"The Charge for the Coming Campaign."

We clip the following item from a late number of the Cincinnati Commercial:

Henry Ward Beecher has a political Star paper in this week's Independent, and sounding the charge for the coming campaign. Here is a passage from this document, which will show its spirit:

Another ten years like the last ten, and our Courts will have silently revolutionized our Constitution. *Judicial Construction* is purging our law of liberty, and putting an iron rod into the hands of our Constitution, with which to crush that very sanctity of human right for whose protection it was ordained. The Supreme Court of the United States is an enemy of liberty, and the friend of bondage. And, like a great heart, it is sending out despotic blood through every artery of the government. Our evil is desperate, our danger critical. If taken now, it may be overcome. If deferred, it will by and by, demand a hundred-fold exertion, or else defy all effort. The slave trade is opened, and volcanic, Africa again streams lava upon our shores. The Court is preparing the way, step by step, for the supremacy of slavery in every part of this continent.

One of the great and vital questions to be decided in the approaching presidential contest, is whether this government is to be administered in accordance with the provisions of the constitution, or in disregard of them.

The "spirit" of the above article is, that the Supreme Court of the United States is not to be regarded and sustained as the expounder of the constitution, and of the *constitutionality* of the laws of Congress.

Under our system of government there MUST necessarily be SOME TRIBUNAL OF ULTIMATE RESORT for the *decision* of conflicting views and opinions, upon questions involving constitutional rights. If it were not so, there would be endless controversy, turmoil and agitation. No government of law can exist, unless such tribunal is established and its decisions enforced and sustained, until legally reversed.

"Judicial construction," the reverend champion of abolitionism tells us "is *purging our law of liberty and putting an iron rod into the hands of our Constitution with which to crush that very sanctity of human right for whose protection it was ordained.*" Suppose we strip this idea for a little while, of its incongruous verbiage, and see what it means. "*Purging* law of liberty", and putting an *iron rod* into the *hands* of the constitution" may all be very fine imagery, but *what does it mean?* Now if it means any thing, it means that the Supreme Court of the United States, in deciding that *Congress* has no constitutional power to forbid the relation of slavery in the territories of the *United* States, has excluded *liberty* from law. What liberty has it encroached upon? Has it made any negro a slave who was free? Has it forbidden any man to emigrate to any territory or put him upon any different terms in his occupancy of such territory from those granted to other citizens? Certainly not. How then has this "purging" process been done? The "LAW" which the decision of the Supreme Court has laid down simply is this; that a Southern man has a right to emigrate to a territory with his slave, at least so far as *Congressional intervention* is concerned. Almost any just man, especially a truly christian minister might reasonably suppose, that in territories acquired by the joint exertions, by the joint blood and treasure of slave holding and non slave holding states, the citizens of the former ought to have the same rights in such territories with their property, that citizens of the latter have with theirs. Is there any thing monstrous in this?

But again—"an *iron rod* is placed in the hands of the Constitution by judicial construction, to crush the very sanctity of human right for whose protection it was ordained."

Let us see. What "sanctity of human right" was the Constitution of the United States ordained to protect? The reverend gentleman would have us imply that it was something like *freedom from slavery.* That is notoriously not true. When that constitution was ordained, all the States with one exception were slaveholding States. The relation of master and slave was recognized in the most marked and positive manner. It is only necessary to refer, upon this point, to the express constitutional provision requiring the rendition of fugitive slaves, and the legislation of '92 pursuant thereto. Nay more—this atrocious SLAVE TRADE, which Mr. Beecher's indignant fancy paints as the "lava" that "volcanic Africa" "streamed upon our shores," WAS ALLOWED TO CONTINUE UNCHECKED BY ANY LAW until the year 1808, which was twenty years from the time that the protective provision WAS INSERTED IN THE CONSTITUTION OF THE UNITED STATES.

Let us turn to the language of the Constitution in reference to this matter, not for the purpose of casting any odium upon the wisest and most patriotic assembly of men that ever met together, but to arrest this cant of modern days, that the "sanctity of human rights," violated as is claimed in the institution of slavery, was so precious in the eyes of the framers of the Constitution.

It is section 9 of Article First—to-wit:

"The migration or importation of such persons as any of the States now existing shall think proper to admit, shall not be *prohibited by Congress* prior to the year 1808, but a tax or duty may be imposed on such importation not exceeding ten dollars for each person."

Here stands a provision incorporated into the Constitution of the United States by those by whom it was ordained, interdicting the exercise of the power by Congress, who otherwise would have possessed it, to arrest the lava stream that volcanic Africa was then pouring upon our shores!!!

What does this provision teach us; this recognition and virtual PROTECTION of that "inhuman traffic" which has since received the condemnation of the civilized world and has been declared PIRACY.!!! How can the framers of the Constitution of the United States in the estimation of Henry Ward Beecher, and such as he, escape the withering curse of God for having legalized and protected the importation of slaves into the United States from 1789 until 1808?

It is fortunate indeed for our common humanity, that there is a wise, a merciful, and a just God—whose decrees are far above the varying judgment of succeeding generations of men, and uninfluenced by the passions, the interests or the prejudices that, alternately sway the actions of mankind.

