TRIED TO DROWN HERSELF.

A Woman Walks Into the Lake at Cleveland With Her Daughter, But is Rescued—A Sad Story.

CLEVELAND, June 18.—Mrs. Mary Allen, of No. 215 Scovill avenue, attempted to drown herself and nine-year-old daughter Blanche, in the lake at noon Monday. She waded into the water at the foot of Davenport street with the child in her arms. The cries of the little girl attracted the attention of a Lake Shore brakeman named John West, who plunged into the lake and after a hard struggle succeeded in bringing the half drowned pair to the shore. They were placed in a switch shanty and the patrol wagon was summoned and they were taken to the Central station. The matron took charge of them, and soon had them seated at the fire wrapped in warm blankets. Mrs. Allen is thin and careworn, and although she says she is thirty-three years old she looks ten years more. The little girl, however, is the picture of health and has an exceedingly handsome face.

To humane agent Parmalee the woman, who is temporarily deranged, told a pitiful story. She had been divorced from her husband for four years, the bill being granted for neglect of duty. She made no protest in court, it being mutually agreed that she should have the child and he his freedom. He is now at St. Mary's, O. She has not seen him for three years. In the meantime she has supported herself and child by sewing.

AN OUTRAGE.

A Toledo Man Imprisoned for Months in a Mexican Dungeon and Subjected to the Greatest Indignities.

WICHITA, Kan., June 18.—George L. Andrews, of Toledo, O., now homeward bound, says that last November he went to Mexico to recuperate his health. He stopped off at Candelabra, fifty miles south of Paso del Norte. A few days afterward he was arrested and taken before the mayor provisto. He was ignorant of the charge against him, but after the formality of a few minutes' trial he was marched out of the court and into prison. He made several unsuccessful appeals to Americans to secure his release and at last he was advised to send word to the English consul. Before he could do this he was taken down with small pox, from which he did not recover until January.

About May 1 some English tourists stopped at the jail and he urged that they place his case in the hands of the English consul. This was evidently done, for on the 31st of May he was released. All his property had been appropriated by his jailers and he was compelled to borrow money enough to reach El Paso, where he telegraphed to Toledo and received money with which to make the journey home. His imprisonment was horrible and his food not fit for swine.

SHOULD BE LYNCHED.

A Negro Brute Attempts to Outrage a Nine-Year-Old Child.

WILMINGTON, O., June 18.—Al Black, colored, was arrested late Saturday night by marshal Stout for an attempt to commit rape on Minnie Lewis, a white child, aged about nine years. The little girl was out rather late on an errand, and Black accosted her on her return home, offering her money to go with him, and finally grabbing hold of her. Her screams attracted several persons to the scene, and Black was taken into custody. Threats of lynching were made and a rope was sent for, but the arrival of the marshal, and the prompt arrest and imprisonment of the accused prevented further action in that direction. When Black was arraigned before mayor Doan for a preliminary hearing, Frank Lewis, father of the little girl, made an attack upon the prisoner, but was prevented from doing him injury by the interposition of the court officers. Black has served two terms in the Ohio penitentiary.

White Caps Arrested.

MT. VERNON, O., June 18.—Two brothers, Samuel and John Beebout, residing at Martinsburg, this county, have been arrested by marshal Blythe and constable Wintermute for a murderous assault upon Charles E. Deal. Both assassins were disguised after the White Cap style with masks, but Deal discovered their identity by tearing off the disguise, when they beat him into insensibility. The accused gave bond for their appearance. It is stated that the Beebout boys are ringleaders in a White Cap organization recently formed, and that this was the first of a series of regulations the band had in contemplation. They will be vigorously prosecuted.

Murder at Fairport.

PAINESVILLE, O., June 18.—A murder was committed at Fairport Harbor, three miles from here, Sunday. Jacob Kivigahue and Mats Witola, Russian Fins employed on the docks, became engaged in a quarrel, when the former drew a knife and slashed his companion, severing the jugular vein and afterward stabbing him in the back. Witola ran a few yards and dropped dead. Kivigahue was arrested and lodged in jail here. He is a single man, but the murdered man is said to have a wife and children in Finland. A woman is said to have been the cause of the murder.

Verdict for Heavy Damages.

