

The Funeral of Governor Corwin.

The funeral of Governor CORWIN took place on Tuesday at Lebanon. The coffin contained simply an inscription of the dates of his birth and death.

Governor CHARLES ANDERSON, Lieutenant-Governor A. G. McDERMOTT, Hon. LEWIS D. CAMPBELL, and Judge J. N. MILLIKEN, of Hamilton; Judge A. H. DENNEY, GEO. J. SMITH and JAS. ANDERSON, of Lebanon; I. MISOR, Esq., and FLAMEN BALL, Esq., of Cincinnati, and Colonel A. DOAN, of Wilmington.

The funeral cortege was preceded by a society of Promasians, of which order the deceased was a very prominent member. Many stores of Lebanon were closed, and there seemed to be a universal regret at the demise of Ohio's illustrious son, as well as a sympathetic condolence with the afflicted family.

After the funeral services at the church, the coffin was conveyed to the Lebanon cemetery and deposited in a vault, there to remain until the return of Mr. CORWIN'S son from Mexico.

The State Debt of Ohio.

The Sinking Fund Commissioners have completed their report, which exhibits the following facts in regard to our State finances:

On the 15th of May, 1865, the date of the last report, the public funded debt of the State, foreign and domestic, was thirteen million six hundred and fifty thousand and eighty-two dollars and forty-five cents. During the six months it has been reduced one hundred and forty-eight thousand five hundred and sixty-eight dollars, leaving outstanding November 15, 1865, twelve million nine hundred and twelve thousand and fourteen dollars and forty-five cents. The amount paid as interest upon the public debt was \$176,341.37; amount in the Treasury to the credit of Sinking Fund is \$328,011.11.

This does not include the sum of \$25,750 on deposit at the New York Agency, subject to the order of a foreign creditor. Of the funded debt now outstanding, \$681,538.00 is domestic, payable in Columbus. The rest is denominated foreign debt, the interest and principal being payable in New York city. The total foreign and domestic debt of the State on the 15th of November, 1865, was \$14,897,273.34. The reduction effected since that time has been \$1,985,285.89; nearly two millions of dollars.

The Fund Commissioners will visit New York City on the 1st of January next, prepared to pay twenty per cent. of the five per cent. loan, amounting to \$1,000,000, which falls due at the pleasure of the State, after December, 31st inst., and they will recommend to the Legislature to authorize the transfer of \$300,000 from the Relief Fund to pay the balance of that loan. This transfer can readily be made, as the Relief Fund amounts to nearly two millions of dollars, but a small portion of which will be needed for the purpose for which it was levied, when Ohio had one hundred thousand or more soldiers in the field.

Damages for False Imprisonment.

Gen. SCHENCK, late Provost Marshal of the Buffalo district, was sued by CHARLES P. DAVIS, of Niagara Falls, for false imprisonment. Davis was charged with attempting to force a young man to enlist against his will, and was kept in confinement eleven days, when he was discharged by the Marshal. This occurred last February. Subsequently, DAVIS brought a suit against the Marshal, claiming damages to the amount of five thousand dollars. The case was tried at the Circuit Court, in Buffalo, last week, before Judge GROVER.

The defense plead only for "mitigation of damages, admitting the unwarrantability of the imprisonment, but showing the circumstances which rendered the action of the Provost Marshal one of good motive, being an effort to put a stop to enormous frauds practiced upon the government."

The judge gave the case to the jury, and they rendered a verdict of one thousand five hundred dollars for Davis. This case is an indication that there is a day of reckoning coming for those who have been reckless in the exercise of arbitrary power during the past four years.

Washington News.

The special telegraphic correspondent of the Cincinnati Commercial gives the following items of Washington news, December 25:

Six thousand six hundred and sixteen patents have been issued during the present year from the Patent Department—the largest issue ever made.

