—Medina county's contribution toward the fund for the war sufferers in Belgium are pouring in from all over the county. Many and large contributions are expected to be made today and for that reason we are unable to give the total amount raised, nor do we feel justified in even approximating the figure. It is known however, that schools and churches have been responding very generously and that the various banks of the county are receiving numerous substantial checks from business men whose hearts are in the right place. If you have not given something toward furthering this righteous movement, today is a most fitting occasion for doing so. While we are enjoying peace and plenty today surrounded by loved ones, let us not be unmindful of our duty to those who are less fortunate and in dire misery and distress.
