Bro. Thomas J. Sneed, Alexandria, Tenn., \$2 for Organ. The friends of Temperance down in Tennessee, as our readers are aware, have commenced battling for the Maine Law, and they have gone to work in real earnest, and with a zeal and energy that knows no defeat. From every part of the State comes the good word that the rocks are rising in their might, determined to have the Maine Law. Bro. Sneed writes us such an encouraging letter, that we insert it almost entire. Read it, brethren—"Your noble little sheet is doing its work here. We want more light—a little more Grape, Captain Bragg, and the day is ours. The Temperance Ball moves steadily on; our Banner with the inscription, 'Total prohibition,' floats proudly on the breeze; numbers who are dram drinkers—common drunkards and occasional drunkards, are declaring in favor of total prohibition, and the Sons and friends of Temperance are coming en masse to the polls, determined to vote for no man for Governor, or members to our next Legislature, who does not declare himself avowedly in favor of a prohibitory law. We consider a prohibitory law paramount to all other considerations of legislative action, and will vote for the candidate who best meets our views, irrespective of party. You shall hear from me again soon. Accept my best wishes for your future prosperity and success in the noble enterprise in which you are engaged. May the principles you advocate finally triumph." We thank Bro. S., for his kind wishes, and hope that the Organ may ever merit and receive the patronage of such noble temperance men as him and his co-laborers.

Bro. O. Withrow, Washington, O., \$1. Bro. H. M. Moore, New Grenada, Pa., desires us to send a specimen of the Organ—complied with.

Bro. John Paxson, Walnut Grove, O., \$1 for Organ. Bro. P. gives us an interesting account of a meeting held in his town, which we regret, for want of room, we cannot insert. The meeting was ably addressed by Dr. J. Holmes and Lady, on the merits of the Maine Law. Mr. G. W. Wright then addressed the meeting in opposition, to which the good Dr. replied, in a short, pertinent address, completely demolishing the arguments of his opponent. A vote was then taken—those in favor of raise to their feet. All rose up, save Mr. Wright, and a liquor vender, and two others. Mr. W., we have no doubt, thought he was in bad company. We would have thought so any how. A vote of thanks was tendered to Mrs. Holmes for her efficient address. Being satisfied with their own town, they desired to know what was going on in other parts of the State; hence their clever subscription acknowledged above.

Bro. M. Lewis, Chillicothe, O., \$3 for Organ. Bro. D. says he is determined that the Organ shall have as good a circulation in the ancient capital, as any paper not published in his city. Of course we hope such may be the fact. Bro. D. Mercer, Williamsburgh, Noble co., O., \$1. Bro. J. A. Harvey, East Liverpool, O., \$1. Bro. W. H. Pennock, Marlborough, Stark co., O., \$20 for Organ. In his letter, Bro. P. says: "I have several more names which I will send soon. We are all wide awake and are determined to have the Maine Law, and nothing short of that will satisfy us. We are bound to vote for Maine Law men, and if Whigs and Democrats do not give us such men, we will take them out of our own party."

Bro. J. McFarland, Corsica, Morrow co., O., \$10 for Organ. All right, papers sent as desired. Bro. David Ross, Mt. Union, Stark co., O., \$4 for Organ. The Brother gives us some words of encouragement. He says he feels certain that the Maine Law will be adopted next winter. Bro. M. Schnyder, Attica, Seneca co., O., \$10 for Organ. Bro. J. W. Walker, Cedarville, Greene co., O., \$1 for Organ. Bro. W. informs us that this subscription is for a brother who formerly resided in Clifton, O., where the

"Presbyterian Still" was located. He adds: "And by the way, he is a member of Mr. Russell's Church, and thinks that the present dilapidated condition of that 'Still-house,' has been brought about by the influence of the 'Organ.' I passed through Clifton a few days ago, and I discovered that the 'smoke' that ascended up, had ceased, and the buildings looked as though they were some ancient ruins, that had been in the ware. If such has been the result of sending one paper, how important to endeavor to send an 'Organ' in the immediate vicinity of every Still-house in the State."

Bro. John Rattle, D. G. W. P., Ashtabula, O., \$1.

Bro. James R. Robertson, Erie, P. O., Roane co., Tenn., sends us the following letter: "I, as a friend to Temperance, wish to take a good Temperance paper, and in looking around, my attention has been directed to your paper, the Organ of the Temperance Reform. I will be obliged to you for a specimen number of this paper. I would like to make up a club which I think I can do if I had one or more numbers as specimens. East Tennessee is taking hold of the cause, and is determined never to relax its efforts until the Maine Law or its equivalent is passed by the Legislature."

Bro. W. C. Fergusson, New Holland, O., \$1 for Organ. The brother gives the following account of a meeting held in his village: "We had a very interesting Temperance meeting on last Saturday night, our Church was well filled. Rev. Bro. H. F. Green, delivered a most excellent address in behalf of Temperance generally, and the adoption of the constitution, and pledge of Perry Township Temperance Alliance particularly. At the close, the pledge was circulated, and some seventy or eighty signed it. The constitution and pledge as adopted was the same as that of the Franklin County Alliance, published in the Organ a few weeks ago, but altered to suit this locality. I believe our march is onward and upward. But we have still a great work to perform, and must still keep our shoulder to the wheels of the Temperance car, until we crush all opposition. Then may the long and loud shout ascend to Heaven—We are redeemed, Ohio is free. Then indeed will there be rejoicing among those who have felt most bitterly the wrongs heaped upon them by the monster Intemperance. May God speed the right."

