A Woman's Discovery.

"Another wonderful discovery has been made and that too by a lady in this county. Disease fastened its clutches upon her and for seven years she withstood its severest tests, but her vital organs were undermined and death seemed imminent. She bought of us a bottle of Dr. King's New Discovery for consumption and was so much relieved on taking first dose that she slept all night and with one bottle has been miraculously cured. Her name is Mrs. Luther Lutz." Thus writes W. C. Hamrick & Co., of Shelby, N. C. Get a free trial bottle at Adams' drug store. 2

The Population of Wellington

Is about 3,000, and we would say at least one half are troubled with some affection of the throat and lungs, as these complaints are, according to statistics, more numerous than others. We would advise all our readers not to neglect the opportunity to call on their druggists and get a bottle of Kemp's Balsam for the throat and lungs. Trial size free. Large bottles 50c and $1. The Verdict Unanimous.

W. D. Suit, druggist, Bippus, Ind., testifies: "I can recommend Electric Bitters as the very best remedy. Every bottle sold has given relief in every case. One man took six bottles and was cured of rheumatism of 10 years standing." Abraham Hare, druggist, Belleville, O., affirms: "The best selling medicine I have ever handled in my 20 years experience, is Electric Bitters." Thousands of others have added their testimony, so that the verdict is unanimous that Electric Bitters do cure all diseases of the liver, kidneys or blood. A Grateful Clergyman.

Rev. Thos. Richey, formerly presiding elder of the Northern N. Y. Conference, gives this opinion of a popular remedy: "I have found Van Wert's Balsam to be a wonderful effective medicine for the lungs. I have recommended it to several of my friends who are suffering from consumption and almost miraculous benefits have followed its use. I am of the opinion that if taken in time it would affect a cure in cases of this dread disease. I would urge all who are suffering with lung and throat troubles to try it. Trial size free. E W. To whom it may concern:

This is to certify that I have suffered all winter with a severe attack of rheumatism, and was about to ask to be relieved from my position, as I was not able to work. After trying many remedies and getting no relief, I saw Hill's Ar-thro-phon-i-a advertised. I asked our druggist to order some for me. I commenced taking it as per directions and received good results from it within one week. After taking three bottles I am happy to say I am nearly cured, although I shall continue to take Ar thro-phon-i-a until I drive the disease out of my system. I can certainly recommend it as the best remedy for rheumatism that I know of and cannot say too much in favor of it.

The Handsomest Lady

In Wellington remarked to a friend the other day that she knew Kemp's Balsam for the Throat and Lungs was a superior remedy as it stopped her cough instantly when other cough remedies had no effect whatever. So to prove this and convince you of it merit, any druggist will give you a sample bottle free. Large size 50 cents and one dollar.

W. H. Hill & Co.:

Gentlemen—I have for years been a sufferer from chronic rheumatism; at times very severely. During a late attack I have experienced more relief from taking one bottle of your Ar-thro-phon-i-a than from any remedy I have hitherto used. Its action has been very prompt, and without an derangement of the stomach or other organs. I am so much pleased with its action that I shall continue its use when I have the old trouble to combat again, and recommend it to my friends in like affliction.

Respectfully yours,

WORK OF THE FLAMES.

Philadelphia Visited by a Most Disastrous Fire.

One Fireman Killed and Several Seriously Injured by Falling Walls—The Total Loss Estimated at Over $800,000.

A BIG BLAZE.

PHILADELPHIA, Feb. 11.—The most destructive fire which has visited this city for a long time broke out shortly before noon Sunday in the basement of the large building Nos. 1,412 and 1414 Walnut street and the whole place was destroyed, nothing but the front and rear walls being left standing. While the firemen were at work a portion of the front wall fell inward, killing one man and seriously injuring two others. The following are the names of the killed and injured:

George Showers, thirty-six years old, fireman of Engine Company No. 4 instantly killed, and his body burned beneath the debris.

Abraham Lacey, fireman of Engine Company No 13 badly bruised about the body and limbs, but no bones broken.

William Buzzard, of Engine Company No. 4, badly bruised about the side and leg.

