Forever that, should about... Where breeches the first but falls left to us...

FOR PRESIDENT. JOHN C. FREMONT, OF CALIFORNIA.

FOR VICE PRESIDENT. WILLIAM L. DAYTON, OF NEW JERSEY.

REPUBLICAN STATE TICKET.

FOR SENATOR OF SUPREME COURT... FOR SENATOR OF SUPREME COURT... FOR SENATOR OF SUPREME COURT...

Perrysburg, Thursday, Aug. 28, 1856.

Congressional, Electoral and Judicial Candidates.

The Republican Electors of the 5th Congressional District... The candidates for the office of Representative in Congress...

Both branches of Congress adhere to their former positions on the army appropriation bill...

Thus the difficulties commenced, and in a similar spirit they have been kept up to the present time... The Senate, however, now propose to repeal some of the more odious enactments of the Kansas bogus legislature...

Kansas.

Reports from Kansas are such as to excite the deepest interest, and yet they are somewhat contradictory and altogether unsatisfactory.

Without several minor engagements have taken place between the belligerent forces, but no sanguinary battle appears to have been fought.

Later.—By telegraph from St. Louis on the 26th, further intelligence is received from Kansas. On the 22d, 2,500 Missourians were ready to enter the territory.

It affords us pleasure to announce that Hon. Wm. R. Sapp, Representative of Knox, Coshocton, Tuscarawas and Holmes counties in Congress, has been re-nominated by acclamation.

The Democratic editors now claim that inasmuch as Pierce has expressed the intention to cease persecuting the free state men in Kansas, the House of Representatives should not insist on the proviso to the army bill.

Gen. Hill has been coming down the editors of the Toledo Times with a sharp tooth comb. If the slanderous charges of those editors were worth noticing, then the General would have done himself much credit, but it is no part of the code of honor for a gentleman to regard the upturned tail of every skunk by nets as a challenge worthy of acceptance.

Who is at Fault?

There are those in every community who are disposed to link the north and the south equally accountable for the existing state of affairs in Kansas.

The people of the free states did not desire to see slavery extended over Kansas, and therefore they resolved to people it with men opposed to that institution.

In this manner the territory was settled. Of course the friends of free Kansas had a majority of settlers in the territory. In this mode of settling the question of freedom of slavery, the north had a decided advantage.

Thus the difficulties commenced, and in a similar spirit they have been kept up to the present time.

With what cool impudence some Buchanan papers now assert that the free state men are the aggressors in Kansas this time—that they made the assault and are liable for the present lamentable state of affairs in that territory.

We see it stated that the Cosmopolitan Art Association have commenced the publication of a quarterly journal devoted to the diffusion of literature and art.

It affords us pleasure to announce that Hon. Wm. R. Sapp, Representative of Knox, Coshocton, Tuscarawas and Holmes counties in Congress, has been re-nominated by acclamation.

Our neighbor of the Toledo Commercial has been writing some leaders upon the Kansas question, and pronounces the entire thing a humbug, and declares that the rumors of war are all manufactured to order by the "Abolitionists" to secure the election of Fremont.

The Richmond (Va.) Enquirer, the organ of the southern democracy, thus states the issue at the coming Presidential election: "The democrats of the south in the present canvass cannot rely on the old grounds of defence and excuse for slavery; for they seek not merely to retain it where it is, but to extend it into regions where it is unknown."

Gen. Hill has been coming down the editors of the Toledo Times with a sharp tooth comb. If the slanderous charges of those editors were worth noticing, then the General would have done himself much credit, but it is no part of the code of honor for a gentleman to regard the upturned tail of every skunk by nets as a challenge worthy of acceptance.

Coming to their Senses at Last.

Democratic Senators are beginning to believe that something is meant by the unyielding firmness of a majority of the House, on the appropriation for Kansas mobocracy.

Mr. Bayard, democratic Senator from Delaware, said in the course of his remarks on the 20th inst., that "he was free to admit that some of the laws of Kansas were shocking to the local sense of the community, and that some of them invaded natural laws."

This is plain talk from the other side of the house, and will do much towards satisfying the incredulous of the justice of the course pursued by the free state men, and also is a virtual acknowledgment of the correctness of the position occupied by the majority in the popular branch of Congress.

The GREAT ISSUE.—The disagreements between the two houses were, at last, narrowed down to the single issue in regard to enforcing the laws of the bogus legislature of Kansas.

Another important accession.—Alexandre Kayser, one of the leading Democrats and most influential Germans of Missouri, has come out in a stirring letter to the fellow Germans in favor of John C. Fremont.

The Howard Association, in view of the awful destruction of human life, caused by Sexual Debauchery, and the deceptions practiced upon the unfortunate victims of this heinous and fatal disease, have decided to issue a tract, entitled "The Howard Association, a charitable act worthy of their name, to give MEDICAL ADVICE GRATIS, to all persons afflicted, who apply by letter, with a description of their case, occupation, age, sex, etc., and in cases of extreme poverty and suffering, to furnish MEDICINES FREE OF CHARGE."

Proceedings of the Teachers' Institute. Agreeable to notice, the North-Western Ohio Teachers' Institute was held at Maumee City and Perrysburg, commencing on Monday, August 11, and continuing two weeks.

On motion, A. B. West was appointed President, and E. G. Bradley Secretary.

F. Hollenbeck, Lecturer on theory and practice of teaching.

There were in attendance about seventy teachers from the counties of Lucas, Henry, Fulton and Wood, and we can say with confidence that there has never a greater desire for improvement been manifested on the part of the teachers, during the session of any Institute ever held in the Maumee Valley.

Resolved, That we regard Teachers' Institutes and Educational Associations as very beneficial, and that Teachers should, as far as lies in their power, attend them.

Resolved, That we, as Teachers, consider "boarding round" not only injurious to the health of Teachers, but exceedingly detrimental to the advancement of pupils.