W. W. Cox, P. M., West Liberty, Ky.—The package was sent to West Liberty, Ohio. The mistake has been rectified. Bro. Wm. Bremigan, G. S., Circleville, O. We have complied with your request. We feel it a duty as well as a privilege, to say that Bro. B. has done much good for the Organ, in circulating prospectuses, &c. Bro. J. A. Haines, P. M., East Richland, co., letter received. The notices were sent in mistake. The club does not expire until No. 81.

Bro. R. Bidgway, Hendrysburch, O., \$1 for Organ. We are glad to learn from Bro. R. that they are prospering finely. His Division, No. 414, is doing well, and patronizes the Organ very liberally. We do not understand what the brother aims at in the latter part of his letter. We have no intention to misrepresent facts. Will the brother explain?

Bro. W. Bremigan, Circleville, Ohio \$9 for Organ. Bro. G. H. Black, Delhi, Delaware, Co., O., \$2 for Organ. The brother gives us an excellent account of the state of the cause in his vicinity. They are all right, and are determined to continue so until the final announcement of our triumph. Of the influence of the Organ the brother says: "Your paper is doing much good in our little town and vicinity, and we intend to double our present number, if exertion on our part will do it."

Bro. A. E. Merritt, Waynesville, O., \$10 for Organ. The brother gives us a rather gloomy picture. Hear him: "Temperance is flat down, with no appearance of a revival. Our Division has the name of still being alive." We hope to have a better account the next time the brother writes us. Bro. Wm. Pries, Monroeville, Huron Co., O., \$3 for Tracts. Bro. John Mullin, Springboro, O., \$10 for Organ.

Among the passengers from Australia, in the Indian mail steamer Ripon, was a gentleman, who has made a rapid fortune, amounting to £75,000 by gold dealings in that country.

HAY—The demand from the South noticed in our last has fallen off, and the business is again confined to the home trade, but in prices there is no change. We quote sold from landing 90 @ 100 @ ton, embracing ordinary and prime.

MOJASSES—The market continues dull, and with the exception of about 400 bbls, which sold from the landing at 25c, in two lots, the sales have been confined to small parcels at 25 to 30c, according to quality. The imports of the week, ending Saturday, were 201 bbls, and from the first of September, 67,726 bbls against 45,518, the same time last season. The exports of the week, ending Saturday, were 2071 bbls, and from the first of September 40,820 bbls against 23,294 the same time last season. PAINTS—The market for White Lead remains firm at 42 50 for pure; Red Lead and Litharge have advanced to 7 1/2 @ 8c.

PROVISIONS—There was a slightly improved feeling manifested in the market for hog products, subsequently to our last weekly report, but this resulted in nothing of importance, and it has since been entirely lost, and the market closes heavy for every article. The transactions, as far as reported to us, comprised of 401 Pork, 1100 hogs Mess in lots at \$14 50; 100 do Kumps at \$19 75, and 100 do do \$21, buyers at close contending for a further concession. Of bulk Meat, 1500 @ 1/2 shoulders on Wednesday at 24c, 100,000 do do on Monday and yesterday, in lots, at 25c, 100,000 do sides at 24c, closing at 24 1/2 for shoulders and 24c for sides. Of Lard, 271 bbls No 1 on Friday at 49 50, 140 do at 48 50 do head at 48 75 on Saturday at 48c, 100 do No 1 at 48c, holders at close asking 46 for prime bbl, and 44 1/2 for do Reg. The demand is very limited, but there is none pressing on the market, the stock being regarded as not equal to the wants of city manufacturers.

RICE—The market remains firm at 14 @ 14 1/2, the latter for small lots.

SALT—In foreign we heard of no transactions, and prices are nominally unchanged, for domestic, there is a fair demand at 25c for Kanawha and Mason county.

SALTPETRE—We notice further sales of crude at 7 1/2 @ 8 @ lb, at which the market is steady.

SHOT is firm at 82 @ 83 @ bag and 2 1/2 @ 3 @ keg.

SUGAR.—The demand has been only moderate, but no change has taken place in prices. The sales of the week add up about 600 hhd., at 5 to 6 for fair to prime; some parcels common and low rate, sales at 4 to 4 1/2. But such grades not in much request. The imports for the week ending Saturday, were 2219 hhd., and from the first of September 25183 hhd., against 12063, the same time last season. The exports for the week were 924 hhd., and from the first of September 10225 hhd., against 5061, the same time last year. Prices being lower in this market than at the East, has caused an increased demand from the North and East, which accounts in part, for the great increase in the trade this season, as indicated by the exports this season and last. This remark will, also, apply to Molasses.

STEAMERS—There is a good demand for this article at prices varying from 2 1/2 to 3c, according to quality.

TIN PLATE—The large advance which has been established in this article in England, and in the eastern markets, and the still more favorable advices from England, by the Africa, has caused a speculative demand with us, and yesterday holders were asking a material advance, the market closing unsettled.

TALLOW—There is a fair demand for rendered at 9 1/2 @ 10c, the latter rate for prime, with sales of 100 and 120 tierces at 8c, rough is saleable at 4 @ 4 1/2c.

VEGETABLES—Potatoes continue extremely dull, and fair descriptions are offered at 2c @ 2 1/2 @ bushel. Onions are plenty and dull at 35c @ bushel. There is little or no demand from the South for either.

WHISKY—The market has been very steady during the week, and with the exception of a few small lots, high proof, which sold at 18 @ 18 1/2c, the current rate has been 15c. Heavy imports from St. Louis caused the decline from the closing rates of last Tuesday, which were 16 1/2c, but on Wednesday morning prices opened at our quotations.

WOOL—There is a good demand for pulled at 40 @ 42 1/2c, clear washed, with sales to a fair extent at these figures. We hear of no demand for the new clip for future delivery.
