World War Will End at 6 o'Clock This Morning; Armistice Signed By Germany.

CONDITIONS TO BE ANNOUNCED LATER

Known That Army Must Disarm and Demobilize; Strategic Points Will Be Occupied; Fleet To Be Given Up.

By The Associated Press. WASHINGTON, Nov. 11.—The world-war will end this morning at 6 o'clock Paris time. The armistice was signed by the German representatives at midnight. This announcement was made by the state department at 2:50 o'clock this morning.

The announcement was made verbally by an official of the state department in this form: "The armistice has been signed. It was signed at 5 o'clock a. m., Paris time and hostilities will cease at 11 o'clock this morning, Paris time.

The terms of the armistice, it was announced, will not be made public until later. Military men here, however, regard it as certain that they will include:

Immediate retirement of the German military forces from France, Belgium and Alsace-Lorraine.

Disarming and demobilization of the armies.

Occupation by the allied and American forces of such strategic points in Germany as will make impossible a renewal of hostilities.

Delivery of ports of the German high seas fleet and a certain number of submarines to the allied and American naval forces.

Disarmament of all other German warships under supervision of the allied and American navies which will guard them.

Occupation of the principal German naval bases by sea forces of the victorious nations.

Release of allied and American soldiers, sailors and civilians held prisoners in Germany without such reciprocal action by the associated governments.

There was no information as to the circumstances under which the armistice was signed, but since the German courier did not reach German military headquarters until 10 o'clock yesterday morning, French time, it was generally assumed here that the German envoys within the French lines had been instructed by wireless to sign the terms.

Forty-seven hours had been required for the courier to reach German headquarters and unquestionably several hours were necessary for the examination of the terms and a decision. It was regarded as possible, however, that the decision may have been made at Berlin and instructions transmitted from there by the new German government.

Germany had been given until 11 o'clock this morning, French time, 6 o'clock Washington time to accept, so hostilities will end at the hour set by Marshal Foch for a decision by Germany for peace or for continuation of the war.

The momentous news that the armistice had been signed was telephoned to the white house for transmission to the president a few minutes before it was given to the newspaper correspondents. Later it was said that there would be no statement from the white house at this time.

By The Associated Press. WITH THE AMERICAN FORCES ON THE MEUSE FRONT, Nov. 10 (6 p. m.)—General Pershing's troops this afternoon captured Stenay, on the east bank of the Meuse, notwithstanding terrific opposition. Stenay, which was strongly fortified, was taken in an attack from the south. The Americans swept forward against streams of machine gun bullets and artillery fire from the hills northeast of Stenay. The entire district in the region of Stenay was flooded by the Germans who jammed the canal and rivers. The Americans, crossing the river Meuse from below, took Stenay in a great northward push.

Disorder Reported in German Hanks.

By The Associated Press. WITH THE FRENCH ARMY IN FRANCE, Nov. 10—(2:30 p. m.)—Disorder is beginning to show in the ranks of the retreating German army. French troops with their cavalry in the lead are pressing the enemy closely all along the line. The body increases in importance as the pursuit goes on. Several railroad trains, batteries of artillery in fact, immense munition dumps and stores and wagon trains fell into the hands of the allied troops yesterday and today together with a large number of prisoners.

Task Now Is to Restore Order and Prevent Repetition of Bolshevism.

By The Associated Press. The German people, for a generation the obedient and submissive servants of their war lords, for more than four years his pliant instruments in ravaging the world, have spoken a new word and the old Germany is gone. From the confused, sometimes conflicting and often delayed advices from Germany in the last two days, it has now become apparent that William emperor and king, has been stripped of his power. He is now plain William Hohenzollern, a fugitive in Holland. With his fall topples into ruin William's mad design to rule the world.

Little is known today of the situation in Germany, for that country is in the first days of its new adventure. It is not clear whether the old regime has been permanently dissolved or whether the new authorities, with the unscrupulous adroitness which has long marked German politics, are merely sacrificing the chief figureheads of Kaiserism in the hope of obtaining an easier peace. It appears probable