BELLAIRE, O., June 18.—The Circuit Court has rendered a verdict for $4,500 against the Cleveland & Pittsburgh Railroad Company in favor of Mary Rederer, of this city, for the death of her husband, Clarence Rederer, who was killed while in the service of the company. This was the fourth trial of the case, and each time the verdict has been increased, the first one being for $3,000. Alex Finn was also given a verdict for $3,200 for injuries received from that company while they were switching a car, which struck him.

Real Estate Agent Missing.

SPRINGFIELD, O., June 18.—T. M. Offutt, a real estate and loan agent, has been missing from the city for several days. It is thought that financial complications will account for his absence. Offutt was prominent in church work, a law student and about thirty-three years old. He leaves a wife and children.

Wanted for Pocket-Picking.

MCARTHUR, O., June 18.—Detective Shipley, of McArthur Junction, has arrested a man here on a dispatch from the marshal of Logan, O., who gives his name as Culver A. Baker, and who is wanted at Logan for pocket-picking and grand larceny.

Terrific Hail and Wind Storm.

MARTINSBURG, W. Va., June 18.—A very heavy storm passed over the southwest part of Berkeley county Sunday evening. A terrific gale of wind that did great damage was followed by a terrible thunder storm. This was followed by a heavy hail storm that added greatly to the destructiveness. The hail stones day in some places three or four inches deep. Crops and trees are ruined. Live stock was badly bruised and in some instances killed. Several houses and barns were wrecked by the wind. No loss of life has yet been reported.

SCARED BY DYNAMITE.

Residents of Johnstown Flee from Their Homes,

Fearing That the Houses Remaining Would be Wrecked by the Powerful Explosive.

Little Judgment Shown by the Contractors in Their Use of Dynamite While Blowing Up the Debris at the Bridge—The General Situation.

JOHNSTOWN, June 18.—The zeal of the contractors in breaking up the gorge of drift by the use of dynamite yesterday morning ran away with their better judgment. The quantity of the explosive was largely increased with each successive shot until the citizens ran, terror-stricken, from their homes, fearing that the few houses remaining would be razed to the ground by the tremendous jar and concussion. Manager Fulton, of the Cambria Iron Company, who, on account of the explosions, was compelled to move his family and effects to the mountain side for safety, sent a note to General Hastings demanding that the dynamiting cease. General Hastings replied that the dynamiting would cease at once, since which time no shots have been fired.

Up to noon ten bodies had been recovered and removed to the morgue.

The third charge of dynamite fired knocked out the front of Henry Fritz's house on Clinton street. The house was of brick, but had been badly shattered by the flood. A gang of workmen cleaning the street in front narrowly escaped being crushed. Several of them were slightly injured.

A crowd of citizens collected at the general office of the State Board of Health Monday morning, hoping to ascertain the sanitary condition of the town. They were disappointed, however, as the physicians in charge refused to answer any questions or give reasons for not issuing the health bulletin. There is much indignation and uneasiness in consequence. It is stated that arrangements have been perfected whereby the Children's Aid Society will send about two hundred persons to Atlantic City for a few weeks.

Fifty business men have applied for lumber with which to construct temporary structures. Some plan of apportionment and distribution will be determined upon at a meeting of the business men's committee to-day. One proposition under consideration contemplates the construction of an arcade around the four sides of the public square, which shall contain about sixty store rooms, to be given rent free to such business men as desire to re establish themselves in business.

Yesterday morning the workmen removing the debris from Wood, Morrell & Co.'s store found the body of a woman in an advanced state of decomposition. Her clothing bore traces of elegance. It was at first stated that the remains were those of Miss Paulson, of Pittsburgh. One hundred dollars were found in the dress pocket, besides an elegant gold watch, a solitaire and three costly gold rings. A careful comparison with the description left by the friends of Miss Paulson was made, but they do not tally in any particular, and the corpse lies at the morgue marked "unknown." The face was entirely gone, only the lower jaw and one tooth remaining. It is almost certain that the dead woman was one of the passengers on the day express. Sunday night the remains of a woman were recovered in Cambria City. The remains were buried unidentified.

Monday was the hottest day experienced since the catastrophe and its effect was apparent on all classes of people. The heat was extremely oppressive and brought out all the bad smells concealed in the numerous piles of rubbish. The smoke from the burning drift hung low over the valley and, mingling with the decaying vegetation and putrifying matter, combined to make an odor indescribable.

