

GENERAL PERSHING AND PREMIER OF FRANCE MEET ON BATTLEFIELD

This is the first and only photograph to arrive in the United States showing General Pershing, commander of the American expeditionary forces in France, and Georges Clémenceau, Premier of France, when they met at American headquarters on the western front and inspected the troops. The Premier expressed great enthusiasm over the Americans and their courage.

On the Spur of the Moment
by Roy K. Moulton.

A NOTE FROM THE FRONT.

That young French maid, she was a dear. She sweetly said, "Bonjour, monsieur." I found my book and answered right in my best French, "Tres-bean, petite!"

German chemists claim they will make a substitute for everything they need. But they will never make a substitute for humanity, and that's what they need most.

American medical journal asks: "What makes us tall or short?" We know what makes us short. Ask us a hard one.

OUR IDEA OF NOTHING TO DO.

Waiting for the German people to kan the Kaiser. Trying to bring about the end of the war by wishing for it. Trying to thaw out a gas pipe with a lighted match. Waiting for the senate to slap La Follette on the wrist.

Men are taking care of their automobiles these days. Most of them don't know where they will get another.

The other day a man ran away with our neighbor's wife and his automobile at the same time.

Our neighbor came up out of the basement just in time to see him driving away, and he yelled at the driver: "Don't forget to send the car back."

They gave a Chicago murderer a porterhouse steak and French fried potatoes just before hanging him, which, in our opinion, is a poor way to conserve food.

"Songwriting Opportunities and Pitfalls," 15c. Don't act blindly. Get knowledge most needed. Many dealers wasted through ignorance. Jensen, 68-141 West Jackson, Chicago.

FARMS

FOR SALE OR EXCHANGE
Would you like to own a good farm in Wood, Lucas or Monroe Counties?
We have several on our list convenient to this city, easily reached by stone road or car line, and close to good small town markets.
Nearly all have black loam soil, adapted to the raising of hay, oats, corn, rye, wheat or sugar beets, and are well developed and improved.
The owners of some of these farms would consider exchanging for improved town property.
There has never been a time when a good farm was a better buy than today.
Our farm department is prepared to show any of these farms on request. Phone or call and let us show you what we have.

A LIBERTY BOND

Ernest Bourner Allen, Minister Washington Street Congregational Church, Toledo.

A Liberty Bond is a bond that ties our hearts to all of our brave Allies. Who've fought for us under low'ring skies, Till Freedom comes in the morning!

A Liberty Bond is a bond that makes The Kaiser tremble whenever he wakes, And his mustache droop like the other fakes, Till Freedom comes in the morning!

A Liberty Bond is a bond that whips Autoocracy's hellish havoc and quips, When freemen and bondmen come to grips, For Freedom's cause in the morning!

A Liberty Bond like a bomb, will burst, To shatter the shackles of slaves accurst, By blood-crazed war lords doing their worst, Till Freedom comes in the morning!

A Liberty Bond is democracy's sword, That teaches the Kaiser whose ox is gored, And carries the judgment of the Lord, Till Freedom comes in the morning!

Buy a Liberty Bond for your brother's sake, For the men who're putting their lives at stake, Till the world of Safety and Peace partake, And Democracy's vantage all all men retake, Till Freedom comes in the morning!

HELPING THE MEAT AND MILK SUPPLY

Plan of A-Shaped Hog House; Closed Front on Left. Provision for Ventilation Shown in Small Diagram.

You Can Move the A-Shaped House on Its Runners from Field to Field or from a Dirty Place to a Clean Location.

Movable Pig Houses Cheaper, Cleaner, Handier.

A-Shaped Type Especially Suited to Beginner in Hog Business—Front Can Be Closed In in Colder Climates—Good Shelter for Sow and Litter—Lanterns to Warm It.

Movable or colony hog houses are especially suited to the needs of the farmer just starting in the hog business and also for pig club members who are doing their part to help the 15 per cent increase needed in hog population. These houses, especially where the winters are mild, will meet all the needs of hogs for shelter both from the hot sun of summer and the dampness and storm of winter. They can be moved from field to field as the pigs are changed from one grazing crop to another. Their use makes it easy to keep the hogs healthy, as the house can be moved as soon as one place becomes unclean. Movable houses can be built much more cheaply than the larger ones; they

can be increased in number as the herd gets larger; and if the farmer is a renter he can take the houses with him when he moves.

GET THIS CIRCULAR ON MOVABLE HOG HOUSES.

Proper housing is important in increasing hog production. Good houses reduce the amount of feed consumed and prevent losses from exposure, especially with the early spring litters. "Movable Hog Houses," Circular 102, Office of the Secretary of Agriculture, just published, tells how to make two types of inexpensive hog houses—the box-shaped house and the "A"-shaped kind. Write for this publication.

LIVED ON \$16.50 A YEAR

Indiana Man Built a Hut of Mud and Sticks as a Home in Arkansas.

