THE POLICE COURT

And Other Municipal Reforms, as Contemplated for Springfield and Other Cities of the Same Class.

Full Text of the Proposed Bill to be Introduced into the Legislature, as Prepared by City Solicitor Summers.

Another town was taken last night in council at the attempt to give to Springfield some needed reforms in the matter of her municipal officers.

The provisions and the portion of the bill which is likely to be drafted a law that is likely to stand the test of constitutional legislation, he says, is just as good as any other, so long as it stands.

But people beginning to understand that special legislation is not to be given to any one class, and so no relief is afforded from that source.

As he explained his ideas on the subject to council a month or so ago, he thought it would become applicable to all cities of the second class, upon its adoption at a special election previous to the spring election by the voters of the city.

The City Solicitor Sumners has given a great deal of time and study to the subject, since the matter was first referred to him. To draft a law that is likely to stand the test of constitutional legislation, he says, is just as good as any other, so long as it stands.

DIED FROM SURGICAL OPERATION.

Official Statement of the Cause of Robert Benson's Death.

In the Medical News, Philadelphia, of January 1, Dr. J. C. Reeves, of Dayton, in commenting on the death of Robert Benson, who recent sudden and sad death is well remembered, stated that death was due to a thrust of an aspirating needle into the liver is search of a pus cavity.

The doctor says: "I took a medium-sized aspirating needle and thrust it into the right lobe of the liver, upward and backward to a depth of three inches. As the stopcock was turned and I looked to see if pus appeared, my attention was attracted by the heavy breathing of the patient. I looked at his face, saw the head drawn to the left, the eyes turned and fixed, a slight convulsive tremor passed over his features, which bore the plainest impress of death. I found his pulse gone; no movement of his heart could be felt. After a brief interval of entreaty, breathing, he drew one deep inspiration which was the last manifestation of life. I should estimate the whole time from the puncture of the needle until he was gone at not over one minute and a half."

It was charged at the time that death resulted from a surgical operation, but the drawing began at 7:30 and lasted until after midnight. The work was tremendously laborious. Nine hundred and seventy-five tickets were called off, and the prizes were hoarse as crows at the end. A great number of lead-pencil packages, a great number of tea, tin fire shovels, pass-books, plugs of tobacco, jumping jacks and other minor articles were drawn, but the big prizes all panned out fairly and were won on a square basis. The one exception to this was the barrow, which someone did not get into the box. The winners of the larger prizes and the numbers drawing them are as follows:

49. Champion steel mower—Chas. D. Spaulding, Globe-Republic office.

50. Double-barrel shot-brooding shotgun—J. Kelly.

51. Buckeye grain-drill—William Page, farmer south of town.

PYTHIAN PRIZES.

Drawing of the Prizes at the R. of P. Bazaar Last Night.

The drawing of prizes given by Division 44, U. R. K. of P., as a finale to their successful holiday bazaar, came off last night at the wigwam. A large crowd was in attendance, and everything passed off with the greatest good-humor. The drawing was conducted with thorough fairness and impartiality, and was done entirely by outsiders, so as to remove any suspicion that the K. P.'s favored their friends. The numbers were all placed in one tin cylinder and the names of the prizes in another. One check was drawn from each cylinder, and the number of the ticket corresponding to the number drawn was entitled to the prize indicated by the slip drawn at the same instant from the other cylinder at the Condesa Vanstrider and Mohr and Will Scott were in charge of the cylinders, and Stanley Young and J. A. McCarthy acted as recorders.

The drawing began at 7:30 and lasted until after midnight. The work was tremendously laborious. Nine hundred and seventy-five tickets were called off, and the prizes were hoarse as crows at the end. A great number of lead-pencil packages, a great number of tea, tin fire shovels, pass-books, plugs of tobacco, jumping jacks and other minor articles were drawn, but the big prizes all panned out fairly and were won on a square basis.
