Modes and Manners for Matrons, Maids and Men. Is the novel title of a new Philadelphia magazine, devoted to fashion and literature. The originality of the name is well carried out by the sprightly tone and originality of the whole contents, which all the relish of freshness.

This very tasteful-looking, well illustrated serial is furnished by all newsdealers for only ten cents per copy; or to yearly subscribers, by the publisher for one dollar a year. It is evidently destined to attain an enormous circulation.

The Gallipolis Journal, the Monongel organ of Gallia county, is howling about the acts of Andy Johnson while he was President. Did the Journal editor vote for Johnson for Vice President?

The late rains appear to have been general throughout the country, and have done immense good to the growing crops. The fashionable hooped skirts are very small, nearly straight, and have a small abomination shaped out at the back.

Ohio law forbids some fishing between May 1 and October, of which fact fishermen will take notice.

The Supreme Court of Ohio adjourned on the 21st of June until September 20, 1870. We have received from the National Publishing Co., 178 Elm St., Cincinnati, O., copies of 'Life in Utah, or the Mysteries and Crimes of Mormonism, by J. H. Beadle,' and 'Paris by Sunlight and Gaslight, by J. D. McCabe, Jr.'

Jeff Davis is said by the Religious Herald, of Richmond, to have recently made the following address at a Sunday school picnic: 'My friends—there was a time when I could say fellow citizens—I congratulate you upon the demonstration of this day in behalf of Sabbath-schools. It is a great and noble work, that of giving moral and religious training to the rising generation. To them we must look for the resurrection of the buried hopes of the past. I am flattered by the compliment you have paid me; but I feel that it is not to paid me so much as an individual as representative of the cause of constitutional liberty for which our Revolutionary Fathers fought and bled, and which is still dear to my heart. I thank you.'

The sins of the self-styled 'Republican party' are not only against the established laws of civil government, but directly against the established laws of God. It is time for honest Republicans to gather at the polls and silently and quietly vote Mongrelism out of existence, and permit white men to rule this country.

The House of Representatives on Wednesday last resolved that Whittemore, the South Carolina cadetship seller, is unworthy to hold a seat in that body, and therefore refused to admit him. There can be no question as to the propriety of this decision. It will be remembered that he was expelled from the House about four months ago for selling cadetships, and went home and was re-elected without opposition by negroes.

Among the many plans suggested for the payment of the national indebtedness and the consequent reduction of taxation, resuscitation of internal trade, &c., is one received by the President a few days ago, and addressed to the Executive and Congress from a scheme in San Francisco, proposing the passage by Congress, before adjournment, of a grand international gift enterprise on a scale of magnificent splendor that will transcend anything of the kind that has ever taken place.

OLD LADY.—'Doctor, is it true that snuff injures the brain?' DOCTOR.—'Certainly not, madam. Those who have brains never use it.'

The survey of the Columbus and Ironton Railroad, through Pike county, cost over one thousand two hundred dollars. The skeleton of an Indian was plowed up near Toledo a few days ago. The bones were in a good state of preservation and lay quite near the surface of the ground. A pipe, knife and hatchet, supposed to have belonged to the departed scalper, were also unearthed.

The Allen county Democrat reports wool at 35 to 40 cents.

'Bear it, Feyther!—It Will be the Making Uv the Pup!' The Democracy all over the country are delighted with the workings of the 'Fifteenth Amendment.' If it will only keep on, there will be one of the most astounding white men's victories in 1872 the history of political revolutions ever recorded. New York has given the cue to the balance of the country. Oregon wheeled into line nobly a month after. This thing called nigger voting is telling upon the nigger party in a manner little expected; and the best of the joke is, Sumner, Phillips & Co. urge their friends 'not to squirm under the effects of the New York returns; the nigger vote will yet be our salvation.' We are reminded of a story of our friend, Solon Robinson, of the Tribune. When a boy on his father's farm, he undertook to train a bull pup for service. To get him to 'fasten' his teeth upon something, there being no bull handy to practice upon, Solon induced his respected parent to get down upon all fours and imitate the old lord of the cow pasture. 'Growler' made for the 'fond parent' with a bound, and took a 'hold' on the gable end of Robinson, senior, which ten men could not make 'let go.' The paternal roaring was fearful, but it was of no avail. Solon was delighted. 'Hold him, Growler, boy!—hold him! Bear it, feyther, bear it!—it'll be the makin' uv the pup!' It is quite certain that this turn at the ballot-box will be the 'makin' of Sambo, making him useless and worthless, but from the squirming, roaring, and contortions of the party he has fastened upon, we are inclined to think they will soon shake him off, spite of the advice of Phillips, Sumner & Co., who, thinking that all the nigger needed was 'freedom' and a 'vote' to make a white man of him, cry out, 'bear it, feyther, bear it!—it'll be the makin' uv the pup!'—[New York Day-Book.

