The Successful Man

says "A look into the future is a wise precaution." You will find that men who have made their mark in life and attained the greatest measure of success were individuals who were foresighted. They knew the advantage to be derived by the judicious saving of a part of their earnings. Why not follow the footsteps of the successful and open a bank account with a reliable institution?

Year's Sleep in Prison.

A remarkable case of lethargy is reported from one of the towns in South Russia. A certain Moisselyinko was put on his trial in March of last year on the charge of having committed an armed robbery, but in the midst of the proceedings he dropped to the floor in what was supposed at the time to be a fainting fit, but which afterward proved a lethargic sleep.

In this condition the prisoner has lain till March 8 of the present year. He has evidently been all the time in complete possession of his wits, but was unable to move a limb, open his eyes or take food. When his eyelids were raised the pupils could be seen, and he was all the time fed by artificial means.

During his sleep he has lost some weight, but he has kept throughout the external appearance of a man in normal and healthy sleep.

Captain's Specific Orders.
Capt. John I. Lewis, an official of the Arundel Sand and Gravel company of Baltimore, has toured the world. Captain Lewis in recalling some of his trips said that he met a friend one time, and they talked of the dangers of icebergs.

He remembered that his friend, also a tourist, said:
"One night while returning from Europe I came out on deck. It was so foggy that nothing could be seen. The captain of the ship was walking the deck and I approached him and said:
"How fast are we going?"
"The master replied, "Twenty-two miles an hour."
"Is not that a violation of the law?" I asked. The captain admitted that it was.
"Then I asked, 'Why do you run so fast through a fog?'"
"The captain replied, 'My official standing orders are 'Heaven, hell or New York in five days.'"
