars.

DADDY'S EVENING FAIRY TALE

BY MARY GRHAM BONNER

VISITOR AT PARTY.

"Well," said Billie Brownie, "every-one has been doing the honors lately but the brownies.

All Chucked.

have to ask the second time. "Well, that's nice, isn't it?" he asked his brother Bennie.

"I should just say so," answered Bennie. "Well, everyone, tell everyone else, and all come yourselves to our party which will be held this very afternoon.

They all chuckled and laughed and all went their way, many of them to ask others who were not around.

Billie Brownie and Bennie Brownie set to work aided by all the other brownies. What a time they had, what a time! For they had such a little while in which to get ready that they fell over each other and hurried, scurried about.

But they were ready when afternoon came. They had made a beautiful snow fort. There were large and lovely rooms with snow sofas and snow cushions in which the ladies were supposed to take off their capes and bonnets, if they wanted to take them off.

The fort was made like all forts but inside along with a number of soft snow-balls ready for a snow-ball fight to finish the afternoon's entertainment, there were long snow tables upon which were great dishes filled with goodies to eat and goodies to drink.

They hadn't known just how they could arrange to keep things hot on cold snow! So Billie Brownie had sent a very small brother of his to see the Fairy Queen.

He had asked her if she would come for a moment and wave her magic wand so such a thing could be.

So everything was settled and ready when all the guests arrived. Billie Brownie and Bennie Brownie had many number of plans and schemes arranged. There were games and there were jokes and there were puzzles and there were prizes for everything, little prizes made out of snow!

Of course it was more for the idea of having prizes than anything else for they were all simple, but they were most beautifully made and everyone loved them.

At last, just before it was time for the party to be over, as the guests had all eaten of the delicious meal which had been prepared, along came a lovely creature wearing a white mantle of snow which was covered with jewels she had been given by the Jewellers Sun and Snow.

At first they didn't recognize her. And then all at once, everyone shouted, "Why, it's the Fairy Wondrous Secrets!"

"The very same," she answered. "You see, Fairy Wondrous Secrets is very busy all the time, and the fairies she sees most of are the Fairies who have their home far down where the packages of secrets are done up. And when they have balls they have them right there where they all are.

"I'm taking a trip," said Fairy Wondrous Secrets. "Anding out what children want and need mostly and then I'm going back and tell the fairies who pack up the secrets in the little bundles so they can be sent around with the aid of the Dream-land King.

"I happened to hear you were having a party and so I thought I'd drop in." She was followed by cheers and claps. "And," she said, when she was hurrying off, after thanking them for the wonderful time, "I'm going to tell the fairies to pack up many secrets which tell that one of the best things in the world is to be wanted around and liked by others!"

Mend a leak in a hot water bottle with adhesive plaster. Heat table salt very hot and fill the bag with the hot salt.

The importance of well-fitting shoes is vital. Many a woman suffers from headache, backache, nerves and temper because her feet are not properly dressed.

Change of hose and shoes once or twice daily helps the feet wonderfully. The shoes should be well aired and the hose perfectly dry before dressing the feet.

To toughen the feet, soak daily in a bath containing alcohol and salt.

LITVINOFF'S PLOTTING BARED

Copenhagen Writer Tells of Being "Approached" by Soviet Representative.

Hamburg.—A series of articles on the activities in Copenhagen of Maxim Litvinoff, Russian soviet representative there, is appearing in the Fremdenblatt. The articles are from the newspaper's Copenhagen correspondent, who, in a recent issue, states that he was approached by Litvinoff with overtures with the view of propagating infidious pro-bolshevist commentaries in the German newspapers.

"In Germany," the correspondent reports Litvinoff as having said, "resistance is harder to overcome than in Russia, by reason of the fact that the middle-class system is too deeply rooted.