On the evening of the 16th, near Woodstock, Illinois, Mrs. Peter Weitzel, in the absence of her husband, while her son, aged eighteen years, was sitting at the table, eating his supper, seized an ax and dealt him several blows on the head, breaking in his skull and rendering him insensible. She then seized a razor, rushed upon her little daughter, aged eight years, who was asleep on a lounge, and cut her throat in a shocking manner. The daughter managed to escape, reached a neighbor's and gave the alarm. When the neighbors rushed in Mrs. Weitzel was found in her bedroom, with her windpipe nearly severed. The recovery of any of the three is doubtful.

The attempt to thrust negro cadets into the Military Academy at West Point, excites measureless indignation among both students and professors. The negro presence will not be tolerated there.

A newspaper very sensibly says: 'You might as well attempt to shampoo an elephant with a thimble-full of soapuds as to attempt to do business and ignore advertising.'

On Wednesday, the 15th inst., as he approached the Platte river, the engineer of a train on the Pacific Railroad discovered a band of Indians, about three hundred, mounted, and crossing the track. As the train neared, the Indians began to yell. The engineer, supposing they were about to attack the train, put steam on and dashed through the crowd, killing thirteen Indians and as many ponies.

The new Catholic Church at Lima, Allen county, is to be completed this season.

It is estimated that lands worth One Hundred Millions of Dollars, have been given away to Pacific Railroad sharks. Will the people submit to this? Jerome D. Smith, census-taker in Clinton county, Ohio, who has been hard at work since the 1st of June, and had succeeded in getting quite a large amount of census statistics together, while arranging them, on a recent evening, became tired and left his room to procure a pitcher of water. During his absence the papers on his table caught fire and were burned, and now the work must be all done over again.

Grant owns one hundred thousand dollars worth of Government bonds, which could not but be depreciated in value by a war with Spain. It is not strange then that he should come out so flatfooted against the Cubans, and in favor of their oppressors. If Grant has no particular state sagacity, he at least knows on which side his, an his friends', bread, is buttered.

In England, crop prospects are not very encouraging. Wheat looks well, but potatoes will not be half a crop. Hay will be a poor yield, while oats, barley, etc., are meager.

At the special election held in Jackson, for City Marshal, on the 13th, John R. Rathburn, who has been Marshal for three years, was the Democratic, and George B. Walterhouse, the Republican candidate. The vote was light, there being but 336 votes polled, out of which Rathburn had a majority of 84.

There is evidence everywhere that the Radical party is on the sunset side of its existence. Wherever elections are held it shows unmistakable signs of decay. Leading men are leaving it, George W. Weber, of Springfield, Illinois, Chairman of the Radical county committee for Sangamon county, publishes a card in which he announces that he can sustain that party no longer. This is only a single case among many. In Indiana the list of those announcing that they can act with that party no longer is said to reach an aggregate of three thousand.

Decidedly the poorest man in these stirring times is the man who is too poor to take his local newspaper. We pity such a man, especially if he is a man of property. Who ever heard of a man too poor to smoke or chew tobacco, if addicted to either habit? And yet men who spend ten to fifteen cents a day for the weed are too poor to take a newspaper, in the intellectual enjoyments of which their families might participate. They do not know how to use the wealth they possess.

The New Lexington Herald has information that an unusual amount of wheat has been sown in Perry county, and that the prospect for a good harvest was never better.

The blackberry bloom is abundant this season, and the crop promises plentifully.

The papers from all parts of the State, speak very hopeful of the fruit prospects.

The high protective tariff on the four articles of pig iron, hides, salt and paper, yields the government a revenue of not less than four millions, while it puts into the pockets of the home manufacturers of the same articles over fifty-seven million dollars, paid them by the consumers of the same.

Ninety thousand white men in the State of Missouri are not loil enough to vote; but they can pay four cents on the dollar in taxes to support the Mongrels who rule them with an iron rod. It is needless to say negroes can vote in 'Free Misery.' The great question of this hour is, how long will the people allow the heads of the scoundrels who do these things to remain on their shoulders?

A newspaper paragraph says: 'The President has recovered.' 'What has he recovered? There never was a wretch on earth that had so little to lose, when the negro war set in. He was at the lowest possible round of the human ladder. He was picked up out of the most squalid poverty, ignorance, and drunkenness. This poverty has been remedied, but his ignorance and moral depravity are eternal.'

The Census takers in this county are now busily at work. They are to complete their labors before the fifteenth of August. It is the duty of all persons to answer their questions correctly, speedily and in a polite manner. By so doing you not only aid them, but you will assist in having the Census correctly taken.
