## HUMANITARIAN SIDE OF WAR SHOWN BY BRITISH SURGEONS

### A FEW OF 10,000 ANALYSES.

#### Artificial Watermelon One Thing Submitted to the Health Board.

There is an analytical department connected with the division of laboratories of the Board of Health and any person who does not think that it is a busy department is mistaken, says the New York Sun. As many as 10,000 demands for analyses are made upon it each year and the diligence of those in charge is shown by the fact that at the end of the year there are never more than twenty-five or thirty cases awaiting a report.

Some of the demands are peculiar. One applicant demanded and obtained an analysis of a piece of soap; another, of a "pan said to contain pudding."

There were two analyses of ginger, one of honey, one of hair restorer, one of orange marmalade, two of olive oil, one of pfe, seven of opium, and one—only one—of whiskey.

Only three specimens of candy were sent in for analysis during the period covered by the last report, only two of butter and only two of bread, but there was one analysis of artificial watermelon, two of ground mustard two of theater extracts, one of "tea in pitcher," and one of a piece of clay.

There does not appear to have been any analysis of wood alcohol, but there were four of ice cream. There was one official analysis of "beef and."

The chief work of this department of the division of laboratories is the analysis of milk and water.

#### French Army Drum.

One of the principal reasons for the final abandonment of the drum in the French army is the new short-term service. It takes a year and a half to make a drummer, so that no sooner would the French drummer have become proficient than he would begin to get ready to return to civil life.

#### Climate of Rome.

Gales are very rare in Rome and never blow with extreme violence. The most striking peculiarity of the Roman climate is the absence of high winds. The air is pure and clear owing to the almost complete absence of smoke, even in the winter months.

#### VEGETABLE SALAD

Diced tomatoes, cucumbers, onion (chopped) and a little chopped green pepper. Put together with mayonnaise dressing and serve on lettuce leaf.

### BIG PEACH CROP IS PROMISED FROM OTTAWA COUNTY

Port Clinton.—That it will cost a nice bunch of money to place net covers on the peach baskets in Ottawa county this year can be realized by the first order which has just been placed for netting by the various fruit companies of the county.

This order is for 825,000 bushel covers and 70,000 peck basket covers, and will call for a cash price of \$16,350. It was awarded to the Beach Co., of Oak Harbor. It is the largest single order ever placed for netting in the history of peach growing in Ottawa county. The net covers will cost 19-10 of a cent each.

The early figures on the crop have been placed at 1,200,000 bushels, which is 400 cars more than in 1915, a bumper crop in this section. Fruit growers are already speculating as to what the outlook will be for good prices this year.

### PARADE FOR BABIES

Week of Work for Infant Begins at Cleveland

CLEVELAND, O.—Better baby parade thru downtown streets initiated a nine-day educational and financial campaign conducted on behalf of the Babies' Dispensary and Hospital by the film industry of Cleveland. Motion pictures will carry on the campaign in local motion picture theaters this week. The parade was in six sections representing everybody interested in the present fight for "better babies for a better Cleveland."

### BUILDING BOOM IS ON

FINDLAY, O.—Building permits show an increase of \$50,000 for the month of May over the same month last year. A big building boom is on here now.

### LIMA HAS PARADE FOR PREPAREDNESS

LIMA, O.—Six thousand preparedness advocates marched in a parade last week, every marcher carrying a flag. The city was decorated for the occasion.

The Lima Locomotive plant and the Garford Motor Truck Company furnished almost half of the parade, and the local schools contributed a large number of the participants.

### AMHERST VICTIMS RECOVER

ELYRIA, June 2.—Mr. and Mrs. Louis Patterson, the second couple to be confined to Memorial Hospital since the triple New York Central wreck at Amherst, March 29, in which 27 were killed and 47 injured, were discharged today from the local hospital and left for their home in Youngstown, O. Five victims of the wreck still remain confined in the hospital here.

### PERILS OF WORKSHOPS

Ohio workmen to the number of 616 lost their lives in industries in the eighteen months ending June 30, 1914.

In the same period, 2,417 Ohio workmen were victims of industrial accidents which disabled them for life, and 96,952 workmen received injuries which laid them off temporarily.

TOLEDO, O.—Reports of a great motor car and motor supplies merger was confirmed by President John N. Willys of the Overland company upon his return here from New York city.

The new merger includes several of the largest automobile and auto supplies companies in the country, including the Toledo Auto-Lite Co. The industrial combination is capitalized at \$200,000,000.