The fire broke out under the drug store of F. B. Morgan, located on the first floor of the Walnut street front, and in a very short time had burned through to the roof. The first floor and basement were occupied by the drug store and there similar by Messrs. Wyeth & Bro. as a laboratory for the manufacture of drugs and chemicals. The fire had gained a fearful headway in the upper portion of the premises before the firemen could be summoned and owing to the inflammable contents of the several buildings the flames gained upon them with frightful rapidity. Near the front of the building next the rear was a large water tank containing over fourteen tons. This was supported by large timbers resting on the main walls, and as the beams were weakened by the flames, the whole thing gave way with a crash.

By this time the firemen had worked their way through the large doorway on the first floor and two lines of hose had been taken inside. They were manned by six men, all of whom were standing inside the front wall. As the large tank fell, a portion of the top of the front wall was torn loose and fell inward with a crash. The fall was so sudden and unexpected that the men inside could not be warned of their danger. The whole of the first floor was at once enveloped in smoke from the burning timbers and a cloud of dust. There was a sudden dash from those on the outside and a dozen brave men, led by Director Stokely and Lieutenant Usilton, rushed to the rescue. One by one the imprisoned men made their escape or were dragged out by their rescuers and, as the smoke lifted, Lacey was found pinned down to the floor by heavy timbers.

A stream of water was turned onto the men as they worked to save them from the intense heat, and after several minutes, which seemed like hours to those on the outside, Lacey was released and carried to the street. A dash was made for the spot where Showers had been seen but a moment before the wall fell, but the spot was covered by a mountain of bricks, mortar and heavy timbers. An attempt was made to reach his body, but after working for some time and not being able to obtain sight of him he was given up for dead and as those at work were in momentary danger of being killed, the search was abandoned for the time. His body was recovered about five o'clock.

In the Hotel Stratford, in the same block, nearly all the rooms were vacated, and ladies in their wraps and gentlemen in their overcoats gathered in the lower rooms ready to make their escape as soon as it was found to be necessary for their safety. Among the guests in the house were a number of sick persons and they were speedily conveyed to places of safety.

As soon as the body of the dead fireman was recovered from the burning building Prof. DaCosta started a subscription for his family. One hundred dollars was placed opposite the Professor's name, which was quickly followed by a similar amount by Mayor Fitler. The mayor then took the list and circulated personally among his many friends upon the ground and when he handed it over to Police Surgeon Andrews it footed up a very handsome sum.

While engine No. 17 was dashing up to the fire it struck a handsome horse of truck E, breaking its leg. The total loss from the fire is estimated at fully $800,000, of which Messrs. Wyeth & Bro. loss $500,000. The fire is supposed to have been caused by sulphur igniting in the cellar.

Cairo, Ill., Feb. 11.—The lumber towboat Pearl was totally destroyed by fire at Mound City Sunday afternoon. She had just come off the ways, completely overhauled for heavy business in the Ohio river. She was built four years ago and valued at $15,000.

COUNTERFEITERS CAPTURED.

Thirteen Men Arrested in Butler County, Pa., for Making and Circulating Spurious Coin.

PITTSBURGH, Feb. 11.—United States Detective Sweeny and Deputy Marshal Chambers arrived in the city Saturday with a gang of thirteen counterfeiters captured in various parts of Butler County within the past ten days. The gang has been operating extensively for a long time and a large amount of the spurious coin is believed to be in circulation. The detectives also secured the dies and molds used in making the counterfeit money. An information was lodged against the accused and a preliminary hearing will take place early this week. In the meantime the prisoners are in jail. While the officers have arrested all the principal members of the gang, there are several others yet to be apprehended. It took about twenty-five officers to make the arrest, as the men were considered desperate characters.

The band was regarded as one of the most dangerous and most successful in the country. Thousands upon thousands of dollars of the bogus coin have been passed in different States by the counterfeiters themselves, and many weeks have been spent in running them down. The men in custody are: James Johnston, John Dawson, Bob Montgomery, Charles and John Woods, Thomas Stoughton, David Dunn, Curtis Fox, Alfred Grossman, Warren Black and James Pryor.

Met a Horrible Death.