The pressure upon Congress for the removal of the present Committee on Agriculture, has been inaugurated by petitions from the Agricultural Societies of Ohio. There is scarcely a possibility of Mr. Newton remaining at the head of the Agricultural Department long after the advent of the coming year. The protests received in Washington against his further retention have been multiplied by every mail since the sitting of Congress.

Up to the present date, fifteen hundred and twenty-five National Banks have been organized, with an aggregate capital of four hundred and eight million four hundred and fifty thousand dollars. The whole amount of registered United States bonds is \$22,655. It is understood that the recommendation of Fessenden, Chief of the Treasury, extending the capital of the National Banks to \$100,000, will be brought up for the approval of Congress, that the banks in Southern States may have their quota under the law.

Secretary McCulloch's visit to New York was entirely satisfactory. It is understood that he will be able to get all the money he wants, without resorting to a sale of bonds.

It is announced that Secretary Harlan will soon resign his place in the Cabinet, and that Hon. Mr. Doolittle will succeed him.

NEWS OF THE DAY.

The Provisional Governor of North Carolina has been relieved, in a letter from Secretary Seward in the same terms as that addressed to Gov. Parsons, of Alabama. Gov. Orr, of South Carolina, has addressed a letter to Mr. Seward, thanking the Government for its cooperation in effecting the early restoration of the State, and assuring him of the fidelity of South Carolina to the Union.

The Indiana Fenian Convention adjourned on Saturday. An unsuccessful attempt was made to endorse O'Mahony, and resolutions were adopted sympathizing with the Senate, and referring matters in dispute to the arbitration of Head Centre Stephens. Important dispatches from the latter were on Saturday received by Col. O'Mahony. They were at once ordered before the Senate and Secretary of War.

Senator Sprague, Chairman of the Committee on Manufactures, recently addressed letters of inquiry to prominent manufacturers throughout the country. The replies received uniformly express the opinion that the tax on American products must be reduced, or a higher tariff imposed on foreign articles, inasmuch as the latter can now be sold in our markets at a cheaper rate than the former.

Judge Reagan, late rebel Postmaster General, stated in conversation at Galveston, that, in an interview with the President and Mr. Seward, they expressed the opinion that blood enough had been shed, and that there would be no more confiscations or executions on account of the late rebellion.

Gen. Schurz has published a report of the results of his observations on his late southern tour. It is just such a report as might have been expected. He, of course, thinks that military rule should not be suspended in the South, and that the negroes should be allowed to vote.

It is stated that the bitter feeling and animosity between the Mormons and the United States troops is daily increasing, and fears of a collision are apprehended.

It is said that the successor of Judge Catron, of Tennessee, on the Supreme Bench of the United States, will not be appointed for some time. He will be from the South.

The main portion of the frigate Merrimac has been raised and conveyed to the Portsmouth navy-yard.

Old military officers are said to be in Washington urging a fight with the Mormons.

The Cincinnati Presbytery has dismissed in disgrace Rev. M. L. P. Thompson, of the Second Presbyterian church in that city, for lecherous conduct.

No clue to the perpetrators of the recent \$15,000 robbery at Washington has been obtained.

It is believed that the Southern Members will be admitted within thirty days after the convening of Congress.

The Augusta, Ga., Chronicle and Sentinel states that about a thousand freedmen have already been sent from that section to the Mississippi valley, and adds: "These parties refuse to make contracts with their former owners; but the authorities are pursuing a course which will soon dispel this delusive idea. The freedmen will find that if he will not work in Georgia, he will have to work in some other State—and more than likely, in some location where he will not be so well taken care of and provided for as he would be with his old master in his old home."

Confederate Officers in Canada.

J. C. BRICKENRIDGE, Gen. McCausland, Col. HARRY GILMORE, Maj. J. CASTLEMAN, Capt. HINDE and others who have been officers in the army of the Confederacy, are living at Toronto. Gen. BRICKENRIDGE looks well and is in perfect health. It was reported during the war that his hair had turned from jet black to silvery white. That was a mistake. A few gray hairs are perceptible about the locks, that is all. He is keeping house in a humble, retired way. He is much respected by the citizens, and is invited to two or three parties a week, at the residences of the first families.

