

DENSMORE MAY FACE FRISCO INDICTMENT

Pickert Says He Will Ask Grand Jury to Probe Wire Tapping Charges.

MOONEY STRIKE PLANNED

Leaders Insist on New Trial for Prisoner Whose Sentence is Commuted to Imprisonment.

SAN FRANCISCO, Nov. 29.—Charles M. Pickert, district attorney of San Francisco, announced today in a signed statement given to the Associated Press that he would ask the county grand jury to indict John B. Densmore, federal director general of employment of the department of labor, under sections relating to wire tapping. The alleged wire tapping was said by Pickert to have been done in connection with Densmore's report to Secretary of Labor Wilson on the Mooney cases.

In this report there were set out many conversations alleged by the report to have been obtained by listening on telephone wires from a number of offices including that of the district attorney, the telephone line from Pickert's law office and several others.

At a meeting today the grand jury returned a request a Governor W. D. Stephens that he direct Densmore to appear before that body and tell what he knows of the report. A certified copy of the report was also made for this action was predicated on Secretary of Labor Wilson's decision to place the report and the services of Densmore at the disposal of the governor. Both the secretary and Densmore said that the governor should conduct an investigation arising from the report.

WASHINGTON, Nov. 29.—Communitation of the death sentence of Thomas J. Mooney by Governor Stephens of California, does not in any way settle the case from the view point of organized labor, says a statement issued today by Frank Morrison, secretary of the American Federation of Labor, taking the position that the charges of perjury in connection with the conviction make a new trial imperative.

NEW YORK, Nov. 29.—Efforts to set Thomas Mooney free will not be abandoned, said W. D. Patterson, representative of the international workers' defense league, at the headquarters of the organization here today.

Patterson further declared the plans for a general labor strike on December 9 in behalf of Mooney would be continued.

SAN FRANCISCO, Nov. 29.—Dissatisfaction with Governor Stephens' action in commuting Thomas J. Mooney's death sentence to life imprisonment was expressed here today by E. D. Nolan, secretary of the International Workers' Defense League.

SOLDIERS APPRECIATE AND REALIZE CANTEEN WORK

It's mighty seldom the Red Cross canteen workers don't bat a thousand with the soldiers—privates and officers. The women who are doing the canteen work are doing it with a big smile on their faces and the link the canteen work with a bit of cheer, a smile or a bite to eat—have a whole lot of fine words about them. So when one of the soldiers showed up at the canteen and gave a retort discourteous to one of the canteen workers, a nearly started a riot.

ATTACK BY VILLA FEARED BY RESIDENTS AT JUAREZ

JUAREZ, Nov. 29.—The Western Union telegraph office and many stores closed here early tonight, fearing an attack by Francisco Villa's command which is somewhere between Tijuana and Juarez, 23 miles from here, and the city of Juarez is in a state of tension. The military officers insist that one will be made within the next few days. The military officers insist that one will be made within the next few days. TOOK DRINK OF VINEGAR AND THEN LOST HIS MIND

"A man named Ash gave me a drink of vinegar and after that I remember no more. When I came to at the police station, I was in a state of mind. That is the excuse J. C. Harris gives for attempting to shoot Police Muller on the night of November 9. A turned out, Harris, who has many aliases, succeeded in missing Muller, but was successful in shooting himself in the side and seriously wounded.

Carpet Is Essential But There Are Many Other Needs Lacking

Wanted—a carpet. Must be thick and warm, and of bright cheery colors, preferably. Delivered to the offices of the Red Cross home service in the Wright building, corner Third and Broadway. One poor, old gray haired mother, devoid of all support, desperately poor, and mourning the death of her soldier son, who was killed in a German bayonet in a September drive, in need of a carpet. Not for the luxury of having something soft and pretty underfoot, but for the painful necessity of keeping the cold winter breezes from coming in through the great cracks and holes in the floor of her homely little sitting room and bed chamber combined. When discovered by the home service, the good patriot, who had uncomplainingly given her all to the service of her country, did not have even a back door to her miserable little shanty, but nightly being up in bed, and a brain fever had been afflicting her, and even outer garments, would be acceptable, the floor covering is most essential to the old mother's health, and some kind Tulsa is asked to supply.
