FIRST RIDE ON TRAIN.
Mr. and Mrs. James Curlls, of Sycamore, who came here Monday to attend the celebration of the golden wedding of Mr. and Mrs. Tillman Zolner, are among the foremost and most wealthy people of that village.

The trip to Bucyrus Monday is an eventful one to Mrs. Curlls, who is now in her seventy-second year. It was her first ride on a steam passenger train. She enjoyed the trip immensely and states that she intends to enjoy many more trips on the steam cars if she is spared for a few years longer. She has never had the pleasure of riding on an electric car. The trip there Monday was also the first Mr. Curlls to that city in the last ten years.—Gallon Daily Leader.

THE GREAT WHITE PLAGUE.

The Cause of Tuberculosis.
In 1882 Robert Koch of Germany proved that tuberculosis belonged to the class of germ or infectious diseases by discovering the particular or specific germ that must always be present in the body afflicted with this disease. This germ, because of its rod-shape is called the Bacillus Tuberculosis.

Since then it has been proven also that the predisposition to the disease exists in those persons whose health for any reason is below normal. In other words, the old idea that tuberculosis was hereditary has been shown to be an error. The most that can be inherited is the predisposition, namely, a weakened body, and a weakened body is far more often acquired than inherited.

Blocking Traffic.
There were times when McFee glori-ed in the fact that he was the father of nine children, even if they were on the lines of the proverbial human stop-ladder, but on the day when he was taking them out for a walk he felt disgraced.

He was walking along at a fairly good gait when he was halted by a policeman, who asked:
"I say, you, what you been doing?"
"Nothing," replied McFee. "Why?"
"Well, what's the crowd following you for?"—Judge.

THEATERS.
Colonial.
The dazzling Durbar, in all its regal grandeur, will be revealed when that marvelous invention, the Kinemacolor, comes to the Colonial Theatre, in Columbus, for one week, beginning Sunday, April 14th, with matinee daily except Sunday.

These wonderful motion pictures show a barbaric blending of color that could be found nowhere else but in primitive India. Potentates are seen riding chargers comparisoned with silver and gold cloth; slave girls, Hindu fakirs, Natch dancers, regiment upon regiment of mounted and foot soldiers, and all the sacred animals of the Orient, from tiny oxen to herds of ponderous elephants, forming a pageant more wonderful than any ever staged before, even on India's coral Strand.

The presentation of the Durbar in "Kinemacolor" at the Colonial in Columbus will include the following pleasing and educational procession: "The Royal Visit to Bombay"; "Preparing for the Durbar"; "The Arrival of the King and Queen"; "The King's Entry into Delhi"; "The King's Camp and the Reception to the East Indian Princess"; "The State Garden Party"; "The Point to Point Horse Races"; "The Polo Tournament at Delhi"; "The Elephant Stockade"; "Preparing the Royal Animals for the Pageants"; "Scenes in the Durbar Camp"; "The Grand Review by the King-Emperor of 50,000 British and Native Troops, and one hundred other events, which, by all odds, are the most wonderful scenes ever produced by any but Nature's own Necromancy—Kinemacolor."

STENCIL DESIGN FOR CORNERS OF CUSHIONS OR TABLE COVER.
This is a very effective stencil design for the corners of a sofa cushion or table cover. See directions for stenciling.

If embroidery is preferred to stenciling for the design, work the large curved figures and the circles in the mercerized cotton No. 16 should be used.

Directions for Stenciling.
An inexpensive way of making a stencil design is to take a sheet of heavy manila paper, lay the pattern on it, slipping a sheet of transfer paper between. Then draw firmly over the lines of the design with a hard sharp pencil upon a smooth hard surface of the design. A pair of curved scissors should be covered with a thin coat of paraffin or dipped in linseed oil and allowed to dry thoroughly so that when the color is applied it will not blur. Tapestry dyes or oil paints may be used, thinned with turpentine. Linen, crash, burlap, cheese cloth or color very carefully with a short round brush, first squeezing out all extra moisture. The stencilled design may be finished in rope silk in the outline.
