RALPH S. GILLESPIE.

To Republicans.

I will be a candidate for the Republican nomination for County Treasurer subject to the primaries, August 11th, 1914. Your influence and vote will be appreciated.

CHARLES A. PATTERSON.

We suppose it is a good thing for the human race that some society women prefer dogs to children, but it is rough on the dogs.

A man in San Francisco says his home has been broken up by his wife's devotion to politics and clubs. Another invasion of man's ancient prerogatives.

The English bishops in favor of striking "obey" from the marriage service must have somewhere encountered the classic phrase of "innocuous demutude."

A Boston statistician has figured that woman's value is twice that of man, and it might be added that she usually draws interest on the full assessment.

King George is a regular fellow. He let the movie man take pictures of him as he watched the ball game. That alone will insure his popularity in America.

The Paris newspaper man recently fitted out with an armored skull possibly intends to compete against the superb ivory equipment of our own rumor chasers.

Prof. Erlich, the great chemical authority in the medical line, predicts that medical science will undergo a revolution in about ten years. A revolution in medicine is about due, to keep up with changes in fashion.

A lady theorist wants criminals tattooed with marks of their special crime. This would be a fine way to help along their reformation, to say nothing of the affront to the tendency of the age. Perhaps it would help some to mark the theorists themselves in the same way.

Manager McGraw's report of the new slang terms in the way Austrians and Egyptians tell the story of baseball—one game being to describe a catch as "pouched in the tea-cozy"—arouses expectations of a foreign trip for sporting editors to win freshness for baseball accounts.

Folly in fashion has reached its logical extreme in the reported attempt of Paris style autocrats to force fastidious coiffures of green, purple, red and other colors on women wearers. Just now, when women are battling for independence along every line, the outcome of this attempted tyranny will be interesting.

HERE'S A WAY TO SAVE DOCTOR BILLS.

Physicians Give Free Advice by Which Parents May Profit.

It's a matter of general interest just how one's physical condition can be got into shape to best receive the benefits of the summer season. Especially is this true of the children. They have become run down by a winter of unnatural manner of living because of ill-considered food and much time spent indoors. Spring comes with its sunshine, its fresh vegetables and all else invigorating, but the children are in no condition to receive nature's remedies. Many parents call in the family physician. Many other parents take advantage of what the physician told them when he was first called in consultation. All good family physicians

International Harvester Cream Separators

A DAIRY farmer who does not use a cream separator is losing up to \$15 per cow per year. Complete your dairy equipment by the purchase of an International Harvester cream separator—Lily, Blusbell or Dairymaid. These separators skim closely—leaving barely a drop of cream in a gallon of milk—and they will do it for years. These machines are furnished with pulleys for the use of power. Belted to a small I H C engine, you have the best outfit it is possible for you to buy. Note the low supply can on I H C separators, the height of the milk spout which allows a 16-gallon can to be used for the skim milk, the strong frame with open base which can be kept perfectly clean, and the dozen other features which make these I H C machines the best. Your local dealer should have one of these machines on sale. If he has not, write us before you buy and we will tell you where you can see one; also send you an interesting book on separators.
