The success is through an education at the
Marion Business College

The only school within 40 miles of Marion equipped to give its students a thorough business education.

We teach the GREGG system of shorthand. This system is taught by more schools in the United States than any other three systems combined. It is the easiest to learn, to read and to write. It can be learned in 1-3 less time than the old-time, shaded system such as the Pitman, Eclectic, Graham, etc. Each year we have students taking Gregg who made a failure in trying to learn an old system.

Visit our school and learn of the great work we are doing. New classes in all departments after Thanksgiving. Courses include: Bookkeeping, Shorthand, Typewriting, Mechanical Drawing, etc. Day and Night School.