Who indeed but the most inveterate and hopeless bigot or fanatic, believes that those great and good men who laid for us the firm foundations of empire and gave to the world an example of moderation and wisdom, that will stand forever on the records of human history as an honor to the race, have met the condemnation of their Maker, for having permitted the continuance of the slave traffic. Alas! if human judgments were to be carried into execution the whole race would be consigned to endless perdition.—No—the action of the framers of the Constitution is capable of a complete defence—up to that time the slave trade had been tolerated and encouraged by civilized nations.

In the courtly age of Elizabeth of England, with the approbation of that Queen of Queens, the slave trade was not only tolerated but protected and fostered. Its monopoly was transferred from one to another of those kingdoms, that have united in pronouncing it piracy, and vast sums were successively realized from those transfers.—Besides, when the convention sat, in 1787, the citizens of many of the States North as well as South were deeply implicated by the investment of capital in the slave trade which was regarded, by other nations of the world as a legitimate traffic. In addition to this many States desired a further increase of their industrial force, and it was under all these circumstances, for the great interior purpose of forming a more perfect union, establishing justice, insuring domestic tranquility, and securing the blessings of liberty to themselves and their posterity, that our forefathers ordained and established the constitution that still stands with the provision in it to which we have alluded.

That constitution establishes a Judiciary department of the Federal government. It is the Constitutional province of that Department, indeed its bounden duty, to decide questions of Constitutional exercise of power, where such exercise of power infringes upon individual rights. The right of a slaveholder to own and hold his slave, is recognized by the constitution of the United States clearly and unequivocally. The right of a slave to be relieved from all obligation to his master, is not a right that is recognised by that Constitution, notwithstanding Governor Leonard and Henry Ward Beecher and other abolitionists, may claim that it is a right recognized by a LAW HIGHER than the Constitution. That may or may not be so. Of that God himself is the only judge and fortunately in this enlightened age of the world we have no tribunals invested with power to enforce His decrees, or rather what fallible man declares to be His decrees. Philip the Second of Spain had such a government. He assumed to be the interpreter of the will of God, the higher law, and the groans of an hundred thousand immolated victims, and oppressed subjects, attested the melancholy fact, that he wielded the physical power to support his high pretensions. The enlightened sense of manhood at this age of the world stands aghast at the atrocities of a tyrant who, under the sanctimonious garb of a most devout profession of religion, and a representative of the will of God, flooded the Netherlands with blood, erected scaffolds upon which noble victims expiated the sin of patriotism, and planted stakes at which believers testified in flames the sincerity of their faith in the truths of reformed religion. Our government, thank God, does not assume the power to enforce the observance of any law higher than the Constitution under which it has its existence; but it does profess to enforce all laws passed in accordance with the provisions of that instrument, and has wisely provided a tribunal which has the legal and constitutional right to DECIDE whether laws HAVE been passed in consonance with those provisions.

This war then upon the Judiciary, this libel that Judicial construction will result in the overthrow of our liberties, must be put down, or the government itself must be put down, and "bloody treason flourish over us."

Blood Purifier and Blood Pills

DR. ROBACK'S
Scandinavian Remedies.

WHEN DR. ROBACK, THE CELEbrated Swedish Physician, introduced his Blood Purifier and Blood Pills in the United States, he set forth in plain language their curative powers. This was years ago. The task of recommending them has since been taken out of his hands.—Enlightened men whose character for sound judgment and philosophy, gives their opinions weight in the community, men who observe, reflect, and make "assurance doubly sure" before they decide—are everywhere approving and urging the use of these wonderful preparations. All who confide in the wisdom and honesty of this class, or who chose to investigate for themselves are now of one mind on this important subject.

Dr. Roback invites the attention of the sick to the

ORIGINAL LETTERS,

from members of the Medical Profession, Editors of public journals, well known Merchants and Farmers, and ladies of the highest respectability, giving accounts of extraordinary cures wrought by the remedies, of which cures they themselves were

EYE WITNESSES.

These parties may be consulted personally or by letter, by those who have any doubt on the subject. The evidence in the possession of Dr. Roback, which is at all times accessible to the public, establishes the following

FACTS:

That the Blood Purifier and Blood Pills have been proved by analysis to

CONTAIN NO MINERAL.

That they cure the almost universal complaint,

DYSPEPSIA,

with unerring certainty, and in a very short time. That after all other medicines have proved useless, they relieve

LIVER COMPLAINT,

and restore the health and strength of the sufferer. That

SICK FEMALES,

who have languished for years in helpless weakness and despondency, recuperate with great rapidity under their invigorating operation. That all sexual disabilities are removed by their cordial and gently stimulating properties. That they recruit

SHATTERED CONSTITUTIONS,

however they may have been trifled with and abused; that their direct tendency is to lengthen life and render it enjoyable. That acting directly upon the poisons of disease in the blood, they

CAUSE SOON TO HEAL,

and discharge from the system every taint of scrofula, whether hereditary or otherwise. That they

RECRUIT THE DEBILITATED,

and that there is no disease of the Stomach and Bowels, the liver, the nervous system, the skin, glands and muscles, arising from impurities of the blood and secretions in which they do not give prompt relief, and, (if administered before the very citadel of life has been invaded,) effect a painless and perfect cure.