Hope, Ark.—When John Q. Cushman, 63, a hermit who for six years had lived in a mud hut, five miles north of Hope, failed to go to a neighbor's spring for water, the neighbor investigated and found him dying near the hut. He never regained consciousness and died late in the afternoon. Cushman came here from Indiana. He bought a small piece of land in the woods and with sticks and mud built a hut eight feet square. It has no window and no floor. A scaffold in one corner covered with leaves, was his bed, and a home made stool and a small cook stove was his only other equipment. He prepared and ate his food from the skillet. He ate only a mush made of beans and corn meal mixed with lard.

Cushman once told a neighbor his expenses for food and clothes were limited to \$16.50 a year. He had \$2000 in a local bank and is said to have more money in Indiana banks.

Egg In Contribution Plate.

Fremont, Neb.—When Rev. J. George Betzie, pastor of the First Baptist church, entered the church on a mission he was surprised to see a hen flutter out from under the pulpit. In his chase after the startled birdy Mr. Betzie found an egg in the contribution plate. The hen entered the church through an open window and evidently wanted to contribute her mite to the cause by laying an egg.

TURN your LOSSES into PROFITS

by using **EUKEKA Hog and Cattle POWDER**

Eureka Hog & Cattle Powder Co. 443 St. Clair St., Toledo, Ohio
I am using it and have excellent results. It is a great worm expeller and keeps stock in perfect condition. Very truly,
W. H. FREDERICK.

BLOODHOUND HAD A KEEN NOSE

Successfully Trails Clothes Thief on Old Scent From a Hanger.

Keokuk, Iowa.—Called to the trail only when it was between eight and ten hours old, and getting his scent from a coat hanger, a bloodhound established a record here when it trailed, without hesitancy, a man who had robbed a local clothes cleaning concern to the railroad station. Before making for the station, almost dragging the heavy-weight owner at the other end of the line, the animal trotted briskly through alleys and into a restaurant where the thief had stopped for lunch after the robbery. The stolen clothing was located in a hotel at Fort Madison, but the man who got away with them had fled from there and was not caught.

Recipes
Toast, Canadian Style—Toast slices of whole wheat or graham bread. Sprinkle lightly with salt. Pour over toast a brown gravy made of suet or other good fat, and thickened with scorched flour to give color. Served with stewed fruit.
Sweet Macaroni—Break a quarter of a pound of macaroni into small pieces and boil in two quarts of water with a large pinch of salt until tender; drain off water, add to the macaroni in stew pan a teaspoon of milk and just enough sugar to sweeten it. Keep shaking over the fire till all the milk is absorbed, add any flavoring and serve. Jelly may be served with the macaroni.
Stewed Apples and Rice—Peel good baking apples, take out the cores. Do not injure shape. Put into deep baking dish and pour over them a half pint of molasses or syrup. Into each apple put a shred of lemon and let bake very slowly till done, but not in the least broken. When done take out the lemon and put a little jam into each apple and between little heaps of well cooked rice. If the syrup seems too thin boil till it thickens. This may be served either hot or cold.
Macaroni and Salmon—Boil two cups macaroni broken in pieces until tender. Mix a tablespoon of oil from the salmon with two table-

spoons margarine and melt. Then blend with three tablespoons flour; add gradually two cups milk. Season to taste with salt and a very little red pepper. Boil three minutes, stirring constantly, in a buttered baking dish; arrange the macaroni and a pound can of salmon in layers, pouring some of the sauce over each layer of salmon. Cover the top layer with bread crumbs ("saved from the crumb jar"). Brown and serve hot.
Marshmallow Tapioca Pudding—(No eggs)—Soak two heaping tablespoons of tapioca over night. Drain and add to it one pint of milk and a very scant quarter of a cupful of sugar. Cook in a double boiler until it is clear; then add two dozen marshmallows, stirring until dissolved. Remove from the heat, flavor to taste with vanilla and serve cold. No meringue is required, as the pudding is light and delicate.
Stuffed Cabbage—Remove stalk end of head of cabbage. Leave hollow shell. Chop fine one pound round steak with one slice bacon, one onion; add one-half cup bread or cracker crumbs soaked in water and wrung dry; one beaten egg. Season with salt and pepper, mold in balls size of small egg and put in cabbage shell. Cover with pieces of green pepper or cabbage leaves and steam until tender. Put on platter and serve with tomato sauce. This with some potatoes makes a fine dinner.
Black Pudding—One cup molasses, two and one-half cups flour, two teaspoons baking powder, two-thirds cup boiling water, one scant teaspoon soda dissolved in boiling water, a little salt. Add spices and raisins to taste. Steam about three hours. Serve with either boiled or egg sauce.
Egg sauce—For one-half the pudding: Beat yolks of two eggs, add sugar to taste. Beat the two whites very stiff. Flavor with vanilla. Beat all together.
Or serve pudding with whipped cream.
The recipe will serve eight, but can be used one-half at a time. The rest steamed over when needed.
