FIGURE UP THE INTEREST

on \$5,000, or any sum, at 4 per cent and it will represent the earnings of that sum when deposited in

The CHICKASAW TRUST CO. BANK.

This institution is established on a sound financial basis. Business is done in a careful, conservative manner which ensures absolute security for depositors.

A SAVING OF STEPS.

If a Telephone would save you a half dozen trips a day—it usually saves people from three to six times that many—wouldn't it be an economical investment?

A telephone in your house or place of business costs you less than 10 cents a day. Six trips a day would cost you not less than ten cents each, or a total of 60 cents. In a month this would foot up the enormous total of \$18 counting Sundays and all. But some business men use their phone 100 or more times a day. They couldn't do without it.

We'll install your phonograph in a day's notice. Our local exchange and toll system have all been overhauled and placed in first class condition. We guarantee good service; prompt, courteous attention. All you have to do is "ring up central".

Don't you think you had better install a phone?

TOPEKA AND EL RENO TELEPHONE CO.

Hot Weather LIGHTS

This sweltering weather is too hot to think of burning kerosene. It heats up your house, draws bugs and insects, the breeze makes the chimney smoke, and the whole effect is disagreeable generally. Besides, it is poor light. Why not try Electricity? We will wire your house and put in your lights while you wait, and at reasonable figures. Once tried you will never use any other light.

THE COOLING BREEZE

Which comes from our new system of Electric Fans is just what you need to cool your office, your bedroom, your parlor or your home. This is a new improvement, and we are installing fans, motors, etc., every day. Better get one yourself. When you can keep cool at a small cost, and possibly ward off a spell of sickness, it is true economy to do so. SEE US FOR RATES.
