Wash Hudson Puts Oil Bill in House

tion. As it originally stood this clause would have made the bill unconstitutional. The bill was introduced in the house by Representative Wash Hudson, chairman of the house oil and gas committee, and in the senate by Senator H. L. Davidson of Tulsa, chairman of the same committee in the upper branch. "It must not be understood," said Mr. Hudson this afternoon, "that because I introduced this bill I am in favor of it. I merely introduced it at the request of certain producers and Mr. Henshaw of the corporation commission. In this manner we will get the subject before our committee. We will give full hearings to all interested parties and I hope the Tulsa producers will avail themselves of this opportunity to be heard. It is possible that when the bill is recommended for passage, if it is recommended at all, it may carry certain amendments and changes that will make its meaning and application entirely different from the way it reads now."

Senator Davidson made a like statement to his colleagues. The full text of the bill follows: House bill No. 185, by Hudson of Tulsa, of the house, and Davidson of Tulsa, of the senate:

Be it enacted by the people of the state of Oklahoma: Section 1. That the production of crude oil or petroleum in the state of Oklahoma, in such manner and under such conditions as to constitute waste, is hereby prohibited. Sec. 2. That the term waste, as used herein, among other things, shall include economic waste, underground waste, surface waste and waste incident to the production of crude oil or petroleum in excess of transportation or marketing facilities or reasonable market demands. What shall constitute waste, under the foregoing definition, or any particular case, shall be a question of fact. The corporation commission shall have authority to make all reasonable and necessary regulations for the prevention of such wastes, and for the protection of all fresh water strata and oil and gas bearing strata encountered in any well drilled for oil.

Regulate Production. Sec. 3. That whenever the full production from any common source of supply of crude oil or petroleum in this state can only be obtained under conditions constituting waste, as herein defined, then any person, firm or corporation having the right to drill into and produce oil from any such common source of supply, may take therefrom such proportion of all crude oil or petroleum, that may be produced therefrom without waste, as the production of the well or wells of any such person, firm or corporation, bears to the total production of such well or wells. The corporation commission is authorized and directed to so regulate the taking of crude

oil or petroleum, from any or all such common sources of supply within the state, as to prevent the inequitable or unfair taking, from a common source of supply, of such crude oil or petroleum, by any person, firm or corporation, and to prevent any unreasonable discrimination in favor of any one such common source of supply as against another.

Gauge Wells. Sec. 4. That for the purpose of determining such production, a gauge of each well shall be taken under rules and regulations to be prescribed by the corporation commission; and said commission is authorized and directed to make and promulgate, by proper order, such other reasonable rules and regulations, and to employ or appoint such agents, with the consent of the governor, as may be necessary to carry this act into effect.

Sec. 5. That any person, firm or corporation, or the attorney general on behalf of the state, may institute proceedings before the corporation commission, or apply for a hearing before said commission, to determine the question relating to the enforcement of this act; and jurisdiction is hereby conferred upon said commission to hear and determine the same. Said commission shall set a time and place when such hearing shall be had, and give reasonable notice thereof to all persons or classes interested therein by publication in some newspaper, or newspapers, having general circulation in the state. In the exercise and enforcement of such jurisdiction, said commission is authorized to summon witnesses, make auxiliary orders, and use such measures and final process, including inspection and punishment as for contempt, analogous to proceedings under its control over public service corporations as now provided by law.

Sec. 6. That appellate jurisdiction is hereby conferred upon the supreme court of this state to review the authority of said commission in making any orders under this act. Such appeal may be taken by any person, firm or corporation shown by the record to be interested therein, in the same manner and time as appeals are allowed by law from other orders of the corporation commission. Said orders so appealed from shall not be suspended, but shall be in full force and effect until finally reversed or set aside.

\$5,000 Fine. Sec. 7. That in addition to any penalty that may be imposed by the corporation commission, any person, firm or corporation, or any officer, agent or employee thereof, directly or indirectly violating the provisions of this act, shall be deemed guilty of a misdemeanor, and upon conviction thereof in a court having jurisdiction may be punished by a fine in any sum not to exceed five thousand dollars (\$5,000), or imprisonment (30) days, or by both such fine and imprisonment.

Sec. 8. That all acts or parts of acts in conflict with the provisions of this act are hereby repealed.

Sec. 9. That for the immediate preservation of the public peace, health and safety, an emergency is hereby declared to exist, by reason whereof this act shall take effect and be in full force from and after its passage and approval.

tee of the whole, instructed the committee to prepare a substitute bill that would affect only the conveyer of lands or tenements in which there is no title.