Governor Beaver will join the relief committee at Lock Haven this morning and come with it to this city in the afternoon. Johnstown people are highly indignant because Governor Beaver has not yet taken action relative to their suggestion concerning the appointment of a successor to John Fulton on the commission.

"We've got a channel in both streams now big enough for a steamboat to go through," said Major Phillips last night. "With the dynamite and oil we will have the river clear by the end of the week. We have put 140 barrels of oil on the driftwood and will burn out all the loose debris." There is now a blazing mass of rubbish that lights up the valley for miles.

There was an incipient riot among the Italian laborers last night, but it was soon quelled by the police.

It has been decided to consolidate all the morgues to-day, and hereafter there will be only one dead house. The consolidation is made possible by the fact that the number of bodies recovered now is growing smaller each day, and their advanced state of decomposition compels immediate interment.

HARRISON'S OUTING.

How the President Spent a Brief Vacation From the Cares of Office.

WASHINGTON, June 18.—The yacht Restless, with the President and Secretaries Blaine and Windom on board, returned to Washington yesterday morning. The President drove immediately to the Executive Mansion. During Sunday the yacht anchored off St. Mary's, Md., and the Presidential party attended services at the Episcopal church there, and saw Bishop Paret, of Baltimore, confirm a class. Later in the day the party visited the St. Mary's Female Seminary, and left for Washington in the evening.

A number of persons from Leonardtown, hearing of the President's presence at St. Mary's, came over to that place to see the distinguished visitor.

Two Children Eaten by Wolves.

KANSAS CITY, June 18.—Two children, aged ten and twelve years, of farmer Edward Bach, went fishing last Thursday. They failed to return and searching parties were organized to look for them. Their bones were found Sunday evening near a ledge of rocks that had long been known as Wolf's Den. A band of timber wolves have used this section for years and it is thought the boys were killed and eaten by the animals.

Mother and Two Children Drowned.

WABASH, Ind., July 18.—John Maple, a farmer living near this city, attempted Sunday night to ford a small stream which was greatly swollen by hard rains. He was accompanied by his wife and three children and a servant girl. In the middle of the stream the wagon upset and Mrs. Maple and two of the children were drowned.

Tornado in Florida.

JACKSONVILLE, Fla., June 18.—Heavy rains have done considerable damage throughout the State. A tornado at Lake City cut a swath 100 feet wide, destroying much property. The South Florida railroad tracks are submerged in several place. It is rumored that the steamer H. B. Plant was partially wrecked at Blue Springs.

UTTERLY AT SEA.

Chicago Police Authorities at Their Wits' End

Now That the Williams Clue Has Failed to Produce Results in the Cronin Case.

Woodruff Still at Work Grinding Out Confessions—Generally Thought That His Stories are Unworthy of Belief.

NEW YORK, June 18.—The three men who came on from Chicago for the purpose of identifying Maroney and McDonald as principals or accomplices in the murder of Dr. Cronin, visited the Tombs yesterday with authority to see the prisoners. The suspects were placed in line with a score of other prisoners. William H. Hatfield, who sold the furniture afterward found in the cottage where Cronin was murdered, was the first to pass along the line, but he failed to identify either of the men. He was followed by Martensen, the expressman, Mr. Throckmorton and deputy sheriff Williams, all of whom failed to identify the suspects. Maroney and McDonald were then taken back to their cells and the Chicagoans left the prison.

WINNIPEG, Man., June 18.—Martin Burke, alias Delaney, was arrested here Sunday for complicity in the Cronin case. He was boarding the Atlantic express and had a ticket for Liverpool, England. He gave his name as Martin Burke. G. W. Hubbard, general superintendent of the Chicago police, was immediately communicated with, and replied as follows: "Hold Burke, alias Delaney, who is concerned in the Cronin murder, by all means. Will send officer immediately."

The man arrested answers the description of Delaney in every respect. He is about twenty-five years old and is slight in stature. He was fairly well dressed and had the appearance of a well-to do laborer. This is undoubtedly the man wanted.

Burke does not look like an innocent man who was outraged over arrest, but takes his arrest as a matter of course. He arrived here on Saturday night and put up at a second class hotel. He did not register. In his valise was found a felt hat supposed to have belonged to Dr. Cronin. The name inside of the hat appeared to be blotted out with the aid of chemicals. The chief of police sought to restore the letters, and characters to correspond with Cronin's name were clearly distinguished. The prisoner admitted that he has a brother in Chicago, so that there is now little doubt that he is one of the famous Williams brothers. Burke's solicitor said the intention was to resist to the bitter end any effort to extradite the prisoner.