INDIANAPOLIS, Feb. 11.—There was a shocking accident Saturday in the L. D. & W. elevator. Workmen were engaged in cleaning out the shelling machinery, and the trap-door, looking down into the powerful teeth of the sheller, was open. Into this Gardner Ayres, one of the employes, stepped, while the machinery was in motion. He fell, feet first. To break the ears of corn, before they pass into the teeth of the sheller, are strong levers, revolving with irresistible force. In a moment his legs were torn and twisted and his body was drawn down and beaten until it no longer resembled the form of a man. Only the head alone remained uninjured. Death was instantaneous. The deceased leaves a family.

WASHINGTON.

The Signal Corps of the Army in a Bad Condition.

Startling Revelations of Rottenness in the Work on the Aqueduct Tunnel—Inaugural Parade Difficulty and Vilas Court-Martial.

CAPITAL DOINGS.

WASHINGTON, Feb. 12.—The Secretary of War yesterday sent to the House a statement of General Greeley, Chief of the Signal Corps, which sets forth the very unsatisfactory condition of the Signal Corps and the inefficiency of the lieutenants of that corps. He calls attention to the large number of officers now in the corps and recommends the reorganization of the service. General Greeley further states that during the last three years one-eighth of the corps have died and that one-fourth are entirely unfitted to perform the duties for which they are paid, and recommends the passage of the House bill "to increase the efficiency of the Signal Corps of the army." The bill provides that appointments shall be made until the officer is examined and approved by a board to be appointed by the Secretary of War; the commissioned officers of the service to have the pay and allowances of like grades in the army, the majors and captains to be appointed from line officers in the army.

The Star last evening printed the following: "Startling revelations are made in the experts' reports upon the character of the work on the aqueduct tunnel. The extent of the fraud is almost beyond conception. The commissioners in charge of the investigation was in session Monday reading the report of the experts. They disclosed a state of rottenness that the committee had no idea of, notwithstanding all the newspaper exposures and the facts stated in previous testimony. Hundreds and hundreds of feet of the masonry are without backing, and spaces were found in many places where a man, by leaning forward a little, could walk for a hundred feet on top of the brick arch. It is estimated that it will cost not less than $750,000 to make anything out of the tunnel. It is understood that the committee in their report will hold Major Lydecker responsible."

It is estimated that in the inaugural parade there will be between 40,000 and 50,000 persons in line. The first division, which will escort the President and President-elect to the Capitol, will be composed of the regular troops stationed about Washington and the National Guard of the District, and will comprise about 1,500 men. The other divisions will be formed in the avenues and streets about the Capitol, and will not move until the President-elect has taken the oath, when the procession will escort him back to the White House.

The question of timber cutting on the Chippewa reservation within the La Pointe Agency, was expected to come up before a sub-committee of the Senate Committee on Indian Affairs yesterday, but Indian Commissioner Oberly's inability to present the desired correspondence caused a postponement until Thursday. An interesting state of affairs is said to exist in the Interior Department over this matter. When Indian Commissioner Oberly took charge of the office he directed a suspension of all contracts for cutting timber on the reservation in question, but Secretary Vilas, it is alleged, overruled the commissioner's orders, whereupon a very sharp letter was sent to Vilas by Oberly. Last spring, after an investigation of the timber cutting contracts, Agent Gregory resigned, to take effect when his successor was nominated and confirmed. The successor was not named until this session of Congress and the nomination has not been reported upon. Commissioner Oberly has recommended to the secretary that Gregory be removed and his office be administered by a special agent of the department, but no action has yet been taken on the recommendation. In consequence, it is said, the relations between Mr. Vilas and the Commissioner of Indian Affairs are somewhat strained.

Bismarck Waits for Harrison.

LONDON, Feb. 13.—Telegrams from Berlin indicate that Prince Bismarck is not inclined to enter into any further negotiation with the American government with regard to Samoa until after the inauguration of President Harrison. Information obtained from official quarters here induces the belief that Lord Salisbury has urged Count Von Hatzfeld, the German Ambassador, to permit negotiations between Germany and England to lie over for the same reason, the Premier believing that an entirely different view will be taken of the Samoan difficulty by the incoming President and his Cabinet.