Prohibit "Bad" Movies. Two bills, aimed at the exhibition of bank robber and other "criminal" moving pictures, were introduced in the house today. Hayes of Pontotoc and Barber of Grand introduced a measure prohibiting the exhibition of any criminal or immoral picture. The bill, in specifying the kind of pictures to be prohibited, includes scenes of robberies, meetings of crooks and scenes of the making of counterfeit money, the police, portrayal of graft, etc.

Paul Nesbitt of McAlester offered a bill that prohibits the showing of "movies" in which outlaws or "swag" characters take a part. It also prohibits the exploitation of anyone who has committed a crime and was apparently inspired by the "Heating Back" pictures shown in the state by Al Jennings, who, through this very medium, gave some of the Democratic candidates a hard race for the gubernatorial nomination in the primary last August.

Peery of Latimer county introduced a bill providing for the establishment of "blue sky" credit in Oklahoma, and making a state appropriation therefor. This is intended to furnish the farmers small loans at a nominal rate of interest. It authorizes the creation and organization of co-operative banks for personal credits and for co-operative banks for realty credits.

"Blue Sky" Bill. A "blue sky" law was proposed by Representative Waldrep of Pottawatomie county, who introduced a

bill prohibiting the sale of fraudulent stock or bonds of any description.

House concurrent resolution No. 5, introduced today by Lemon of Grant and McCollister of Greer, memorializing congress to pass the Sheppard-Hobson resolution proposing a prohibition amendment to the constitution of the United States. In view of the fact that congress has already voted down the Hobson resolution, the Lemon-McCollister move probably will be pigeon-holed.

Rev. J. G. Blackwood, chaplain of the senate, took up a collection in the house today for the purchase of an overcoat for the chaplain of the house, an old soldier who lost his overcoat a few nights ago and is unable to purchase a new one. Rev. Blackwood raised the sum of \$15.15 for this purpose.

The newly created house committee on capital affairs was appointed by Speaker McCrory this afternoon and its first official act was to attend the opening of bids for the construction of the capitol, which was conducted by the capitol commission at the Lee-Huckins hotel. The members of the committee are Young, chairman; Sitton, Durant, Taylor, Hensley, Wright, Zablouddil, Brown and Howe.

Durant and Panama. Representative Durant moved to reconsider the vote which the committee report on the Oklahoma building at San Francisco bill was adopted. He went into details regarding the character of building that is proposed to be erected at the exposition and explained more fully than he did two days ago the work of the Oklahoma Panama exposition commission. Representative Dunn of Pottawatomie county made a spirited speech in behalf of the bill and seconded the motion of Mr. Durant. Representative Hill, Socialist, spoke against the bill. On roll call the motion prevailed with but few dissenting votes and the bill was ordered placed on the calendar. It probably will come up again for passage tomorrow or the next day. It appropriates the sum of \$6,000 for the Panama building at the Panama-Pacific exposition. Fred Sutton of Oklahoma City has put up \$5,000 of his own money to insure the erection of the building and if the legislature does not pass the appropriation measure he will be forced to make good the guarantee of his own pocket. Governor Williams has agreed to sign a bill for this amount if one is passed.

A petition from the women of McAlester for favorable action on a bill making wife or child desertion a felony was introduced by Representative Nesbitt of Pittsburgh county and read.

H. B. Maxey asked to be relieved from duty on judiciary committee No. 1 and Representative Sykes of Tulsa was appointed to fill the vacancy. House bill No. 190 was withdrawn by the author.

When the house went into committee of the whole to consider the Hunter-Taylor bill Representative Glasco of McClain county was called to the chair by Speaker McCrory. The latter is taking "turn about" in this respect with the men whom he defeated for the speakership. Tom Hunter and C. C. Childers have already presided over the committee of the whole in addition to Glasco.

Against "Full Crew." A resolution adopted by the Tulsa Commercial Club and urging the legislature to refrain from passing "full crew," "hospital" and other laws that would place additional burden upon the railroads or other public service corporations of the state was introduced by Representative James H. Sykes and read. A similar resolution from the Tahlequah Commercial club was read in the house yesterday.

The oil and gas committee of the house met today and organized by electing James H. Sykes of Tulsa secretary, Representative Wash Hudson of Tulsa is chairman of the committee. All of the seventeen members were present. It was decided to give oil producers from every field in the state a fair and full hearing before the legislature.