CHICAGO, June 18.—Interest in the Cronin murder is now centered upon Winnipeg, where the suspect Burke is under arrest. Up to ten o'clock Monday morning the State's Attorney and police departments were confident that in Maroney and McDonald they had two of the principals to the crime. No sooner, however, had dispatches from New York chronicled the fact that the Chicago witnesses had failed to identify the suspects and that the court had ordered their unconditional release, than the lyre of the departments began upon another tune. It was boldly stated that the authorities had been playing a bluff game with the New Yorkers; that the picture identified by the real estate agent, expressman and others was not that of either of the New York prisoners, but of Burke, the Winnipeg suspect; that, in short, the extradition of Maroney and McDonald had been demanded and the witnesses sent to identify them all as a part of a bluff game, a detective being all the time on the track of Burke, and the fact that he was the mysterious Williams being all the time patent to those in charge of the case. In the effort to justify this position it was stated with equal gravity that the steps referred to had been taken simply to satisfy Luke Dillon and the Pinkertons—both of whom, according to this ingenious theory, were just as well satisfied that Maroney and McDonald were the men wanted as the regular police officials—according to their present position—were satisfied that they were not.

Outside of those now in New York, every witness that positively identified Maroney's picture as that of Frank Williams has now recognized the photograph of Burke as that of the "only original." But in one of the cells of the Central station a man named Mulcahey is under lock and key, and it is reported that this man, too, is the one sought for. As to the grounds upon which his arrest is based no information is forthcoming. Appearances indicate, however, that the authorities are utterly at sea, and that, as in the Tascott case, they are willing to send detectives to the farthest ends of the continent upon the mere suggestion that a possible clue may be developed.

Woodruff, alias Black, is said to have made two more confessions yesterday and to be hard at work upon a third. The State's Attorney's office is inclined to pin its faith to every thing he says. The police, on the contrary, regard him as an unmitigated liar. He has full access to the newspapers and is allowed to talk with whom ever he may please. Hence in every new confession he brings in names that he has never mentioned before. Experienced detectives say that had New York methods been adopted with him the true story of his connection with the tragedy would long since have been known.

The bulk of the evidence given before the grand jury yesterday was of a routine character. The most important witnesses were desk sergeant Montgomery, of the Chicago avenue station, and James W. Tuohey, the latter one of Alexander Sullivan's sureties. Montgomery testified that the numerous telephone calls for detective Coughlin which he answered in the latter's absence at the station came, not from ice man Sullivan, as had been testified at the coroner's inquest, but from telephone 970. This is the number of the instrument in the law office of Windes & Sullivan, indicating that the latter was in frequent communication with the detective. Tuohey, who was a fellow passenger with LeCaron on the steamer that carried the informer to Liverpool under the name of Beach, was summoned to testify regarding the conversation he had with the spy during the passage. After his examination was concluded he refused to state what had transpired, and the grand jurors were noncommunicative.

Authorized to Make Seizures.

OTTAWA, Ont., June 18.—The Dominion government has instructed commanders of Canadian cruisers not to overlook any infraction of the fishery regulations, but to seize any vessels found guilty of violating the law when the evidence will warrant such a step. The instructions are said to be more stringent than those issued last year.

Swept Into a Sewer and Drowned.

BALTIMORE, June 18.—The body of little Raphael Ferrandini, who was swept into the Lexington street sewer on Friday last during the heavy rain, was recovered in the river yesterday morning. It was badly disfigured by fish-bites and decomposition had set in.

BRIGHT'S DISEASE CURED.—Three years ago I was attacked with kidney trouble, which in a few months terminated in Bright's disease. My physician said my case was incurable. I tried different things and received no benefit until a friend persuaded me to try Dr. Burdick's Kidney Cure. I sent and got one bottle; before that was half gone I felt a change. One bottle removed from my body and limbs fifteen pounds of water, which had been very badly swollen. I used twelve bottles and was entirely cured, and never had any return of the disease since. I would recommend this medicine to all suffering with kidney or liver trouble, to which I owe my life.
Respectfully yours,