An Unwarranted Seizure.

OTTAWA, Ont., Feb. 12.—It is rumored on good authority that the Dominion government will recede from its position in regard to the seizure of the American schooner Bridgewater at Shelburne last year for refusing to pay duty on repairs. The matter has been fully considered by the government and the Minister of Justice has made a full report regarding the constitutionality of the seizure. He concludes that it was unjustifiable, and in consequence the claim for compensation of Captain Allen, owner of the vessel, is likely to be favorably considered.

Not Yet Released.

NEW YORK, Feb. 12.—The seized steamship Carondolet, with her contraband cargo, has changed her anchorage and is now at the sheet of water designated for the anchorage of vessels containing explosives, with three representatives of the United States Marshal in charge. Since the seizure no one belonging to the vessel, with the exception of the captain, has gone ashore. The men appear perfectly satisfied with the turn of affairs.

An Insane Preacher's Latest Move.

DANBURY, Conn., Feb. 12.—Rev. W. J. Crossley, pastor of the Universalist church of this place, packed most of his valuables Sunday night and left town on the Washington express. Mr Crossley resigned his pastorate some time ago. The cause of his disappearance is due to hereditary insanity. It is thought he is bound for the West.

Mormons Defeated.

OGDEN, Utah, Feb. 12.—In the municipal election here yesterday the Gentile candidates were elected. This is their first victory over the Mormons and there is much rejoicing.

Legislated Out of Office.

TRENTON, N. J., Feb. 13.—The Senate last night, after a heated debate, passed the bill legislating out of office Charles W. Fuller, Superintendent of Public Instruction and placing the appointment in the hands of the Governor. The bill will probably pass the House to-day. It is claimed that Fuller was elected by a dicker and a deal, and that the office should rightfully be filled by a Democrat. Fuller is a Republican.

Removed for Bribery.

NEW YORK, Feb. 12.—Theodore A. Hamilton, assistant commissioner of accounts, was suspended from office yesterday on account of evidence given in the West Washington market investigation, charging him with receiving bribes from renters of stalls.

AFFLICTED BRAZIL.

A Terrible Epidemic of Yellow Fever, Coupled With a Drought, is Causing Great Mortality Among the People.

RIO JANEIRO, Feb. 12.—Yellow fever is making great progress, and so numerous are becoming the gastric and other fevers which have been the usual precursors of epidemic in other years that the sanitary authorities are looking forward to an epidemic. The large arrivals of immigrants furnish the pestilence with material for slaughter. The River Plate papers are publishing sensational telegrams of thirty to forty cases a day in Rio, but these are exaggerations and the mortality in Rio does not yet reach seven a day.

During last year immigration reached the unprecedented figure of 130,000 and such is the strength of the influx that the number will probably reach 200,000 in this year. Before the extinction of slavery 30,000 was the highest figure attained. Besides the European immigrants from drought ravaged Ceara are arriving at the rate of thousands every month, greatly to the joy of the coffee planters, who thus see themselves released from dependence on the uncertain labor of the ex-slaves.

The drought in Ceara is spreading to the neighboring provinces. Already the cattle in the vicinity of Pernambuco are dying by the thousands, the rear of Bahia is fast drying up and all circumstances point to a drought like the fatal one of 1877-80. Warned by that terrible experience, however, the government is removing the refugees of the interior to other provinces with all possible speed, and the New York packet now due here has already been requisitioned to convey several hundred to Rio.

They Had More Zeal Than Discretion.

DANVILLE Ill., Feb. 12.—Fannie Mann, Annie Lee, Douglas Cole, Jacob Grimes and wife, Charles Grimes and wife, of Blount township, this county, were baptized by immersion Sunday a few miles west of this city. Rev Hodge, of Catlin, and John Lee, of this city performed the ceremony. A large hole had been cut in the ice and the minister took the thinly clad and shivering converts one of whom is a chronic invalid and another a young mother, one at a time into the water, which was five feet deep. A blizzard and snow storm was raging and it was so cold that ice formed on top of the pool and stiffened their garments as soon as they came out of the water. On completion of the ceremony they walked in their stocking feet a quarter of a mile through the fields to the nearest residence to change garments.