The National Intelligencer considers it a significant fact that the acceptance of the resignation of Butler was followed almost immediately by the promulgation of General Grant's report.

On Experiments.

What does ROBERT SCHENCK now think of President JOHNSON'S scheme of reconstruction? Is it still an "experiment?" Mr. SCHENCK was "prevaricating," we think when he informed the poor, "be-nighted citizens" of the West, last fall, that Mr. JOHNSON told him his scheme was simply an "experiment."

The so-called "experiment" is an accomplished fact. The President has announced the States back into the Union. South Carolina has assisted already as a State in amending the Constitution. So have other Southern States; yet STEVENS, SUMNER, SCHENCK, &c., keep the Southern Representatives out of Congress! Who are rebels, disunionists, traitors, now?"

THE WINTER SOLARISE.—We are now at the shortest days. The 21st of December was the shortest day of the year, the sun rising at 7:20 and setting at 4:36, making a day of nine hours and sixteen minutes. It is cheering to know that the days are now to grow longer, but the process is so slow that very little difference will be seen for three weeks or more to come. And "as the days begin to lengthen, the cold begins to strengthen." Winter, so far as the temperature is concerned, is just beginning.

In the Hands of New England.

The Rochester Union, alluding to the favoritism shown to New England members of the House by speaker Colfax in the make up of the committees, says:

Thus with twelve men in the Senate and twenty seven men in the House, acting as a unit in the interests of the pockets and principles—convertible terms—of their constituents, a little section of the Union far less in importance as to wealth, population, territory, &c., than the single State of New York, is enabled to virtually control the legislation of the country. This legislation, whether material or political in its nature is directed towards putting money in the purse of the favored section. High tariffs are kept up that the New England manufacturers may count the profits at the rate of from one to two hundred per cent. per annum.

The country is kept disturbed that a hungry market may be open and high prices prevail. The accumulated gains are either invested to increase the facilities of production or profit, or placed in United States securities free from taxation. The great bulk of the national obligations is held by manufacturers and money changers along a little strip of the Atlantic coast, and to the masses of the people are obliged to pay over their substance in taxes and in the two or three prices exacted for every yard of cotton cloth or other fabric they purchase. Allow the Union to be restored and the Southern States to have their full representation in Congress, and the denunciation of the New England manufacturers and fanatics is weakened if not destroyed. Hence their opposition to the President's policy of speedy restoration.

Catching It.

A correspondent of the Cincinnati Commercial, writing from Columbus, attacks SCHENCK on the ground that he did not join the Republican party until he found it was likely to succeed. We are glad to see this fact, so well known about here, generally circulated. It is true. But SCHENCK, when he did go in, made up by his meanness for lost time.

Hosette's Bitters on the Battlefield.

It is satisfactory to know that our field hospitals are no longer un supplied with this life-saving preparation. Soldiers who, as private citizens, had become acquainted with its properties, have in many instances made a special request that HOSSETTE'S STOMACH BITTERS might be added to the medical stores of their regiments, and their wishes have not been unheeded. As a means of sustaining wounded men on the battle field, and of enabling troops to bear fatiguing marches under a blazing sun, it has been strenuously recommended by distinguished medical men, and the prospect is that it will eventually supersede all the adulterated tonics, liquors and dangerous Tonics that have hitherto been considered medicinal staples. The fact that a small quantity of the Bitters mixed with water from any of the Southern or Southwestern rivers will prevent from afflicting the bowels or the throat, should be borne in mind by Army Physicians, soldiers, and all who have occasion to visit those portions of our country. The man who uses HOSSETTE'S BITTERS in conformity with the directions, may rest at defiance Intermittent Fever and all other diseases generated by a malarious or unwholesome atmosphere upon an overtaxed frame.