## MICHIGAN ITEMS OF INTEREST TO OHIO READERS

### LUMBER PRODUCTION IN U. S. SHOWS LOSS

WASHINGTON.—Lumber production of the United States in 1915 was 5 per cent less than that of 1914, according to an estimate made public today by the United States forest service. It was computed that the total cut was 37,013,294,000 board feet, and the figure was based on reports from 17,000 of the 30,000 saw mills in the United States.

The decrease in the southern pine states was 3 per cent, in the western states, 2 per cent and in the central and northern states 14 per cent. States in the order of their production were Washington, Louisiana, Mississippi, North Carolina, Arkansas, Texas and Oregon. Increased cuts occurred in Texas, Florida, Pennsylvania and South Carolina, while these states declined: North Carolina, Oregon, Wisconsin, California, Michigan and Minnesota.

### FOUND DEAD ON BEACH; LUMBERJACKS ARRESTED

CHEBOYGAN, Mich.—Frank Baker and Frank Bird, lumberjacks, have been brought here under arrest. They are suspected of knowing something about the death of John Shanley, a Petoskey farmer, who was found dead on the beach near Mackinaw City Saturday. Shanley had a bruise on his head, and over \$10 in his pockets when found. He was last seen alive in the company of Baker and Bird.

### MANITOBA LIQUOR BAN TAKES EFFECT TODAY

WINNIPEG, Man.—Liquor can no longer legally be sold over the bars and in warehouses in Manitoba. Householders will be allowed to have liquor on their premises, but hotels, rooming houses and bachelors' quarters are barred. Of the 66 hotels in Winnipeg, one-third will go out of business.

### ROBBED, AGE CREEPING ON, HE ELECTS TO DIE

CALUMET, Mich.—Because he had lost faith in his fellow man after being robbed of \$200 here and done out of \$1,000 in a deal in which he invested his capital at Cobalt, Ont., George Brown, 65 years old, shot himself to death in a local hotel. He was without family or friends and too old to get work.

### ESCANABA.—A human flag was formed by 2,500 local school children June 2, when a big pageant was staged on the water front. The production included the petrification of the days when Indians camped where the city is now located, the landing of Father Marquette, a water fight between the Menominee and Chippewa Indians and the settling here of people of 16 nationalities. The characters included children whose parents are French, Swedish, Austrian, German, Russian, Japanese, Italian, Irish, Polish, Norwegian, Danish, Scotch, Dutch, Belgian, Hungarian and Finnish.

### SUFFRAGISTS ATTEND CHICAGO CONVENTION.

Michigan sent a large delegation to the woman's party convention which open in Chicago, June 5. Fifteen prominent Detroiters, prominent in suffrage circles went, headed by Mrs. George Hendrie, chairman of the Michigan delegation.

ANN ARBOR.—The literacy department of the University of Michigan is to be made more difficult by adding Saturday classes and raising the standard of work required. The attendance at military training camps during the summer will count as two hours towards graduation.—A committee composed principally of faculty men will canvass the faculty of the University of Michigan and tabulate the attitude of the professors on state-wide prohibition.

#### A Forest of Giants.

It is almost impossible for one who has seen only the Eastern or Rocky Mountain forests to imagine the woods of the Pacific coast. Pictures of the big trees are as common as postage stamps, but the most wonderful thing about the big trees is that they are scarcely bigger than the rest of the forest.

The Pacific coast bears only a tenth of our woodland, but nearly half of our timber. An average acre in the Rocky Mountain forest yields one to two thousand board feet of timber, in the Southern forest three to four thousand, in the Northern forest four to six thousand.

An average acre on the Pacific coast yields fifteen to twenty thousand. Telescope the Southern and Rocky Mountain forests, toss the Northern on top of them, and stuff the central into the chinks, and, acre for acre, the Pacific forest will outweigh them all.—American Magazine.

#### Remarkable Printing Press.

The University Press at Oxford is the most remarkable printing establishment in the world, as well as the one of the oldest. It is what you might call self-contained, and if everything else pertaining to printing were blotted off the face of the earth to-morrow the University Press would go right ahead as if nothing had happened. It makes its own type and its own ink; carries its own charcoal for making the ink, makes its own paper, and so on. The workmen in the Press are as interesting as the establishment itself. In many instances son has succeeded father down the centuries in its employ, as naturally as if the son was his lordship and the father an earl and the position an entailed estate.—London Tit-Bits.

#### Women as Architects.

In every line of work women are coming forward with proofs of their ability, but in no profession is this advancement so noticeable as that of architecture. By way of example, the prize given by the Boston Society of Architects for the best architectural design submitted by a graduate of the Massachusetts Institute of Technology was won by Miss Ida Ryan, who is the first woman to secure this prize. As further proof of the recognition that is being accorded her, Miss Ryan attended this year a banquet of the Boston Society of Architects. This was the first time that a woman has been so honored.