Colonel Dan Lamont's Future.

WASHINGTON, Feb. 12.—Colonel Lamont has decided to accept the position of president of the Avenue C railroad in New York after the 4th of March. "I made arrangements some months ago," said Colonel Lamont last night, "under which I am to be associated after March 4 with Secretary Whitney and others in certain business enterprises in which he is an owner. Included in these are some street railroad properties in New York City, in the improvement and development of which I shall probably be actively engaged. I shall not, however, be president of the Philadelphia syndicate of street railroads in New York. My business arrangements referred to are very satisfactory, without the presidency of this syndicate."

Will Have to Retire From Business.

ALBANY, N. Y., Feb. 12.—Chief Examiner Shannon, of the State Insurance Department, has been making an examination of the methods of the Buffalo Mutual Accident Assurance Company and has submitted to Superintendent Maxwell a report in which he says that the chief object of the association is to pay salaries of officers. He states that the general manager, George O. Sanborn, has agreed to wind up the company's affairs and reinsure the members in some responsible company. If this is done at once Superintendent Maxwell will not interfere, otherwise the matter will be referred to the Attorney General with a request that he commence an action against the company.

Six-Day Race Between Female Bicyclists.

NEW YORK, Feb. 12.—Tony Pastor started the female six-day bicycle race in Madison Square Garden at three o'clock yesterday afternoon. Early in the race Misses McShane, Smallor and Oakes were hurt by falls, and were thenceforth at a disadvantage. Miss Fox fell sick and retired from the race. But 3,000 people were present, including many sporting men and actors conspicuous among them being Fred Liebhardt, Berry Wall, Dominick McCaffrey, Maurice Barrymore, Ed Stokes and Blakely Hall.

War on Christian Scientists.

NEW YORK, Feb. 12.—A war of doctors is going on in Massachusetts between the regular licensed physicians on one side and healers of all other schools on the other. The attack is especially against the Christian scientists, or faith cure people. The latter have employed lawyers and propose if a law is passed against them, to test it in the United States Supreme Court the right of the State to prevent them from curing people.

Accidentally Shot.

NEWPORT, R. I., Feb. 12.—Two young men William Boyd and John Francis, residing in Newtown, about nine miles from here, were injured by the accidental discharge of a shotgun while shooting on the east shore of the island Monday. Francis was shot in the arm and Boyd in the head. The shot narrowly escaped passing through Francis's body. Boyd is seriously injured. Both men were taken to the hospital.

Nine Arrests for Violating Election Laws.

INDIANAPOLIS, Feb. 12.—It was late last evening before a quorum of the Federal grand jury reported and the examination of witnesses was postponed until to-day. Deputy marshals returned from Northern Indiana yesterday and reported nine arrests, all of them Republicans, for various offenses against the election laws.

Arrested for the Gambler's Murder.

WATERBURY, Conn., Feb. 12.—Joseph Sphinmer, a colorer in Becker's hat factory, was arrested yesterday afternoon for the murder of Simon J. Dillon, the Danbury gambler, early Sunday morning. Sphinmer was one of the four Germans whose quarrel with Dillon resulted in the murder.

Hard Lines.

PLATTSBURGH, N. Y., Feb. 13.—The father of Greenwall, the Brooklyn murderer, ended a seven years' term in Clinton prison for forgery yesterday, and will go at once to visit his son, who is to be hanged this week.

All Ready for the Fray.

CHICAGO, Feb. 12.—The indications now are that the McAuliffe-Myers fight will take place to-night or to-morrow morning. Alf Kennedy, the backer of Myers, arrived last evening and posted his final $1,000 with the stakeholder. He afterwards met Billy Madden, who arrived from Beloit, Wis., late in the evening. The entire $5,000 stake has now been posted.

Death of Rear Admiral Chandler.

WASHINGTON, Feb. 13.—The Navy Department yesterday afternoon received a dispatch announcing the death of Rear Admiral Chandler, commanding the United States naval squadron in Asiatic waters. His death occurred Sunday at Hong Kong, from apoplexy.
