NOTICE TO PARTIES BY PUBLICATION.

Louis C. Schnell, Julia S. Schnell, and A. F. Heffinger, whose residences are unknown, will take notice that The Old Phoenix National Bank, of Medina, Ohio, on the fourteenth day of February, nineteen hundred and twenty (Feb. 14, 1920) filed its petition in the Common Pleas Court of Medina County, Ohio, alleging that the defendants Louis C. Schnell and Julia S. Schnell executed and delivered to the defendant F. O. Phillips one (1) promissory note for the sum of thirty-five hundred dollars (\$3500.00), dated July 3d, 1917, and payable on or before one year after date, and at the same time executed and delivered to said defendant a mortgage upon the real estate described in the petition to secure the payment of said note; that the defendant F. O. Phillips for a valuable consideration before said note became due sold, assigned and transferred said note to the plaintiff herein and the plaintiff herein is now owner and holder of said note and mortgage, and that no part of the same has been paid except interest thereon to July 3d, 1919. That said note is long past due; that the conditions of said mortgage have been broken, and that the plaintiff claims there is due it thereon the sum of thirty-five hundred and five dollars (\$3505.00) with interest from and after January 3d, 1920. The prayer of the petition asks that the sum of said note and that said mortgage may be foreclosed and said premises ordered sold according to law and out of the proceeds arising therefrom the plaintiff may be paid the amount due it on said note and mortgage, and for such other and further relief as may be just. The said Louis C. Schnell, Julia S. Schnell, and A. F. Heffinger are hereby notified that they have been made parties defendant to said petition, and that they are required to answer the same on or before the 24th day of April, 1920.

FROM OUR MAIL BAG... We assume no responsibility for sentiments herein expressed; we print these letters to give to our readers some say on topics of general interest.

Editor Sentinel: There is an old man in this town who is 83 years old. For forty years he was a regular contributor to one of the churches in this city, a good neighbor and one who was always doing good to his neighbor. A few years ago his wife died and he had the home they occupied to an altruistic organization to which she belonged, and away from her husband. The society recognizing the injustice, sold it to a nephew of the old man with conditions calculated to protect the old man; this society tried to do the right thing. Now the nephew and his wife, and especially the wife, are not caring for the uncle and are slowly starving him to death. He is forced to go to the neighbors for food. The church to which he belonged are offering up prayers for him but so far few leaves and fishes have stuck to them. The belief is general that the young people are trying to starve him into the infirmary, and the niece is said to have declared that he had already lived too long and they wished to get rid of him. As he has always been a good citizen and did what he could for bettering the world, don't you think Mr. Editor, that the world owes him a little something? We think so and hope to see something done in the matter. LAZARUS

OBERLIN ORGANIZES NEW POLITICAL PARTY

Platform of the Oberlin Independent Voters' Club organized on Feb. 23, 1920, at a Washington's Birthday gathering of professors, students and citizens. Whereas, There is a tendency in the two major political parties to cease to represent divergent political purposes and to evade a positive stand on the vital issue of the day, their politicians in each case seemingly having as their object the securing of offices from the other; and Whereas, There is thus created a condition in which voters with disinterested democratic purposes are handicapped in making themselves effective in constructive political action, be it hereby Resolved, That we form The Oberlin Independent Voters' Club with the following purposes: 1. To analyze the meaning of ambiguous popular slogans used by both parties to catch the unthinking voters, such as "Americanization," "100 per cent Americanism," "Law and Order," "Sedition", etc., and to examine with care the position of candidates on these questions and also on questions of foreign policy and the relations of capital and labor, demanding that their attitudes be broad and constructive, rather than narrow and obstructive. 2. To consider with open minded sympathy all positive proposals to meet the present complex political, social, and economic problems, such as proportional representation, co-operation, the Plumb plan, new parties, etc. We do not, however, pledge ourselves to support all or any of these movements at the present time; but we recognize in them serious attempts to solve world problems, such as many citizens feel are not being made by the two leading parties.

INFORMATION DESIRED BY CO. HEALTH OFFICER

(In type, but unavoidably held over from last week's Sentinel.)

The Health Department of the county desires very much to obtain information relative to anything effecting the health of the public in any way, in order that any condition of this kind may be corrected as speedily as possible. In getting such information we must depend largely on the cooperation of the public. If there is anything that has come to your notice that would in your estimation effect the health of the people, wish you would advise this office by letter. All letters will be treated as strictly confidential and your name used in no way, but no attention will be given any communication unsigned.

The Health Department will take care of nuisances in so far as they effect the health of the people and can only be taken care of thru civil suit. Will be very glad however, to answer any questions regarding this condition you may have. One of the things we wish to eliminate at once is the sale of food or food products in a restaurant, store, or other places by anyone suffering from tuberculosis or any communicable disease. If you are aware of anything of this kind, a letter stating the facts will be much appreciated.

R. A. BRINTNALL.

District Health Commissioner, Medina County.

Everybody welcome. Watch the Sentinel next week for a full program. The play given by the young people of Medina at our school house was not very well attended, owing to a very bad night. We hope you will come again and if the weather is favorable you will have a full house. Blake Kulp has gone to the Chatham oil fields to work, he will move there if he can rent or buy a house. CHIPPEWA LAKE

Harve Patterson and family were visitors at George Young's several days last week. Mrs. Sophia Carlton died at home of her daughter, Mrs. Bowman, in Medina Saturday morning. Funeral and burial were at the northwest church Monday afternoon. Henry Young and wife were in Akron a couple of days last week. Mrs. Alta Airhart's house caught fire Sunday morning, but was put out before the fire engine got there. John Dundas is moving from the farm to his place at the lake today. W. H. Townsend and A. H. Loehr were in Cleveland on business Monday. The township trustees have been filling in some of the bad places in our streets with slag the past few days. This is a good idea and we hope they will be able to do a whole lot more of it.

Lasts Saturday evening one of our young men went to LeRoy to spend the week end with his "tootsie wootsie," as he calls her, also to give her a ride in his Winton Six. All went well until he struck dirt road a little ways out of Lodi, and there they got stuck in the mud and hired a man team to pull them out. This cost him two dollars. During the operation he got "hung up" on the barbed wire fence at the side of the road, and it took two men and a boy to pry him loose, as he says the fence seemed to be considerably attached to him. During this operation his pants and temper suffered more than the fence did. He then took the young lady home, and as his clothes were badly damaged by mud and his contact with the wire fence, concluded to return to Chippewa Lake, which he did, a "sadder but wiser man."
