REDWOOD MOTORS, Inc.

LAKE SHORE BLVD. at EAST 185th STREET

Ivanhoe 3412

WHY . . . WE'RE QUITTING

Redwood Motors is quitting business on order of its Board of Directors because it believes:

1. That small businessmen should have full control of their own business without interference and factory domination.
2. Freedom of operation cannot exist where factory policies insist on loading dealers with unnecessary equipment, parts and accessories.
3. Rather than force useless and unwanted accessories on our customers, we feel that the cleanest and fairest way is just to quit business.
4. We believe that poor relations between dealers and the public are caused by factory policies of a dictatorial nature forcing dealers to take merchandise that they don't want and in turn the dealer forcing the public to buy unwanted equipment and accessories.
5. The directors and owners of Redwood Motors have been residents and active in civic affairs in Euclid and Northeast area for too many years to jeopardize their relations with the public in order to satisfy the greed for profit of the Manufacturer.