WITH BRITISH ARMY DOCTOR, IN MACEDONIA FROM THE SPHERA.

The Macedonian villagers are on the very best of terms with the British troops who are quartered with them; this entente has been firmly cemented in many unofficial ways, as the picture above illustrates. The regimental doctor in his spare time devotes himself to quite a number of civil patients to whom he gives relief. While the doctor dispenses medicines in his open air consulting room below the two family cats discuss communal affairs on the tiles above.

## Household Hints

### REMOVE STAINS

When white oil cloth is stained by coffee, try rubbing with common baking soda.

To rub tea stains from cups, use common baking soda, rubbing with damp cloth.

Fruit Stains—Pour boiling water through or use alcohol.

Chocolate or Cocoa—Wash in cold water, then pour boiling water through.

Blood—Soak in cold water or in water with salt. When stain is nearly gone, use soap and water, or starch paste.

Mildew—If fresh, wet in strong suds, cover with paste of salt and soap, and put in sun.

Ink—If stain is fresh allow the part stained to stand in milk. For an old stain, wet with cold water, then immerse stained part in diluted solution of oxalic acid; remove, rinse in ammonia water.

To remove ink spots from clothing wet spots with milk, sour is best. Rub a piece of lemon on some salt and rub this on the spot a few times. A few applications will bring required results.

### THE TABLE

Apple Balls—Peel large red apples and, with a potato scoop, cut out balls and drop them into water with a little vinegar to keep them white. Prepare a mixture of grapefruit pulp, pineapple, banana and orange, and put it into glasses, add a few of the little white balls to each, pour.

Cheese Fondue—One cup scalded milk, 1 cup soft stale bread crumbs, 1-4 lb. mild cheese (small pieces), 3 tablespoon butter, 1-2 teaspoon salt yoke 3 eggs.

Mix first five ingredients, add yolk of eggs beaten until stiff. Pour in buttered baking dish and bake 20 minutes in a moderate oven. Before putting in baking dish cut and fold 1 egg whites.

Fig Pudding—Cut figs in 1-2 inch pieces; chop English walnut meat with them; add together by the beat on white of an egg. Put in a greased pan and place on top marshmallows. Place in oven just long enough to heat thoroughly. Cut in squares and serve with whipped cream.

### BANANA SALAD

Peel bananas and split lengthwise. Sprinkle each half with chopped nuts and add a tablespoon of sweet dressing.

Pressed Veal (a method for using a cheap cut of meat)—Cook with a shank of veal until very tender, so that the meat can be easily picked to pieces. Let the water cook down until about 1 cup of the liquid remains. Pick the veal apart, season with salt, pepper and sage. Pour the liquid from the vessel in which the meat was cooked over this. Mix thoroughly and pack closely in a pan of proper shape to make nice slices when the meat is cold. When set, cut in thin slices and serve. Hard-boiled eggs may be added.

### EGGS A LA GOLDENROD

Three hard-cooked eggs, 1-2 teaspoon of salt, pepper, 4 slices of toast.

1 tablespoon of butter, 1 tablespoon of flour, 1 cup of milk. Make a white sauce with milk, butter and flour. 1 cup of milk. Make a white sauce with milk, butter and flour. Separate yolks from whites of eggs. Chop white and add to the white sauce. Arrange toast on a hot platter and pour over it. Force yolks through a potato ricer over the toast and sauce.

### GRAHAM GEMS

One cup graham flour, 1 cup white flour, 1 egg, 1 teaspoon baking powder (Rumford), 1 teaspoon salt, 2 tablespoons melted crisco.

Beat egg well, add 1 cup milk, sift in flour, baking powder and salt; add melted butter and bake in gem pans about 20 minutes in hot oven.

### PINEAPPLE DELIGHT

One can chopped pineapple (15c size), 1 egg, 1 cup sugar, juice 1 lemon. Cook all about 15 minutes. Then add 2 teaspoons gelatin (dissolved in water) and set aside to congeal. Whip 1 pint cream stiff and when gelatin is about set, beat in cream and let congeal.

## For Graduation and Children's Day Shoes In Black and White

A high grade shoe of beautiful design, perfect in fit, finest selected material throughout. Comes in patent leather with white reignskin cloth top (easy to clean), also in soft black kid with white reignskin top; midget eyelets, tango laces; some have tips, others are plain toes.

Children's sizes 8½ to 11 (spring heels), are .....\$3.50  
Misses' Sizes 11½ to 2 (low heels) .....\$4.00  
Ladies' sizes, 2½ to 7 to 7 (low heels) .....\$5.00