Bear in mind that the Scandinavian Vegetable Blood Pills are endorsed by the experience of thousands of living witnesses, who, in letters, affidavits and medical works, and by word of mouth, proclaim them to be the very best preparation of the kind ever offered to the broken down victims of ill health. They hunt disease through every avenue and organ of the system, and to expel it thoroughly and permanently.

No one can doubt their superiority after one single trial—they are not only better but, in fact, cheaper than any other Pills, for it takes a less number to produce a better effect.

Price of the Scandinavian Blood Purifier, one dollar per bottle, or five dollars per half dozen. Or the Scandinavian Blood Pills, 25 cents per box, or 5 boxes for one dollar.

Read Dr Roback's Special Notices and Certificates, published in a conspicuous part of this paper from time to time.

Dr. Roback's Medical Almanac and Family adviser, containing a great variety of interesting and valuable medical information, can be had gratis of any of his Agents throughout the country.

In difficult or complicated cases, Dr. Roback may be consulted personally or by letter, enclosing one stamp for the reply.

From Rev. Mr. McMULLEN, Pastor of Roberts Chapel.

INDIANAPOLIS, October 6, 1857.

DR. C. W. ROBACK—Dear Sir: I have used your Blood Purifier for a nervous affection, from which I have suffered much at times. While it is pleasant to the taste, it certainly has a happy effect upon the nerves. Please accept my thanks for your kind regards, and believe me Yours,

J. W. T. McMULLEN.

CARLISLE, Warren Co., O., March 8, 1858.

DR. ROBACK—Dear Sir: For the benefit of suffering humanity permit me to say that I have found your Scandinavian Blood Purifier and Blood Pills a sure cure for indigestion and Liver Complaint. I have suffered from the above mentioned diseases for five years and have tried a great many physicians, but all to no purpose. I was advised by a friend to try your Blood Purifier and Pills, and did so. I was living in Cincinnati at the time, and I went to your office and purchased one bottle of the Purifier and one box of Pills to commence with, and bless the day I found your valuable medicines, for I am enjoying good health at present, and feel confident that the cure is permanent. Let others buy and take what they please; as for me, give me the Blood Purifier and Pills for all chronic diseases, which arise from impure blood and derangement of the digestive organs. I take no other medicines, and have not for the last eighteen months.

Most truly, T. V. BUBOIS.

Wanted—A Garden Spot.

THE subscriber wants to rent, as soon as possible, a Garden spot—a lot of ground containing 5, 10, 15 or 20 acres, as near the city as possible. A house and usual conveniences wanted on the lot.

The subscriber is a practical Gardener, having followed the calling a number of years, and understands well how the soil should be treated; that ground should be left in as good condition when the crop is taken off as when it is put out.

Information can be left at the Empire Office.

BEST'S
Fruit Tree Invigorator!

WE THE UNDERSIGNED, FARMERS having used Best's Fruit Tree Invigorator on our Fruit Trees, do certify that it will do all that it is recommended to do, and by applying it to the body of the tree, near the earth, will destroy the worm in the root, and cause the worms and insects to leave the branches. It also gives new life to the tree, causing a greater amount of healthy and invigorating sap to flow to the branches, producing a vigorous bud, so that frost will not affect it, unless it is an extremely hard one.

We have used it on old trees that were very much decayed, and they are now full of life and in good bearing order. It has the same effect on Peach, Pear, Plum and Apple Trees, Grape Vines, and all kinds of Shrubbery.

M. J. Swaegener, Washington Township, Montgomery county; Edmond Robinson, Clear Creek Township, Warren County; Adam Hawker, Beaver Creek Township, Green County; Martin Heffner, Beaver Creek Township, Green County; William Hipple, Miami County; Hiram Robb, Butler County.

TO THE PUBLIC

I purchased of Benjamin Best, last Spring, the right to use the Fruit Tree Invigorator on my farm, near the railroad crossing on the Xenia pike, five miles east of Dayton. My apple trees were covered with worms, the leaves half eaten and of a yellow color. I believed they would all die, but I used the preparation; my trees recovered new life and vigor, and bore a large crop of apples in the Fall, more than they had yielded for five years previous. I can therefore confidently recommend Best's Fruit Tree invigorator to the public.

February 16, 1860. ADAM HAWKER.

All farmers and nurserymen should be in possession of the Recipe for making this invaluable preparation, as in setting out young trees, if they are bathed at the roots at the time of setting, and for five or six days afterwards, not one tree in a thousand will die. It will also advance the growth and they will bear fruit one year sooner in consequence.

I will have a supply of the preparation on hand at my residence, 107 Jefferson street, for those who would like to use it on decayed shrubbery, &c. Flowers in pots should be bathed with it once or twice during the Summer to make them healthy. Recipes can be procured from me in Dayton, or at Brandenburg & Co.'s store, 300 Third street. The ingredients contained in this Recipe are not expensive, $1,50 being sufficient to procure enough for two hundred trees. Use it in the Sp
